

# Missing You

By: Sierra Lewandowski

Baby sometimes  
Late at night  
I'm in my bed  
But my minds alive

Running through all my thoughts  
All our moments and talks  
All the times you touched me  
And the world seemed to stop

Cause baby when I was with you  
All my problems  
Were solved

Now sitting in my room  
Just missing you  
Thinking of all those times  
You sent my heart up to the moon

Wishing I'd known then  
That you'd be leaving soon  
Oh what must I do  
When I'm missing you
