What I Do for Fun: Kayaking/paddle boarding with my dogs, golfing, boating, rose gardening, photography, writing children's picture books about my rescued cats and animal welfare, playing a Celtic harp and harmonicas, painting.

About Me: Originally from Bangkok, Thailand, I had worked and lived in Singapore for 12 years before relocating to USA in 2017. Retired from my banking and investment management career, I found my calling in animal welfare, which led to my further studies in animal communication, energy healing and animal behavior. However, real estate has always been my passion. I have firsthand experience in luxury real estate through multiple moves and relocations, buying and selling luxury homes for my family. Moreover, I also ran my own business in home staging and Feng Shui consulting.

Strengths, Value and Mission: I am knowledgeable, strategic, analytical, intuitive, a problem solver, genuine, respectful, and empathetic. My practice adheres to the highest ethical standard and professionalism. I cherish a long-term relationship with my clients. My goal is to provide the best service and to support my clients to achieve their real estate goals.
