

DONALD DAWSON

WARD 4 POSITION 1

Almost 21 years of City Experience.

I worked for the City of Horseshoe Bend just shy of 21 years. I started at the Water Department in 2003 where I stayed and went to school to get my Water Treatment and Distribution license. I then started studying for my sewer license, where I reached a level III out of IV sewer license. After Darrell Kings' retirement I took over as the Sewer Superintendent. On January 1st, 2016, after Marty Roberts retired, I became the Public Works Director for the City of Horseshoe Bend where I worked until my resignation in September 2023 because of unfortunate administrative differences. During my 21 years at the city I was continuously on call throughout my employment.
