TESTIMONIAL

“Alhamdulillah, these sessions made me realize that I was not reading the Quran every day and how reading the Quran daily will bring blessings to my mind and body, my time, and my life beyond my comprehension. I became more conscious in reading the Quran and paying attention to the rules of recitation. Alhamdulillah, I do not want to leave this session.”

— Sister Samreen Iqbal

TESTIMONIAL

“Dr. Hafidha Suher’s encouragement each week regarding the Quran, regarding our relationship with Allah Azzawajal has been priceless. The khatira at the beginning of class is something I look forward to and love very much.”

— Sister Hena Akhtar

TESTIMONIAL

"I started reading more frequently before lessons. Reading the Quran was difficult for me, more psychologically than anything, because I made too many mistakes. I felt hopeless about myself. But now, since I make fewer mistakes, I've gained some confidence, and reading the Quran no longer comes with thoughts about how bad I am at reading."

— Sister Zamira

TESTIMONIAL

"I have built a strong interest in reading the Quran daily. This class has reestablished and strengthened my bond with the Quran, which I had lost somewhere in my busy life. It's fascinating how I now have a strong desire to perfect my Quran recitation, which was not there previously. I can feel the Barakah of this class every day and look forward to attending it every single Friday."
