

VIGNES LAKE AUGUST 2024 NEWSLETTER

WELCOME

After leaving our flags out for an extended period, our flag inventory has taken a major hit. Approximately 20 were missing and many had sustained damage by being moved to allow grass mowing. A neighboring subdivision has moved to attaching their flags to street signs and light post apparently for similar reasons. In addition, the flags are short and once the stake becomes broken, as many of ours are, the flag itself is actually touching the ground. For all these reasons the board has elected to stop the practice of placing flags out for certain holidays and will instead pursue the option of obtaining red, white and blue bows to place on mailboxes for these occasions.

YARD of the MONTH

The Yard of the Month for August is awarded to 19035 Vignes Lake Ave.

FINANCIAL

Our bank balance at the end of June was \$40,322.76. The 2024 assessment collection continues with 8 homeowners still delinquent.

LAKE REPORT

The fountains are scheduled for cleaning this month and our water quality continues to be O.K. In addition, there seems to be a new batch of ducks living on the lake these days.

MESSAGE FROM THE PRESIDENT

Just a reminder when placing large limbs on a curb to be picked up, be aware that the truck required to handle such items must have overhead clearance to access these limbs. Never place large limbs under a tree as they will not be picked up.
