Explanation of Services

SPRING STARTUP: Turn on main ball valve, pressurize system, check water meter for evidence of a leak in the system. Run test on each zone to check for possible leaks, proper operation, coverage, and head adjustment. Check rain sensor. Make any suggestions for improvement to the system. **Repairs are not included.** Only warranted parts are covered by the agreement.

WINTERIZATION: Turn off water at main ball valve, fully winterize the irrigation system and drain down any additional water that could be trapped in the pipes. Make notes of any repairs necessary for the next year. Turn off the controller to the system. **Any repairs needed to properly winterize the system are not included.**

MAINTENANCE VISIT: Run test on each zone to check for possible leaks, proper operation, and head adjustment. Check rain sensor. Program controller for proper seasonal conditions. **Repairs are not included.**

1. If we arrive at a scheduled appointment time and no one is home or access has not been left to service the system, you may be billed a \$65.00 trip charge.
2. Should you have an issue with a repair we have made, we must be notified within 10 days of the repair. It is the homeowner's responsibility to monitor their system and report any issues to us within the 10-day time period, after any repairs are made.
3. After 90 days delinquency, a case will be filed in Small Claims Court. At which time, we will seek reimbursement of finance charges and court costs in addition to the principal balance.
4. Interest on unpaid balances will accrue at a rate of 18% per annum after 30 days.
5. In the event that a customer has an unpaid balance at the time of the Winterization, we have the right to withhold services until the balance has been paid in full.
6. Any changes made to this document will not be accepted.
7. Service Agreement is non-transferrable
