OBITUARY

Burleigh A. Bartlett

Burleigh A. Bartlett, husband, father, grandfather, and farmer, age 92 of Monroe, let the cows out to pasture for the last time on February 8, 2025, at SSM Monroe Hospital. Burleigh was born on December 31, 1932 in Monroe, the son of Arthur and Vera (Drake) Bartlett.

Burleigh graduated from Monroe High School in 1950 and attended the U.W. farm short course where he may or may not have been involved in shenanigans involving livestock let loose in the dorm. He lived on the Bartlett family dairy farm his entire life. The daily farming routine was firmly entrenched. After the animals were sold, Burleigh went to the barn every morning at 6:30 to feed the cats.

He reluctantly agreed to go on a date that later resulted in marriage to Lorraine Vigdahl on October 11, 1958 at the Orfordville Lutheran Church.

Burleigh was a long time member of the Monroe United Methodist Church where he served on various committees. He was a member of the State and National Holstein Associations, the Clarno Township Smart Growth Committee, and served as Bethel Hawthorne Cemetery sexton for many years. He enjoyed bowling in several leagues and competed in many city and

state bowling tournaments. He was an avid reader of history and anything that involved trains and he never stopped reading the farm papers and magazines. Above all, Burleigh loved spending time with his family and attending his grandchildren's sporting events and activities.

He is survived by his wife of 66 years, Lorraine Bartlett of Monroe; three sons: James (Ann) of Middleton, Daniel (Sara Pfannkuche) of Champaign, Illinois, and John (Amy) of Monroe; three grandchildren: Alex (Laura Sandry), Ryan (Jane Brayko), and Audrey; and many nieces, nephews, cousins, and friends.

Visitation is scheduled for Thursday February 13, beginning at 10 a.m. at the Newcomer Funeral, Monroe. Services will follow at 12 p.m. with Rev. Jeffrey Meyer officiating. Interment will be in Bethel Hawthorne Cemetery, Clarno Township, followed by a luncheon at the Monroe American Legion, 1627 12th Avenue. A memorial fund will be established in Burleigh's name. ## Are Pizza Boxes Recyclable? Pellitteri Sets The Record Straight

As we approach National Pizza Day on Sunday, Pellitteri Waste Systems, Inc.—Southern Wisconsin’s leading independent, family-owned and operated waste and recycling service provider—is putting an end to the pizza box debate once and for all. Yes, whole pizza boxes are recyclable.

Pellitteri customers can now place the entire empty pizza box, even the parts with grease and cheese residue, in their recycling cart or recycling dumpster.

“Not all waste haulers accept pizza boxes,” explains Pellitteri President David Pellitteri. “Across our industry, there have been concerns that grease or cheese residue prevented parts of the box from being made into new paper products. In our company’s efforts to recycle more materials, we choose to work with paper mills in the Midwest that have employed the technology necessary to accept and clean typical levels of grease and cheese residue so that it no longer impacts the recyclability of pizza boxes. That’s why we can now accept the whole box.”

Whole pizza boxes are the latest addition to Pellitteri’s expanded list of recyclables, which includes these materials that go above and beyond what is required by state law:

- Hot and cold paper cups
- Paper milk and juice cartons
- Metal pots and pans
- Shredded paper properly prepared in clear plastic bags (no larger than a basketball)
- Small metal appliances like toasters and blenders (no larger than a basketball, no batteries)
- Small metal plumbing fixtures, faucets, valves

Pellitteri can recycle these items because of its focus on using end markets that look to expand recycling opportunities and because Pellitteri continues to invest in technology that allows it to sort additional materials.

According to the American Forest and Paper Association, pizza boxes are made of high-quality corrugated paper, which can be recycled at least seven times. A study by WestRock, one of the largest box manufacturers in the U.S., estimates that there are approximately three billion pizza boxes used in the U.S. annually, which represents an estimated 600,000 tons of highly desired corrugated material that should be recycled and not needlessly wasted.

Pellitteri asks its customers to do their part by placing the pizza box in the recycling bin; just remember to remove any remaining food, tissue or plastic centerpieces from the box. You can find more information in this short video. Want to become a Super Recycler? Watch these short recycling tips videos to become a recycling expert!

Pellitteri customers also have a mobile app to verify if items are recyclable and set collection day reminders. Download the app at [pellitteri.com/RecycleRight](http://pellitteri.com/RecycleRight). For more information, visit [www.pellitteri.com](http://www.pellitteri.com).

\*Pizza boxes are recyclable if Pellitteri collects or processes your recycling (City of Madison recycling is processed by Pellitteri); otherwise, check with your local recycling provider to see if they accept pizza boxes in their recycling, as rules vary by local hauler.

## Saturday Mornings at the Durand Library

**Shapes of the States Part 2 February 8**  
**Submitted by Barbara Flores, President, Friends of the Durand Library**

It was a great pleasure to have speaker Brad Keyes return to the library February 8 to continue the story about how the states got their shapes. Brad wove together strands of historical fact, geology, culture, economics and, of course, political ambition in explaining the odd features of the states.

His talk began by briefly going over the formation of the original 13 states discussed January 11—only English colonies qualified to join the Confederation of States. Vermont had not met that requirement, although in fact, it was once part of New York State. It became the 14th state when that requirement was lifted. Maine did not achieve statehood until 1820, actually after Illinois, and even then its northern border had not yet been established.

Here are just a few highlights of Brad’s presentation. How was Texas its own country? Mexico had successfully concluded its multiple revolts against Spain in 1821. In 1836 Texas then declared itself free of Mexico and an independent country, the Lone Star state. It was much larger than today but gave up a large part of its territory to join the US. Why? The 36°30’ parallel had been declared by the federal government—north of that line was to be free of slavery, anywhere below

## Triple Threat Athlete of the Week: Gabe Bockhop, Brodhead

**By Colton Wilson**

The Triple Threat Athlete of the Week is an honor given on WisSports.net to the top senior boys and girls three-sport athletes in the state. Players are recognized each week on WSN, with a boys and girls winner of the Pat Richter Award at the end of the season to the best three-sport athlete of the year.

The Triple Threat Athlete of the Week is presented by the U.S. Marine Corps. The award recognizes student athletes who embody the spirit of teamwork, perseverance, and discipline across multiple sports. The mission of Marine Corps Recruiting Station Milwaukee is to find qualified men and women in Wisconsin and the surrounding area interested in becoming a United States Marine. Marines maintain the legacy of the Marine Corps by winning our nations battles and returning to their communities as quality citizens whether they are active duty or reservist. The coveted title of Marine applies only to those who graduate from the Recruit Depots or Officer Candidate School. RS Milwaukee will provide any qualified man or woman the opportunity to attend the training required to become a Marine—Enlisted or Officer.

Favorite Sport (and why): «Football. The feelings before every game, having the whole town show up to your game, playing under the lights, to me you just

can't beat it. I have spent my whole life with the Brodhead-Juda football program, as I was a manager growing up. Playing quarterback in our program was a dream come true."

Best Part of High School Sports (and why): "Being a part of something that is bigger than myself. Knowing that little kids look up to me, I hope I demonstrate how to handle yourself on and off the field. People in the community fully support high school athletics."

Best Advice from a High School Coach: "No one can make you better. You can have the world's best coaches and mentors advising you, but in the end, it's all on you."

Most Memorable Moment in High School Sports: “Winning conference in baseball last season for the first time since 1989. It was an unbelievable season with my teammates and coaches that I will remember for the rest of my life.»

Best Part of Playing Three Sports: "Having the opportunity to compete with different teammates is very rewarding. The change of pace with different sports really helps being a well rounded athlete.»

Most Difficult Part of Playing Three Sports: "You are always busy being a three sport athlete. There are a lot of late nights after practices where you are going to have to put more time into another sport that is not in season. But having the opportunity to compete with different groups is more rewarding.»

Favorite Opponent (and why):  
 “I always look forward to playing Edgerton. Ever since playing youth ball against them, we have always had a friendly rivalry. It makes it fun that whoever wins has bragging rights until the next sport.»

thing he does in high school. He is  
the best high school football player  
I have played against."

Most Admired High School Teammate (and why): “Brady Malkow. Brady is a pitcher at the University of Whitewater and was a great leader in all three sports my freshman year. It will be fun to play against him in college.”

it enslavement was legal. So Texas sold to the US government whatever was above to continue as a slave state.

California was also once briefly an independent country. It had been colonized by Spain from 1769 until 1821 when Mexico won its freedom and Spain lost its control over the area. Following war between the two countries, Mexico ceded California and much other territory to the United States in 1848.

When California asked to join the Union, the state was told that it would have to be divided into smaller states. It was the goal of early federal government to make states roughly the same size. California

chose not to be split up. When gold was discovered in 1849, the existing federal government was quite willing to accept this new state as it was. California also was able to extend its eastern border over the Sierra Nevada Mountains to take advantage of gold found there.

So much more was presented about the formation of the southern states, Louisiana, Alabama and Mississippi as well as relations with Florida and Spain. Lines were drawn and redrawn sometimes due to incorrect surveying or other reasons.

Meanwhile in the north, the Northwest Ordinance provided for the governance, requirements for statehood, encouragement of education and forbidding of slavery in the Northwest Territory. Ohio was the first state to be established, then Indiana, followed by Illinois. We have the expression, first come, first served. It was this way with the states of the Northwest Territory. Michigan and Wisconsin were three decades behind their neighboring states in getting organized and lost territory as they had no government and no rep-

representative in Washington to help them out.

It is a story in itself how Illinois gained territory from what could have belonged to Wisconsin. The original plan for the territory of Illinois was that the line on the north would lie at the southern tip of Lake Michigan. However, once the planning of the Erie Canal was public, officials in Illinois insisted that their state reach many miles further north to secure land on Lake Michigan. Thus shipping could go through the Great Lakes to the Erie Canal, out to the Hudson and then to the Atlantic Ocean saving much travel.

So, please plan on attending Part 3 of the “Shapes of the States” Saturday, March 8 at the Library. There are many more states to learn about and not enough room here to share all that has been presented. Remember, March 8 at 10 a.m. for a 90-minute trip through the “Wild” West and the mountain states.

# WE'RE ALWAYS ON CALL

We're committed to providing safe and reliable electricity, today and in the future. Most people only think about electricity when the power goes out or perhaps when the monthly bill arrives. We think about it 24/7. Our crews are ready no matter the day, time or weather, whenever outages may happen. But we're also working to prevent outages and reduce downtime through year-round maintenance and new technology upgrades that help us respond quicker. We promise to take reliability seriously. Always.

A warm, intimate photograph of a woman with dark hair, wearing a white long-sleeved shirt, sitting on a bed and reading a book to a young child. The child, wearing a patterned onesie and a pacifier, is looking at the book. The scene is dimly lit, with a soft light source creating a cozy atmosphere. A white pillow and a dark blanket are visible in the background.

COMMITTED TO YOU.

Albertson Memorial  
Public Library

By Laura Roth,  
Children's Librarian

Go! Go! Go! This month Albertson Memorial Library Preschool Story Time is reading books about things that go! Cars, trucks, tractors and trains!

We started by reading Go, Dog! Go by PD Eastman, a book we'll re-read each week so we can practice our prediction skills. Then there was a scavenger hunt! All kinds of cars around the room and we found EVERY ONE OF THEM! The story Rattletrap Car is all about a family whose car keeps falling apart. They use crazy things to put it back together using chocolate marshmallow fudge delight. This book helped

us practice putting events in order.

Everyone really enjoyed the new layout at the library. The picture books are now being stored in 'front-facing' shelves, making it easier for our youngest patrons to find books they might enjoy. There's even a nook between the shelves where a reader can snuggle right in with his book . . .

Next week, the tractors will roll into Story Time. There will be tractor puzzles, and a discussion about 'horse power' when Tractor Mac Arrives at the Farm. And we might try to make our own toy tractor.

Come explore the new book organization, the result of two years of planning and work by many of your Albertson Memorial librarians. We think it's pretty great. Join us, too, for Preschool Story Time, which meets every Tuesday at 10 a.m. Crafts and games and stories and puzzles and and . . .

See you there!
