**RE: African Migrants brutally murdered in a blatant cover up**

On June 24, 2022, the world witnessed over 6,000 African students in yet another blatant massacre and **tragic criminal cover up**. The gruesome killings of hundreds of Africans students looking for asylum met their death at the Melilla border between Morocco and Spain and the videos of their untimely deaths went viral despite the cover up of the mainstream media that is now a co conspirator and guilty of tampering with evidence in an effort to conceal a part of the investigation.

Viral footage of Moroccan police officers were seen shooting at innocent and perpetuating unequal violence to hinder these African students from crossing over to Spain and months later on December 15th, 2022 the world witnessed **The President of The United States, Joe Biden, jokingly** watch the World cup Semi, with the Prime Minister Weah Buhari. The same murderers responsible for this brutal inhumane massacre. Biden quoted he was “proud of their performance despite their 2-0 defeat.” The question remains, when will the demonic persecution and cover up of African blood stop flowing and when will we rid ourselves of this Wetiko insanity. Today we ask that all involved be held accountable and the politics that suffocate our rights and freedoms dissolve.

Here are just a few publications that were ignored by the very people who are assigned to protect the Human Rights of All Human Beings Equally and here is why Black Lives Don't Matter.
