

## THE BEST WINDSHIELD TREATMENT IN THE AUTOMOTIVE INDUSTRY

Our patented hydrophobic glass treatment is a one-time application that includes a **3-Year Warranty**. Unlike wax-based or topical coatings, GlassParency is engineered to react to the silica within glass, creating a chemical bond unmatched by the competition.

The two-step professionally installed application creates a barrier to repel water, snow, ice, dust, oil, and dirt creating a resistant and easy to clean surface. Some of the major benefits include enhanced optical clarity, better driver vision, safety for the driver and all passengers, a reduction in day and night glare, and a more aesthetically pleasing appearance to your vehicle glass.

### WHY YOU SHOULD TREAT YOUR GLASS WITH GLASSPARENCY:

- Increases visibility in the rain, at night
- Optically improves clarity of glass
- Reduces night and daytime glare
- Clean dirt and debris from glass more easily
- No cure time. The effects of It is instant and customers can drive away immediately, even in the rain!
- Backed by a 3-year warranty with required scheduled maintenance
- Free maintenance reminders to renew product performance as needed
