

# Tackle Life Ministries

## *Mission*

Tackle Life Ministries is a non-profit corporation that has been established with a clear focus on helping qualifying high school students navigate life's struggles and challenges with the ultimate goal of seeing them graduate from high school. We firmly believe that every young person deserves an opportunity to succeed and that with the right support and guidance, they can overcome obstacles and fulfill their potential becoming productive members of our community.

Many of the students we work with come from broken homes, with parents or family members incarcerated, unemployed, or simply struggling to meet life's demands. These young individuals face an uphill battle as they juggle personal hardships alongside the usual pressures of high school. Tackle Life Ministries aims to be a beacon of hope, providing them with the tools and resources needed to overcome adversity and chart a positive path forward.

Our ministry has outlined core objectives and developed an annual budget that is specifically aligned with addressing the needs of these students. We are committed to providing them access to resources that will empower them to succeed. By investing in their education and personal development, we hope to instill confidence, resilience, and a sense of purpose that will follow them throughout their lives
