

I Still Love You

By: Sierra Lewandowski

You're always happier
When I'm not around
When you're talking to me
You're always looking down

Do you truly love me
I don't really know
You say that you do
But it doesn't ever show

Always yelling at me
Saying what I did wrong
And it's hurting me
Feels like I don't belong

Oh as I grew up
I found there's more to see
More inches off the ground
And it's come clear to me

That I might never
Feel the joy
I had previously

But at least I had
You and you
Loved me

But now it seems
That you feel
Differently

But I still love you
Always
