Effective **May 1, 2026**, co-founder **Lisa Stewart**, previously Chief Operating Officer, will assume the role of **Chief Executive Officer**. **John Jacobs**, founder of TeamLife Health Group and current CEO, will transition to the role of **Chairman of the Board**, where he will continue to guide high-level strategy, mission alignment, and long-term growth initiatives.

“Lisa has been instrumental in shaping TeamLife’s operational excellence, community partnerships, and care quality standards as we’ve expanded into new markets,” said Jacobs. “Her leadership, dedication, and vision make her the ideal person to guide TeamLife into its next era. I look forward to supporting her as the company continues to scale and innovate.”

Stewart, who has overseen day-to-day operations, multi-state regulatory compliance, and the buildout of TeamLife’s Campus Care model, brings more than a decade of experience in operations and workforce leadership. Under her operational leadership, TeamLife launched multiple 24/7 on-site Campus Care partnerships in independent living communities across Washington, Illinois, Wisconsin, and beyond; driving meaningful improvements in resident independence, safety, and length of stay.

The leadership transition comes during a period of accelerated growth for TeamLife Health Group. The company is planning expansion into additional states in 2026, strengthening community partnerships, and enhancing its data-driven approach to improving resident outcomes and reducing avoidable transitions to higher-acuity care.
