[Chorus]

I knew it was you I knew it was you
Smelled your energy For centuries ooo uuu
I knew it was you I knew it's was you
Felt your presence Before I enter the room

[Verse 1]

Some spend a life time searching For the one earthling
That feels like a friend on the first day
Half the questions we knew what each others gonna say Organic displayed
No reason to panic
I believe we all have many lives on this planet The evidence is you, your outstanding

[Chorus]

I knew it was you I knew it was you
Smelled your energy For centuries ooo uuu
I knew it was you I knew it's was you
Felt your presence Before I enter the room

[Verse 2]

Here again and again
Over time had a few other friends
Never yet have we all shared the same bed It's better that way,
Gotta keep the world safe
Tired of feeling like I'm behind a drape Sure as he'll won't rock a superman cape But I can slap my
chest like an ape
And create for days in more ways than fingers Either way all I really wanna say is maybe one Day we
have a little drama
But forever n ever its just a comma In the story
In the story

[Chorus]

I knew it was you I knew it was you
Smelled your energy For centuries ooo uuu
I knew it was you I knew it's was you

Felt your presence Before I enter the room

[Verse 3]
