Brodhead referendum

The Brodhead City Council will ask residents if taxes should increase to help departments meet growing cost concerns. Council has proposed an increase to the levy of \$200,000 for five years. The increase would start in 2023. For a home valued at \$100,000, Green County residents would see an increase of \$120. Rock County residents would see an increase of \$117.

By raising the tax levy, City departments will be able to maintain current levels of service. Most department budget requests have been cut in the last two years. The proposed increase would help prevent future cuts that will greatly affect the quality-of-service City departments can provide. More information on how cuts might affect services will be published next week.

City Council asks you to vote on this question. The referendum question is available to review at City Hall, Brodhead Memorial Public Library, and on the City's website. Residents can vote in-person on Tuesday, February 15 from 7 a.m.—8 p.m. at City Hall, 1111 2nd Avenue. Absentee and early voting options are also available. Contact City Hall at 608-897-4018.

What is January good for?

By Eva Kuzmanich, Brodhead Historical Society

Ice fishing, ice skating, and if you lived in the 1800s and early 1900s, ice cutting/harvesting.

Ice harvesting was an important industry providing a way to preserve food for the average household as well as being used commercially. Railroads used ice for shipping fruit, vegetables, and meats. Ice was needed by businesses such as butcher shops, creameries, breweries, and other stores to keep their products from spoiling. When electrical refrigerators were invented, the demand for ice began to lessen. But many farmers continued to harvest ice and use icehouses for a longer period until electricity reached the rural areas.

January and February were the months individuals and icehouses stocked up on ice for the year. Specialized tools were made to harvest the 12" to 20" thick ice blocks. Some examples are ice scrapers, ice plows, large ice saws, ice splitting bars, long ice picks, large ice hook or tongs. Once harvested the ice was taken to ice houses for storage. In the icehouses the ice was placed on a 12" layer of sawdust or straw in the middle and with more sawdust filling the 15" to 20" space between the ice and the four walls. Over the top another 12" of sawdust was placed. Then with adequate ventilation and drainage, the ice could last through the summer and fall.

In Brodhead, ice blocks were harvested from the Race and stored in a large building called "The Cold Storage". It was located across the street to the west from the current Police Station.

In the warm months in Brodhead, the iceman would make his rounds and if the sign in your window was green side out it meant you needed ice and if the sign was red side out it meant you did not need ice that day.

Come see an actual large ice saw and a large ice tong on exhibit at the Brodhead Depot Museum as well as an old household icebox that stored your family food.

After a long wait, the exchange students from Argentina arrived in their homes for the next five weeks in Juda. They are staying from January 6 to February 8, 2022 with different host families and are attending Juda High School. Six students already arrived on the 6th and three additional pupils will arrive on Wednesday, January 12. Right now it is their summer break in Argentina. They have qualified for this exchange program because of their strong academic skills and their voluntary community service. During their stay here they hope to improve their English skills and get to know American culture as well as share their culture with us. They are looking forward to building up new relationships with their host families and people in school that will hopefully last their whole lives. We wish them an amazing experience and are excited to get to know them and their culture.

—Oprah Winfrey

Happy New Year, everyone! I hope you all had a wonderful holiday season and are ready to tackle this new year. Lots of people are making resolutions now, and here at the library we can help you achieve your goals. If you haven't decided on a goal yet; allow me to give you some ideas.

My favorite app on my phone is Libby, where I can access and borrow thousands of ebooks, audiobooks, and magazines- think of it like a virtual library! Simply sign-in with your library card and you're ready to start reading whenever and wherever you are. Albrecht Elementary kicks off reading program

It's that time of year when elementary students get involved in our all-school reading motivational program. On Tuesday, January 4th, students and staff kicked off READ: Read On Rock Stars assembly. The local staff rockers got our students excited about reading and entertained us with some fabulous music. The goal of our program is to "compete" against the other classrooms at each grade level to see which classroom can read the most. If the school reading goal of 3,000 tickets is met, Mrs. Knox and Mr. Anderson will get treated to some Rockstar hairstyles and sing karaoke for our school at the closing program. The students will be involved in a variety of rocking fun activities throughout the course of four weeks and get some fabulous prizes and a free book. The closing program will take place on Friday, January 28th with a teacher dance competition and other fun activities!

While wrapping up their Feline Unit, students in Mr. Sattler's Small Animal and Vet Science class learned about common diseases that can impact any pet cats. As part of the lesson, students learned about subcutaneous, intramuscular, and intravenous shots. They had the opportunity to practice giving shots similar to how licensed veterinarians give antibiotics and vaccinations!

We've got some future architects in our Kindergarten #ParkviewCrew! They put their skills to the test creating gingerbread houses before their winter break!
