

Our ref. No. ANGENT/21-22/265

Date: 15/03/2022

Kind Attn: Mr. Dalal

Subject: **Quotation for sesame seeds cleaning 1000 Kgs/ Hr. (Input basis)**

Sir,

We are thankful to you for your valued inquiry regarding sesame seeds cleaning and hulling plant; we have pleasure in submitting our most competitive rates as below.

We are sending you a flow line diagram of the proposed process operation. Based on the flow line, we are also sending you an offer for the machinery and equipments required.

Our scope of operation compromises of:

1. Supply of machinery and equipments as per flow line.
2. Supply of installation and foundation for civil work and installation.
3. Erection and commissioning operation at your site.
4. Continues after and service during warranty period.

Your scope of work comprises of structure and civil work, installation and electric wiring.

We will be sending you drawings for the structures, platform, ladders etc. This will be required and will be provided by you. We will be also sending the foundation drawings required for the installation of machinery and you required carrying out the civil work accordingly. All the electrical wiring in the plant shall be in your scope.

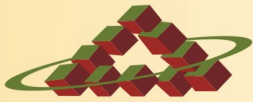

If you require any further information please feel free to contact. We are looking forward for your early response.

Thanking you.

Best Regards.

For ANG Enterprise.

• Grand Total	17.5	9	11,95,000.00

Total Cost OF Basic Machinery Rupees Eleven Lakhs Ninety Five Thousand Only.

DESCRIPTION AND SPECIFICATION OF MAIN MACHINERY AND EQUIPMENT.

- **BUCKET ELEVATOR:** All are supplied as complete units with Crompton greaves make motors, bonfiglioli gear box, chain drive system, food grade imported 2 ply nylon belts, moulded PVC buckets, knurled rollers for non-slip effect. Bottom fabricated from 10mm thick IS2062 prime plate, middle casing made from 1.29MM thick C.R. carbon steel sheet and top and bottom side cover made from 3.15 thick C.R. carbon steel sheet. All MOC M.S. and shall be powder coated done with 7 process.

Specification

Model	4"
Capacity	1000 Kgs./Hr
Drive motor	1 H.P. Geared

- **PRE-CLEANER GRADER III DECK WITH ASPIRATOR.** is supplied as complete unit inclusive of feed regulatory hopper made from 1.29 thick C.R. carbon steel sheet, side panel made from 3.15mm thick C.R. carbon steel sheet, top and bottom 1.29 thick C.R. carbon steel sheet with 25x3 square tube for extra strengthening, discharge made from 1.63 thick C.R. carbon steel sheet, 2 carbon steel woven screens mounted on deck assembly made of 75x25 3.15 thick pipe with 6mm round bars, four bearing counter balanced drive assembly with Crompton greaves make drive motor. All structure is mounted on 60x60x5 thick sturdy square tube. All MOC M.S. and shall be powder coated done with 7 process.

Specification

Model	34x48 III Deck
Capacity	1000 Kgs./Hr
Drive motor	2 H.P.
Fan Motor	2 H.P.

- **PRESSURE DESTONER is** supplied as a complete unit inclusive of feed control hopper made from 1.29 thick C.R. carbon steel sheet, stainless steel woven screen mounted on air baffle deck assembly made from 3.15 thick C.R. carbon steel sheet, frame made from 50x50x5 thick ISI make equal angle, side covers made from 1.29 thick C.R. carbon steel sheet, 4 bearing counter-balanced drive assembly, Crompton greaves make drive motor cum fan motor, dynamically balanced blower assembly. All MOC M.S. and shall be powder coated done with 7 process.

Specification

MODEL	PD5
Capacity	1000 Kgs./Hr
Drive motor	7.5 H.P.

- **MASTER CONTROL PANEL** Indoor floor mounting type panel, sheet steel enclosed duct and vermin proof, fabricated from 16 g SWG sheet, with reputed make MCB's, voltmeter, ammeters, contractors and fittings.

- **PRECISION AIR CLASSIFIER.** is supplied as a complete unit inclusive of a feed control hopper made from 1.29 thick C.R. carbon steel sheet, dynamically balanced high pressure blower assembly made from 3.15 thick C.R. carbon steel sheet fabricated on 40x40x5 thick equal angle, lights collection chamber, heavies discharge chute, air separation tube made from 1.29 thick C.R. carbon steel sheet with Crompton greaves make drive motor. All MOC M.S. and shall be powder coated done with 7 process.

Specification.

Model	618
Capacity	1000 Kgs./Hr
Drive Motor	2 H.P.
