- Quick and simple installation

SPECIFICATIONS

Shur-Flex® System - 3 Component Design

- The flexible square to round joint is a simple one piece, non-metallic molded design that withstands multiple impacts assuring long-life in corrosive environments.
- Posts are manufactured with no less than 70% recycled materials with a heavier wall thickness to provide structural integrity.
- Top of posts are round to provide 360° degrees of reflectivity.
- The telescoping design allows for the post to be lowered during the summer.
- Perforated steel tubing anchors are used to accommodate multiple soil conditions.
- One pin - one minute! We've made it quick and easy to install or replace a post.
