

PRIMARY STEPS

Clean

Use the provided **hand tools** to remove all organic matter from the watercraft & trailer.

Drain

Remove plugs and drain livewells & ballast.

Use the provided **vacuum** to remove any water leftover or on deck.

Dry

Use the provided **air compressor** to dry all wet parts of watercraft and trailer.

Dispose

Make sure all unused bait or leftover organic material is properly disposed of in trash or **compost**.

WELCOME TO THE CD³

WATERCRAFT CLEANING STATION

BY BOATERS  FOR BOATERS™

This is a waterless, user-operated, and **entirely free** watercraft cleaning station.

That means...

It's up to YOU to clean off your boat-- Because everyone likes a clean boat.

CD³ Stations follow a simple protocol that employs the proven Best Management Practices [BMP's] of **Cleaning, Draining, Drying, & Disposing** that all boaters can easily do to keep vessels free of any AIS (Aquatic Invasive Species).

Enjoy using this CD³ Station, and thanks for doing your part to stop the spread of Aquatic Invasive Species like:

Zebra Mussels

Eurasian Watermilfoil

Everyone Likes a Clean Boat™
