DOOR COUNTY NON-NATIVE PHRAGMITES CONTROL PROGRAM

Application Form (TO BE COMPLETED BY LANDOWNER)

Landowner _____

Parcel Identification Numbers _____

Address _____

City/State/Zip _____

Phone Number _____

*By signing below, I authorize the chemical treatment at **no cost** to myself as the land owner, of non-native phragmites in accordance with Door County Non-Native Phragmites (*Phragmites australis*) control efforts starting from the date of my signature until December 31, 2024.

I, _____ on this _____ day of _____, 2024 understand that this is primarily a non-native Phragmites control program and that treatments occur in early fall. I understand that treatment efforts are not guaranteed and limited by available grant funding in specific grant project areas. I understand these control efforts may not be available the following year, and for successful control follow up treatments may be needed. **Please return permission slip April 26, 2024 to ensure treatment.**

Return by email to SWCD@co.door.wi.us or return by mail or in person to:

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotope, American Sign Language, etc.) should contact the responsible Agency or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at [How to File a Program Discrimination Complaint](http://www.fda.gov) and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (1) mail: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, SW, Washington, D.C. 20250-9410; (2) fax: (202) 690-7442; or (3) email: program.intake@usda.gov.

The Door County Invasive Species Team (DCIST) is a group of natural resource professionals and interested public members that are concerned about the preservation of Door County's natural environment. DCIST seeks to halt the invasion of exotic, non-native plants by empowering citizens with the education, tools and skills necessary to control invasive species. DCIST is committed to educating, preventing, minimizing, and eradicating invasive plants and reducing their impact on Door County's natural resources, economic viability, and human welfare. The partnership promotes an open exchange of information, public and private sector coordination, and citizen involvement. DCIST has been a model cooperative weed management group for the state, bringing together natural resource groups present in your community, for over 20 years!

In 2022, with the help of various Invasive Species Education and Outreach grants, Cooperative Weed Management grants, Invasive Species Control grants and donations obtained through generous donors such as yourself, the DCIST was afforded the opportunity to:

- Offer training and outreach for invasive species identification and monitoring, participating in over 15 webinar, interviews, and volunteer events. Engaging over 27,000 people through news interviews, media platforms, and one-on-one site visits.
- Promote the adoption of Door County priority/Phragmites ordinances in eleven towns and the city of Sturgeon Bay. DCIST continues to conduct outreach and education within these municipalities to ensure successful ordinance implementation.
- Manage 2 CD3 boat cleaning stations and 2 simplified boat cleaning stations, providing aquatic invasive species prevention tools to over 95% of county boat launch users. Manage 3 boot brush stations along the Ahnapee Trail, and install 7 more on various County Park properties.
- Inventory and control 540+ acres of invasive species.
- Begin updating our strategic plan.
- Participate in Early Detection and Rapid Response Efforts for new invasive species in Door County.

Your continued financial support of DCIST is crucial to our efforts of invasive species education and management throughout the County. To keep up to date on all of the invasive species projects and efforts going on in the county please visit our website at www.doorinvasives.org. Make sure to follow the Door County Invasive Species Team (DCIST) on Facebook.

Your contribution of any dollar amount will help DCIST to achieve our mission to empower Door County citizens and municipalities with the information, tools, and skills to tackle invasive species. These efforts are critical to help preserve Door County's beautiful and unique ecological landscape. As the fiscal managers of DCIST please make checks payable to Door County Soil & Water Conservation Department (SWCD). Please send donations to:

Door County Soil & Water Conservation Department
421 Nebraska St.
Sturgeon Bay, WI 54235

Thank you!
