

PALEONTOLOGY IN BRITISH COLUMBIA SCIENTIFIC WORKS OWING TO AMATEUR CONTRIBUTIONS

INTERNAL NOTE:

Below is my augmented list in keeping with the current webpage citation style. **Blue entries** are those included in the original list. A total of 143 entries have now been organized under the five headings of Invertebrate Paleontology (54), Micropaleontology (3), Paleobotany (51), Paleoentomology (19), and Vertebrate Paleontology (16). I have provided DOI numbers for all entries if existent. In its current form, the list has a decidedly West Coast bias as I have been less familiar with the amateur collaborations in the interior. Included in my list are publications based on specimens collected by amateurs—even without explicit acknowledgment—based on my own knowledge. Ascertaining this hidden cultural history is the greatest challenge in the exercise as it requires learning if an institutionalized specimen was collected by an amateur; something often not reported in professional practice.

- Sandy McLachlan 11.13.20

The following list of peer-reviewed scientific publications provides examples of research on BC fossils made possible by amateur paleontologists. These contributions include written acknowledgement of the lending and preparation of specimens, donations to institutions, personal communications, and participation in fieldwork, as well as examples of joint authorship of publication (names in bold typeface)

INVERTEBRATE PALEONTOLOGY

2020

Feldmann, R. M., Schweitzer, C. E. and Haggart, J. W. (2020) A new erymoid lobster (Decapoda: Glypheidea: Erymidae) from the Upper Cretaceous of British Columbia, Canada, and a summary of Erymoidea from North America. *Journal of Crustacean Biology*, 40(3), 269–276.
<https://doi.org/10.1093/jcbiol/ruaa005>

Garassino, A., Nyborg, T., **Fam, J.**, Bowden, D., **Graham, R.** and Haggart, J. A new species of *Petrolisthes* Stimpson, 1858 (Anomura, Porcellanidae) from the Upper Cretaceous (upper Santonian) of Vancouver Island, Canada. *Neues Jahrbuch für Geologie und Paläontologie, Abhandlungen*, 298(1), 1–8.
<https://doi.org/10.1127/njgpa/2020/0928>

Nyborg, T., Garassino, A. and **Ross, R. L. M.** (2020). A new dromioid crab from the late Campanian of Hornby Island, Canada. *Neues Jahrbuch für Geologie und Paläontologie, Abhandlungen*, 295(2), 141–147. <https://doi.org/10.1127/njgpa/2020/0878>

Nyborg, T., Garassino, A., Haggart, J. W., **Graham, R.** (2020). Re-evaluation of *Preclarocarcinus parvus* Schweitzer, Feldmann, Čosović, Ross & Waugh, 2009 (Decapoda, Homolodromioidea) from the Upper Cretaceous (upper Santonian–lower Campanian) of Vancouver Island, British Columbia. *Neues Jahrbuch für Geologie und Paläontologie, Abhandlungen*, 298(3), 311–317.
<https://doi.org/10.1127/njgpa/2020/0950>

2019

Nyborg, T., McLachlan, S. M. S., Garassino, A., Vega, F. J., **Phillippe, S. C.** and Champagne, D. E. (2019) New and revised species of *Archaeopus* Rathburn, 1908 (Decapoda: Brachyura: Retroplumidae) from the eastern Pacific. *Neues Jahrbuch für Geologie und Paläontologie, Abhandlungen*, 292(1), 25–56. <https://doi.org/10.1127/njgpa/2019/0807>

2018

Haggart, J. W. and **Graham, R.** (2018) The crinoid *Marsupites* in the Upper Cretaceous Nanaimo Group, British Columbia: Resolution of the Santonian–Campanian boundary in the North Pacific Province. *Cretaceous Research* 87, 277–295. <https://doi.org/10.1016/j.cretres.2017.05.029>

[McLachlan, S. M. S. and Haggart, J. W. \(2018\) Reassessment of the late Campanian \(Late Cretaceous\) heteromorph ammonite fauna from Hornby Island, British Columbia, with implications for the taxonomy of the Diplomoceratidae and Nostoceratidae. *Journal of Systematic Palaeontology*, 16\(15\), 1247–1299. https://doi.org/10.1080/14772019.2017.1381651](#)

2017

Nyborg, T. and Garassino, A. (2017) New occurrences of fossil Homolidae from the eastern Pacific. *Boletín de la Sociedad Geológica Mexicana*, 69(1), 135–148. <https://doi.org/10.18268/BSGM2017v69n1a6>

Squires, R. L. (2017) Late Cretaceous oysters from the Pacific Slope of North America: Revision of named species and discovery of new species. *Contributions in Science*, 525, 25–53.

2016

Futakami, M. and Haggart, J. W. (2016) Early Albian (Early Cretaceous) douvilleiceratid ammonites from Haida Gwaii, British Columbia, Canada. *Journal of Paleontology*, 90(1), 43–58. <https://doi.org/10.1017/jpa.2015.51>

2015

Nyborg, T. G., Garassino, A., De Angeli, A. and **Ross, R. L. M.** (2015) A new squat lobster (Crustacea, Anomura, Munidopsidae) from the middle-late Eocene of British Columbia (Canada). *Neues Jahrbuch für Geologie und Paläontologie, Abhandlungen* 275(3), 357–361. <https://doi.org/10.1127/njgpa/2015/0470>

Saul, L. R. and Squires R. L. (2015) Pacific Slope of North America record of the Cretaceous aporrhaid gastropod *Tessarolax*: Evolutionary trends, mode of life, and paleobiogeography of the genus. *Contributions in Science*, 523, 37–65.

Ward, P. D., Haggart, J. W., Mitchell, R. and Catlin, E. (2015) Quantitative morphological description of the Late Cretaceous ammonite *Baculites inornatus* Meek from western North America: implications for species concepts in the biostratigraphically important Baculitidae. *Journal of Paleontology*, 89(4), 594–610. <https://doi.org/10.1017/jpa.2015.33>

2014

Squires, R. L., and **Graham, R.** (2014) Additions and refinements to *Sycodes glabra* (Shumard, 1858), a poorly known Late Cretaceous (Campanian) marine gastropod from the northeast Pacific: Taxonomic and biostratigraphic implications. Canadian Journal of Earth Sciences 51(8), 775–782.
<https://doi.org/10.1139/cjes-2014-0027>

2013

Feldmann, R. M., Schweitzer, C. E. and Haggart, J. W. (2013) A new genus and species of polychelid lobster (Crustacea, Decapoda, Eryonidae) from the Early Jurassic (Hettangian) of British Columbia. Canadian Journal of Earth Sciences, 50(2), 135–141. <https://doi.org/10.1139/cjes-2012-0120>

Haggart, J. W., Bell, K. M., Schröder-Adams, C. J., Campbell, J. A., Mahoney, J. B., and Jackson, K. (2013) New biostratigraphic data from Cretaceous strata of the Eagle Plain region, northern Yukon: reassessment of age, regional stratigraphic relationships, and depositional controls. Bulletin of Canadian Petroleum Geology, 61(2), 101–132. <https://doi.org/10.2113/gscpgbull.61.2.101>

Zakharov, Y. D., Haggart, J. W., **Beard, G.**, and Safronov, P. P. (2013) Late Cretaceous climatic trends and a positive carbon isotope excursion at the Santonian–Campanian boundary in British Columbia, northeastern Pacific. Sedimentary Geology, 295, 77–92. <https://doi.org/10.1016/j.sedgeo.2013.08.004>

2012

Ward, P. D., Haggart, J. W., Mitchell, R., Kirschvink, J. L. and Tobin, T. (2012) Integration of macrofossil biostratigraphy and magnetostratigraphy for the Pacific Coast Upper Cretaceous (Campanian–Maastrichtian) of North America and implications for correlation with the Western Interior and Tethys. Geological Society of America, Bulletin, 124(5–6), 957–974.
