Shower Wall Panels

Shower and tub surround wall panels are made to your specific size. Each exposed edge will be finished, and on-site trimming can easily be done with any wood cutting tool.

Wall Panels are available in five styles: Gloss Smooth, Subway Tile, Stone Tile, Wavy Tile and Shiplap. Wall panels come with all adhesive silicone and color-match seam silicone needed for your installation.

GLOSS SMOOTH

Our most popular finish, the smooth Gloss Finish gives a classic appearance with an easy to clean smooth surface.

SUBWAY TILE

A smooth tile design with faux grout lines, the Subway Tile "size" is 3" x 9⁵/₈" and the 1/4" wide grout groove is 1/32" deep. The grout molding shape will also be shown on the finished edge.

STONE TILE

Our production mold was made from natural 12" x 12" stone tiles which gives each wall panel the look of stone tile with a grout free shower wall.

8" X 24" WAVY TILE

Actual tile size (not including any grout lines) is $7\frac{7}{8}"$ x $24\frac{1}{8}"$. The grout lines are $\frac{3}{16}"$ wide.

SHIPLAP

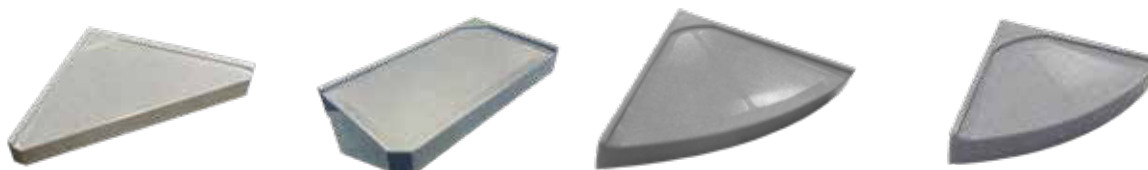

Smooth panel with $\frac{1}{4}"$ wide recessed groove. The spacing between the grooves is 5".

Accessories

SHOWER CADDIES — Over 20 Options

SHOWER SEATS — Many Standard and Custom Options

TOWEL BARS, CURTAIN RODS, SPLASH GUARDS

Trim

BASEBOARD, BASE SHOE, CASING, CHAIR RAIL
