

International Mining Company Invest Inc

2nd Quarter 2006: Kyrgyzstan Mining, Exploration and Development

IMC Invest is pleased to announce the major and positive Production, Exploration and Development news of its Kyrgyz projects.

1. **April-June 2006** / First 200 Oz placer Au were produced on the Ishtamberdy licence area. Additional new extra equipment and machinery were purchased: wheel loader, excavator and a bulldozer. With the arrival of this additional machinery and starting in July, production is expected to double.
2. **May 2006** / Two new mining licences were granted: Andagul (522) and Saraisay (523), adding a bulk of approximately 7,500 Oz placer Au in category B. The three areas, Ishamberdy, Andagul and Sarasay, are situated in a close proximity to each other and are considered as one commercial site.
3. **June 2006** / An ongoing exploration on Kainda (82) licence with additional sampling, trenching and mapping of the prospective areas.
4. **June 2006** / Dr. Richard Napier, from GFMS Mining & Exploration Consulting, has joined the company Board as a non-executive member. [Short Bio](#)
