OUR PROJECT REFERENCES

OP2 ENGAGEMENTS & EVENTS

Our principal and commercial director, Nic Condon represented OP2 Australia this year at the **Queensland Transport and Roads Investment Program (QTRIP)** briefing from the department of **Transport and Main Roads (TMR)**.

At this briefing, Nic joined industry, community, and government organisations in learning about TMR's upcoming investment focusses for roads, railways, marine, public transport, and other active transport initiatives. "It was great to attend this presentation in person and to then get the opportunity to network with members of TMR and other industry colleagues".

OP2 PROJECT SPECIALIST INTRODUCTIONS

We are pleased to introduce our principal and commercial director, **Nic Condon** and our new senior consultant **Steve Arnold**.

Nic brings extensive experience directing **complex multi-billion-dollar projects** in rail, infrastructure, and mining throughout Queensland, with an emphasis on effective and detailed planning and design. These large-scale projects include the **Vale Australia Degulla Rail Project, BHP Billiton Goonyella to Abott Point, GVK/Hancock Alpha Rail Project, and the Carmichael Rail Network.**

With over **25 years' experience** in the industry, Nic has developed many key skills notably in building successful relationships through effectively **managing client, stakeholder and internal expectations** to ensure successful commercial, business and project outcomes. Nic's enthusiasm for client and stakeholder satisfaction ensures a strong knowledge of the contractual & commercial obligations of all parties involved throughout the entirety of a project.

To further discuss OP2's commercial operations and more, please contact Nic at nic.condon@op2.com or on 0428742190.

Steve is an experienced **Project Planning and Control Professional**, with **19 years** of planning experience in sectors including defence, construction, infrastructure, and rail with an emphasis on **scheduling, planning, and consulting**. Steve has assisted in the successful delivery of many large projects across Europe, Asia, and Australia for recognized companies such as **BAE System Avionics** and **BP**. These projects include the **Sydney Transport Opal Card Project, Heathrow airport terminal replacement project, and Queensland Next Generation Ticketing System.**

Steve brings extensive expertise in the developing and updating of plans within an integrated Business Management System throughout **the entirety of the project management cycles**. He has a proven track record of producing innovative solutions which meet and exceed business expectations and requirements.

OP2 PUBLICATIONS

In August, we published a video focusing on Complex projects, where we showed that having a successful project launch is a simple and truly effective method. In this short video, we highlight the importance of breaking down the complexity of projects and how focusing on your delivery sequences can benefit your organisation in meeting your key milestones.

This and other Op2 publications can be found on our website at: <https://op2projects.com.au/publications>

OP2 AUSTRALIA IS GROWING

Do you enjoy a challenging project? Are you motivated and strive for excellence? OP2 Australia is looking for additional Project Control and Planning specialists to add to our dynamic team.

We are a group of enthusiasts and problem solvers who are dedicated in assisting our clients with complex projects and achieving outstanding program performances. We support GMs and PMs, from implementing new management policies, to improving projects and engineering performances. We strive to make a real difference for our clients across many sectors including Rail & Infrastructure, Construction, Defence, Signalling and ICT.

If you think you are the right fit, we would love to hear from you at au.office@op2.com
