SPECIFICATIONS

Shur-Flex® System - 3 Component Design

- The flexible square to round joint is a simple one piece, non-metallic molded design that withstands multiple impacts assuring long-life in corrosive environments.
- Posts are manufactured with greater wall thickness to provide structural integrity.
- Panels can be single or double side per requirements.
- Any part can be replaced independent of others resulting in maintenance savings.
- One pin - one minute! We've made it quick and easy to install or replace a post.
- The 35lb. RB-35 rubber base is completely portable, while the surface mount base allows for a permanent installation with included anchor bolts.

AVAILABLE POST COLORS
