## STRUCTURE REQUEST/AUTHORIZATION FORM

**This authorization is contingent upon approval with any city codes ordinances in effect.**

A permit may be required for most structures/sheds. Please check with the City of Groveland to find out if one is required for your project.

We only allow one shed per site with the maximum shed size of **12X12**.

Utility location is the responsibility of the site owner; this is a free service offered by the state. Please dial 811 to schedule your utility locate. Resort owned utilities may be located by contacting one of our maintenance staff.

All required cleanup is the site owner's responsibility. (Please cleanup all leftover debris and return the site to its original condition after your project is complete.)

Gutters may be required for all structures at the sole discretion of resort management.

Anchoring of some kind is required per local building codes. Please check with your local building department for details.

If electric is going to be installed on or in the structure, please consult a licensed electrician. Under NO circumstances are you permitted to open/modify resort electric pedestals.

A drawing/sketch of the site with all structures is required. Please use the attached page to show the location of site lines, electric pedestal, current location of livable structure and location of proposed structure. Please be as detailed as possible and use accurate measurements to aid in the approval process. A neutral color scheme is required and must be approved by resort management.

**Approval of this form does not grant you permission to install any structure without a building permit if required by the City of Groveland.**

Site: \_\_\_\_\_ Name: \_\_\_\_\_ Date: \_\_\_\_\_
