Full-Time Behavioral Health Technician

Position Details:

Salary

\$2000-\$3000/monthly (Employee)

Job Type

Employee: 40 hrs per week; Some remote work may be approved

Welcome to Solution Focused Psychological Services, PLLC (SFPS). We're so glad you're considering joining our team.

At SFPS, our mission is to provide culturally appropriate clinical services for the specialty populations that we service to optimize agency assets.

We are a small, private practice that provides forensic assessment services for public safety officials, attorneys, forensic state hospitals, and county/state correctional facilities.

Job Requirements:

- Local candidates only (DFW area); Office is on Stemmons FWY and Regal Row
- Must be able to pass an annual background check
- Business casual dress code required in office on direct patient care days
- Good verbal communication skills
- Schedule: 0900-1700 Monday-Friday; Remote options will be discussed after fully trained and will vary; No weekends; No holidays
- Must be Mac/Apple efficient.
- Must have reliable transportation to our Dallas office
- Looking to hire effective June 1, 2024: Interviews will begin May 8th.

About the role of Behavioral Health Technician:

- You will conduct psychosocial interviews on 5-8 clients per day
- Administrative tasks will include answering phones, booking appointments, collecting data, and documentation.
- You will attend any mandatory scheduled meetings or training to maintain compliance with professional standards and HIPAA practices.
- Compensation will be based on experience: BA/BS in mental health (\$2000/month); MA/MS in mental health (\$2500/month); MA/MS + experience in forensics (\$3000/month)
- Compensation package may include participation in 401K with match, medical and dental insurance, and supplemental insurances.
- Evaluating populations may include correctional, public safety, and military personnel.
- You will complete scoring on digital psychological assessments.

What we look for in our clinicians:

- We're looking for individuals with at least a bachelor's degree in Psychology or any related social science field.
- Familiarity with the Google Suite platform is a plus.
- Specialty experience in forensics is a plus.

How to apply:

Please complete the following form and upload your resume or CV: [BHT CV Submission](#). NO PHONE CALLS PLEASE.
