## Resignation of Park and Rec Director Accepted

By Gloria Sutter

The City receives \$65,000 if it remains under the annual revenue limit. This year the City Treasurer is concerned about meeting that limit because of the purchase of the new

street sweeper. The Finance Committee posed the question that if the city goes over the limit, are there other things that will be needed in the near future? If so, this might be the year to use some of the fund bal-

ance for these items, which would help prevent going over the limit in future years. This idea will be shared with department heads.

The resignation of Wade Boegli, as Park and Rec Director, was accepted. The position will be posted. In the meantime, Boegli will temporarily act as interim director for up to 20 hours per week, at his current pay rate. Braydon Sommerfeldt's wage will be increased to \$15 per hour for up to 20 hours per week.

Aldersperson Denessa Jones resigned from the Plan Commission and Aldersperson Nick Burkhalter was appointed. He was also appointed to Water and Light.

#### In other business:

Department head evaluations were approved as updated.

Three bartender licenses were approved.

A temporary Class B Liquor License was approved for the Brodhead Firefighters, Inc. for their Sportsman's event on Saturday, October 15.

Bids will be requested for winter shoveling and plowing.

Public Event approvals were granted for the Homecoming Parade on Friday, September 23 and Firebolt Stone Oven Pizza on Saturday, October 1.

Alger Riese was appointed to the Economic Development Committee and Jenny Krause was appointed to the Historic Preservation Committee.

The seven-day notice was given for Jennifer Clark on the Library Board.

## Brodhead Historical Society to meet Monday, August 29

The next meeting of the Brodhead Historical Society will be held on Monday, August 29. Jessica Colaluca will give a presentation on the dynamic Isaac Foster Mack, including fascinating local history, and a strong dose of humor. A renaissance man of intellect, I. F. Mack was a founder of Brodhead, and a prolific contributor to our culture. Brodhead is greatly indebted to I.F. Mack for establishing our education system and newspaper, facilitating the building of the railroad, and developing our downtown. Isaac Mack was an educator, litigator, farmer, and businessman. He had a wit that was cutting, and an intellect that stood fast in righteousness.

Join them as they reveal a fascinating rediscovered history that will lead to a riveting round of Brodhead Bingo! The meeting is open to the public and begins at 7 p.m. in the Knight Addition of the Depot Museum.

## Brodhead Garden Club

The Brodhead Garden Club wants to thank you all for attending their Flower Show during Covered Bridge Days. The winner of the \$25 gift certificate from 1st Center Floral was Gary Burns of Juda.

Steve's interests were many and varied. He hunted and fished except when the temperatures were too cold. ## Parkview School District Board of Education Votes to Move Forward with November 8, 2022 Referendum Questions

At its Monday, August 15 meeting, the Parkview School District Board of Education voted to place two referendum questions on the November 8, 2022, ballot. The first is an operational referendum and the second is a capital (or facilities) referendum. If approved by voters, the referenda will address significant needs within the District, which cannot be addressed within the District's annual budget.

The proposed referenda focus on attracting and retaining high-quality staff, maintaining small class sizes, offering advanced placement and elective courses, addressing operational needs, educational upgrades, and deferred maintenance across the District, with remodel and addition projects proposed at both the Elementary School and Junior/Senior High School.

Operational Referendum—Next year, the District's current operational referendum funding, approved by voters in 2020, will end. Over the last two years, state aid has not kept up with increasing costs. Therefore, the Board of Education is asking our voters to consider renewing the operational referendum at a rate of \$2 million annually for three

years. Capital Referendum—In 2014, voters approved a capital referendum to help make facility improvements. Now, the District would like to build upon what was started, addressing prioritized facility needs. The Board of Education has established a comprehensive plan based on staff and community priorities and the community's willingness to support the projects financially. The Board of Education is asking voters to approve a \$15.4 million capital referendum.

Tax Impact—Approval of the operational referendum would result in an annual estimated tax increase of \$64 (\$5.33 per month) for every \$100,000 of a taxpayer's property value over the current tax rate for three years. Approval of the capital referendum would result in an annual estimated tax increase of \$3 (25 cents per month) for every \$100,000 of a taxpayer's property value over the current tax rate.

Since May 2021, the District has completed a detailed facilities study, met with, and surveyed staff on facilities inadequacies, and sought feedback from a community-wide survey to determine priorities for

needs and potential solutions.

The areas assessed included aging infrastructure, as well as aging, underutilized and/or undersized portions of District buildings, with a focus on defining a fiscally responsible solution to the District's needs.

While the referendum seeks to address both infrastructure and educational needs across the district, some of the specific components of the plan include:

- At the Elementary School, remodel and expand the existing kindergarten and first grade classrooms and add a dedicated special education space. At the main gym, enhance the stage area for performances (lighting, sound, rigging and curtain), and install new bleachers. At the auxiliary gym, replace the flooring and add air conditioning.

- At the Elementary School, relocate and expand the kitchen, cafeteria, and receiving areas in a more centrally located place. Renovate the existing area into an LMC. Remodel the current LMC into three new 4K rooms and a special education room with dedicated restrooms.

- At the Elementary School, deferred maintenance work includes HVAC upgrades, LED lighting upgrades, flooring and ceilings, locker replacement, and asphalt and concrete replacement.

- At the Junior/Senior High School, addition of science and technical education classrooms, and remodel of existing space to create "clean tech" education classrooms.

- At the Junior/Senior High School, expanded space for counseling services, and remodel of existing restrooms adjacent to the LMC to create single-user restrooms.

- At the Junior/Senior High School, deferred maintenance work includes HVAC upgrades, LED lighting upgrades, roof replacement at the Junior High School section, asphalt and concrete replacement, track replacement and athletic field landscaping.

"The District worked to create a plan that would address prioritized needs and also extend the life of our buildings – an investment in Parkview for today and the future" said Dr. Steve Lutzke, District Superintendent.

The district will be providing information on the referenda in a variety of ways including via the District website, social media, mailings, and opportunities for community members to tour the facilities and learn more in the coming weeks. For information, contact Dr. Steve Lutzke, District Superintendent, 608-879-2717, Ext. 6130 or slutzke@email.parkview.k12.wi.us.
