## City Council

### Council Approves 2026 Capital Improvement Projects

By Grace Kufahl

MSA attended the meeting to provide an update on ongoing projects that involve them.

City Hall has numerous structural and water infiltration issues, including a lack of insulation, cracking, rusty lintels, and water damage. MSA recommends adding insulation, addressing water infiltration, anchoring a sliding stone block, tuck pointing a neighboring building's wall and adding a roof access hatch.

According to a DNR inspection conducted in 2023, the Decatur dam requires monitoring and repair of multiple issues, the most pressing of which is to address a sinkhole at the headwall. The city must respond to the DNR by late February.

MSA reported the existing Wastewater treatment plant, built in 2000, has mechanical issues with valves, pumps, and impellers, impacting its efficiency and requiring immedi-

ate attention. Greg Richter, operator in charge, recommends proceeding with the WWTF plan, addressing the identified mechanical issues, and ensuring the plant's efficient operation. MacKenzie will perform a rate analysis after recommendations are issued.

The council allocated \$350,000 for City Hall repairs with \$100,000 previously budgeted and \$250,000 reallocated from other projects. Other Capital Improvement Projects approved for 2026 were \$50,000 for park play structures, \$70,000 for the Wastewater Treatment Facility Plan, \$200,000 for solar panels for the Wastewater Treatment Plant and \$100,000 for street maintenance.

Chief Raupp needs to extend a new conditional offer of employment to the previously approved police officer candidate. Due to medical issues preventing her from taking the Physical Readiness Test,

As Moses lifted up the serpent in the wilderness, even so must the Son of man be lifted up.

John 3:14

Nearly two billion Chinese will be celebrating the Lunar New Year of the Snake today. The Serpent introduced sin into the world (Gen. 3:1-14), and we all became sinners because of Adam's disobedience (Rom. 5:12). But God loved us and sent His Son to pay the penalty for our sin. "As Moses lifted up the serpent in the wilderness, even so must the Son of man be lifted up" (John 3:14). Even if you are born in the year of the snake, come out from his snare, trust the Saviour, and be saved from your sin.

—K.C. Ung

High on the cross, the Saviour hung. High in the heav'ns He reigns:  
Here sinners by th' old serpent stung. Look, and forget their pains.

## Kids for Wish Kids at Brodhead High School

**By Cristi Gretebeck and Crystal Holtsapple-Guth, Student Council Co-Advisors**

Kids for Wish Kids is a fund-raising program that provides schools and youth organizations the opportunity to engage in philanthropy and service activities in partnership with Make-A-Wish. The Make-A-Wish Foundation's goal is to grant the wish of every child diagnosed with a critical illness.

BHS StuCo raised over \$5,000 in February 2020 for Darcy, a seven year-old girl from Monroe, who has Rett's Syndrome and had a wish to visit Disney World in Orlando, Florida.

In 2022, we sponsored Aidyn, a 14-year-old from Madison, living with a circulatory system disease, whose wish was to travel to Hawaii. In 2023, we raised over \$5,000 for Kaelie, who has a neuroblastoma, and had a wish to travel to Hawaii. In 2024, BHS StuCo raised \$3,200 for Robert, a nine-year-old from Janesville, who's living with cystic fibrosis, who wished to travel to Hawaii. Last year, BHS StuCo raised \$3,600 to support Jack, a 14-year-old boy from Stoughton who's living with a respiratory disorder, and his wish to go to Walt Disney World® Resort and Universal Orlando.

This year, Brodhead High School Student Council is excited to partner with Make-a-Wish Wisconsin for the sixth time to sponsor a local child. Gunnar is a nine-year-old from Janesville who's living with a heart

condition. He enjoys swimming, playing basketball, climbing trees, playing Minecraft and Fortnite, going to his family cabin, playing kickball and eating at Culver's. He wishes to go to Walt Disney World® Resort and Universal Orlando.

Our plans include raising awareness and accepting donations at three high school events during the week of February 2nd, donating the proceeds of our annual pie sales, and holding half-time events at basketball games that week. We will also be holding a penny war at the high school.

We are hoping you will partner with us in helping to send Gunnar to Orlando. If you are as excited as we are to help make Gunnar's wish come true. Donations can be made online with the QR code here or mailed to the address below. Please contact Student Council Advisors Crystal Holtsapple-Guth or Cristi Gretebeck with any questions by phone: 608-897-2155 or email: [choltsapple@brodhead.k12.wi.us](mailto:choltsapple@brodhead.k12.wi.us) or [cgretebeck@brodhead.k12.wi.us](mailto:cgretebeck@brodhead.k12.wi.us).

Here's how you can help:

## Saturday Mornings at the Durand Library

#### Antiques: Q&A, Tuesday, February 10

Everyone is invited to bring in an old article, which you would like to learn more about. Perhaps you have a family keepsake or something you picked up at a garage sale or at a thrift shop. No matter it's history, we'd love to see it and Jay Friberg, a retired antique dealer with more than 20 years of experience, will tell you about the piece. He'll be sharing his expertise with us Tuesday, February 10 at 7 p.m.

This is a great chance to learn exactly what the item is and how it was used. Don't worry whether your piece is an "antique" or a "collectible"—all these old pieces remind us of how our ancestors lived before the great changes in lifestyle brought about by the availability of electricity, running water and central heating.

The term "antique" is directly from the French language and means simply "old." Decades ago the federal government declared that an item which is more than 100 years old would be considered an antique and therefore someone could bring it into the country without paying customs duty on it.

Collectibles are items, which are, as the name implies, things people might want to collect because they are appealing in some way. With the rapid change in how we live today, articles from decades ago seem more quaint and collectible. Some older folks might remember them as simple everyday items.

The monetary value of each item can vary with time. For those who watch older Antiques Road Show programs, the monetary value, i.e. the amount someone might be willing to pay for an item, can drop over time. Although Jay is not an appraiser, he will offer a rough assessment of a piece's worth.

Please join us whether you bring an item or not more. Seating will be limited and an email to the Durand Library, [villagelibrary@cusd322.org](mailto:villagelibrary@cusd322.org) to let us know you are coming will be appreciated.

This program is hosted by the Friends of the Durand Library a nonprofit 501c3 group, which collaborates with the school to make library services available to the community. The library has access to the Interlibrary Loan system, which enables a search of 138 libraries in Northern Illinois to find requested books for patrons. And please know that we are happy to deliver books to anyone who is unable to get to the library.

Residents of the school district can check out books for three weeks from the school library as well as the Durand Library and renewals can be made by phone or email. Regardless of residence, everyone is invited to all library programs and events.

Also, there is a drop off box at the library entrance. Library services are free, easy to use and the Friends encourage the community to support this local library effort.

The Animals and Nature theme at Albertson Memorial Library's Preschool Story Time focused on buffaloes last week. Stories included There's a Bison Bouncing on the Bed (by Bright) about a bed that breaks due to all the animals jumping up and down on it. Toys Meet Snow (by Jenkins) the buffalo gets to play in the snow, making snow angels, etc. The last book, Buffalo Fluffalo (by Kalb) tells the story of a grumpy buffalo who learns that just being himself is enough. The Preschoolers tried to put a buffalo puzzle together and then colored and glued and painted a buffalo of their own.

Next week, the Story Time will continue the Families theme with books about grandpas: How to Babysit a Grandpa (by Reagan) and Grandpa's are for Finding Worms (by Ziefert). The preschoolers will talk about What Grandpas Do Best (by Numeroff) and make a handprint craft with a heart around grandpa. (It IS February/Valentine's, right?)

Albertson Memorial Library's Preschool Story Time meets every Tuesday at 10 a.m. There's plenty of room for more visitors. We'd love to make some new friends. See you Tuesday!

Please email [villagelibrary@cusd322.org](mailto:villagelibrary@cusd322.org) or call 815-289-8602 with any questions. Library hours are Saturdays 9 a.m.-noon and Tuesday evenings 6-8 p.m. Entry to the library is at the east end of the school, follow the signs along the wide paved walkway.

## Farmers are Invited to Sign up For Nutrient Management Classes

A Nutrient Management Plan (NMP) is a document that outlines the planned use and management of land taking into account nutrient sources available such as manure, legumes, organic waste and commercial fertilizers to supply the essential plant nutrients to crops and pastures. They are used to evaluate the impact of the planned land use and management on potential soil erosion and surface water quality. Farmers are encouraged to learn to write and follow a NMP for their farm because it often increases a farms profitability through improved nutrient management and cropping systems.

A 2012 study of over 250 farms in Wisconsin with NMPs found that 69% of the farms saved money, with the average of about \$18/acre. Over half of the farms reduced their nitrogen and phosphorus applications. These reduced applications brought no change in corn yields in 74% of the farms. 18% of farms reported an increased corn yield.

Fall crop prices are projected to be lower than the cost of inputs this spring and summer. This means that farmers are probably planning to lose money putting in a crop in 2026. Creating a NMP is a good way to make sure the crops needs are met with the least amount of inputs possible. The NMP is created in SnapPlus Version 3, which is web based and free to use.

The Extension Green County and Green County Land and Water Conservation Department have teamed up to offer classes to farmers wanting to learn how to write their own plan or know what is in a plan. The classes are free and will be held Fridays, February 13th and 20th from 1 until 3 p.m. at the conference room at the Extension Office in Monroe. Farmers should register with Jordyn Sattler at [jordyn.sattler@wisc.edu](mailto:jordyn.sattler@wisc.edu) or 608-328-9440, or Tonya Gratz at [Tonya.Gratz@wi.nacdnet.net](mailto:Tonya.Gratz@wi.nacdnet.net) or 608-325-4195 EXT:2684. These classes are required to be certified to write your farm's NMP. Class size is limited to 10 farmers.

## Green County Sheriff's Department

January 16-25, 2025

At 8:55 a.m., Friday, deputies responded to the W3800 block of Gilberston Road, in the Town of Mt. Pleasant, for a one vehicle crash without injury. The investigation found that the driver, Tyler P. Liskow, 28, of Brodhead, was traveling westbound when his vehicle lost traction due to snow-covered roads. Liskow then entered the north ditch, where he collided with a barbed wire fence. Liskow advised he was uninjured and wearing his seat belt. The vehicle sustained functional damage, without airbag deployment, and was driven from the scene.

At 9:48 p.m., Friday, deputies responded to the W2600 block of CTH C, in the Town of Mt. Pleasant, for a reported disturbance. The investigation resulted in Kenneth M. Johnson, 35, of Albany, being placed under arrest for disorderly conduct, falling under Wisconsin's domestic abuse laws. Johnson was later incarcerated at the Green County Jail pending court.
