Dear Ms. Holford:

Thank you for the videography work performed by you and your staff on the Caltrans Elkhorn Rest Area project. We are extremely pleased with the quality and professional appearance of the training video.

I am impressed with the video product you presented to us, especially because this training occurred outside at the construction jobsite. The training video you produced was clear and will be able to be used by Caltrans management to train operators on the new systems we installed at the rest area.

We look forward to working with you again on upcoming projects.

Sincerely,

Michael Stierli
