

I'm Bryan Miller, and I want to be YOUR Ward 1 Alderman! I am running for this Council seat for the sake of our future, and, more importantly to me, for the future of my grandchildren. I want for them to also grow up in a caring and safe community that promotes transparency and integrity in its governing bodies.

I have lived in Arkansas for over 10 years of my life and have had family in Arkansas my whole life. I am a devout Christian and am married with 2 children and 4 grandchildren.

I have worked in the technical trades for most of my career, working as close as Melbourne, AR and as far away as Malaysia. I believe my extensive training and varied experiences give me a solid understanding of Public Works and Utilities issues and projects and how to work with others to gain workable solutions and end with win-win outcomes.

I firmly believe we need to run City government for the sake of the people with focus on the five main services a city is to provide:
Safety (fire and police),

Infrastructure (roads and access to information),
Utilities (water and sewer),
Quality of life (business development, schools, libraries, parks),
Planning for the future.

I believe I am the Alderman who can be your voice and who will work with you for the betterment of Ward 1 and Horseshoe Bend.

I'm Bryan Miller, and I want to be YOUR Ward 1 Alderman

Bryan Miller
