EVIDENCE MUST BE UPLOADED BEFORE THE APPLICATION FORM CAN BE SUBMITTED.

Evidence of eligibility

If you have access to a scanner or a smart phone or other digital camera, you can take copies of the required documents and upload them here. You may also have to take originals along to the college but providing copies now will speed up your application.

Below is the list of evidence required based on your criteria selections and other information provided. Any document that you add that meets our requirements will show with a green tick in this list below. You can add evidence which is not shown as required and it will still show in the list below but without a green tick.

Once you have uploaded evidence, the documents can be removed from the list as well providing your application has not already been processed

Question: Please select all current sources of household income that are applicable. Evidence of all current income received in your household will need to be provided in the next section.

Your answer: Universal Credit

All these evidence documents must be uploaded

[Click here to upload your Full Universal Credit award statements \(last 3 months full statements are required\)](#)

Please provide full statements from top to bottom, showing all allowances and deductions that are used to calculate the final payment amount. Statements are accessible from the Universal Credit online account.

Please do not upload screenshots unless they show a complete statement in one single screenshot. We suggest downloading your statements as a PDF.

Most types of evidence will get scanned by the system to make sure it is appropriate.

Sorry, but your file is either not clear enough or it does not contain the Full Universal Credit award statements (last 3 months full statements are required)

This does not look like the correct document. Instead, the document primarily discusses the 'Prevent Duty,' which is a UK government strategy related to counter-terrorism and extremism risk management. It outlines concepts like radicalization, extremism, terrorism, and referral processes \u2013 all directly linked to governmental policies. There's no mention of Universal Credit or any other benefit system.

If you upload the wrong evidence you will be informed.

To submit your form you need to sign this and a parent/guardian.
