

# **That's What You Said**

By: Sierra Lewandowski

I remember the reign  
I remember the fun  
And I remember  
Those early days

You said you loved me  
All the way  
And that it would  
Always be you and me

That's what you said  
That's what I believed

I miss you  
And I miss me  
I miss who  
We used to be

But most of all  
The thing I miss  
Is I miss us  
I miss them

But I remember you  
And all the things  
You used to do  
Way back then

That's what you did  
That's what you said

And the part of this  
That hurts the most  
That slashes deep  
Into my bones

Slicing me  
Without a knife

Is what I hoped  
Would be  
What I believed  
To be

For I live my life  
On promises  
Made and given  
So reckless

Once broken  
They shatter all light  
They shatter  
My light

And you promised me  
You would be  
Always there  
Through anything

You promised me  
All these things  
But you breaking them  
I couldn't foresee

And finally  
You said you  
Loved me

That's what you said  
That's what I believed
