- Add **crackling campfire** around the edges of each petal on both sides of each petal.
- Add black soot to the claw as shown in the video on both sides.

- **Ink the Centers:**

- Add crackling campfire in a circular motion in the center and blend out on each petal as shown in the video. Do this on both sides of the petal.
- Add a little extra of the crackling campfire to the tips of each petal as shown in the video.
- Add black soot to the claw as shown in the video on both sides.

- **Ink the Sepals:** Ink the petals with **forest moss Distress Oxide** on both sides and ink around the edges on both sides with **black soot Distress Oxide** as shown in the video.

- 5) Style/Roll the petals, centers and sepals as notated in the table on the previous page. **Tip!** As you roll each petal or center, stack them. Exception will be the 3" Petal 3 and Center 1, they should be stacked in a separate pile.
- 6) Roll the center of each petal with a metal ball stylus on a flower shaping mat as shown in the video.

- 9) Flip the flower over>add glue to the sepal (assembled with sepal petals under) and attach in between layer 1's petals>add glue to the sepal and attach in between the previous sepal's petals.

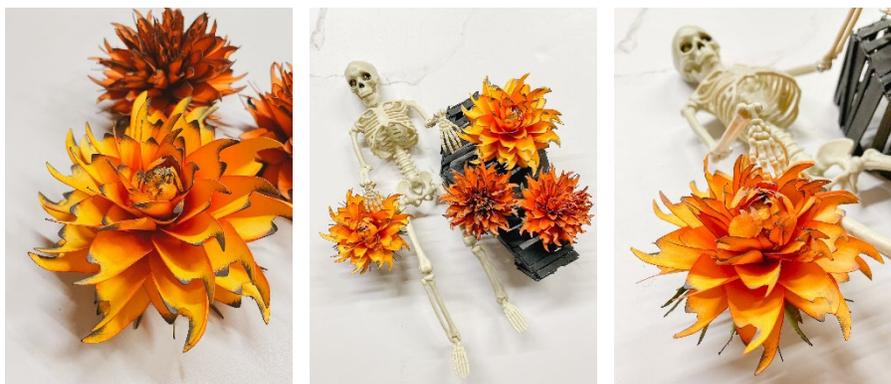

Note: If stemming the flower, follow the steps below.

- Pierce a hole in the center of the sepals with the piercing/scoring tool on a flower shaping mat.
- Place a piece of 18-gauge wire in between the needle-nose pliers.
- Bend the wire into a shepherd's hook.
- Place the shepherds hook in between the needle-nose pliers.
- Squeeze the hook shut to form a loop.
- Place the loop in between the needle-nose pliers.
- Bend the loop 90 degrees like a corner.
- Thread the larger sepal onto the floral stem wire with the petals rolled up.
- Add glue to the underside of the wire loop and attach the sepal to the wire loop.
- Add glue to the top of the sepal and attach the flower.
- Thread the smaller sepal on the floral stem wire.
- Add glue to the underside of the stemmed sepal around the stem and attach the sepal in between the previous sepal's petals.

- 24) Show off your flower! Be sure to hashtag your post: #photofabpaperflowerstemplates #photofabpaperflowers #halloweenspooktacular #halloweenspooktacular2023 #halloweenspooktacularutorials

FLORIST THE EXPLORIST
HALLOWEEN SPECIAL
SATURDAY, SEPTEMBER 23, 2023

▶ <https://fb.watch/nLzano-if/>

It's Florist the Explorist making his Halloween Spooktacular debut!

We are about to do something 'SCARY GOOD'; you know what I mean!?!?

Cheers to a Halloween Spooktacular! Be sure to have your drink ready!

I got this thing right here... a ball on a stick!

Push the ball hard and up and down!

It saddens me when paper florists do not use the dirt which comes with it!

It's all about the base! It should be looking like a pumpkin!

It's hard for me to blow at this angle!

This is a good back scratcher!

Is this blood?

Poke around... poke, poke, poke!

Thank you all for taking the time, you could have cleaned your house!

Meet Lord Pumptacular

Inspire the Undead!
