

Using start of the art technology to monitor your vital signs and other important health metrics...remotely!

Do you or a loved one have any of the following health problems that could use the skill and expertise that a Registered Nurse offers?

- **High blood pressure**
- **Diabetes**
- **Heart disease or heart failure**
- **Atrial Fibrillation**
- **COPD or lung disease**
- **History of stroke or TIA**
- **On Coumadin or oxygen?**
- **Multiple health issues or medications**
- ****Have or need a home sitter or companion service?**

Who We Are

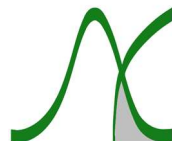

About Us

VitalWatch²⁴ is a Registered Nurse centered health monitoring and home concierge service. We utilize the latest in wearable technology to monitor your health and wellness around the clock. Our exclusive CallBell™ service means an RN is only the press of a button or a phone call away to answer any question or address any health concern you may have...24 hours a day!

What's included with VitalWatch²⁴ service?

24 Hour Health Monitoring

Our state of the art technology records and transmits your health data around the clock. Connected to the app on your phone, your data is kept up to date, confidentially, in real time. We even provide you a monthly health report so you'll know exactly what we saw on our end.

24 hour CallBell (TM) Support

Your RN or their supporting RNs are available 24 hours a day at the press of a button. Have a question? Sudden health problem? Press your CallBell and have an RN call you back within minutes!

In-Home Wellness Support

Nothing can substitute for a well trained set of RN eyes and ears to assess your current health and wellness needs. Your service includes in home wellness visits and phones calls. We always want to "check in" with you to see how you're doing.

On-Demand Nursing Services

Do you need your RN to visit you sooner than scheduled because you don't feel well? Do you need to submit blood, urine, or some other specimen to the lab? Need your medications set up each week or two? We are available to provide a broad spectrum of health services in the convenience of your home.

Let us save you a trip to the doctor or lab!

Why should I have VitalWatch²⁴? What's the benefit to me and my loved ones?

*We help provide the **PEACE OF MIND** that comes with knowing we're always watching.*

- We understand the financial, emotional, and health costs that are associated with unnecessarily going to the ER, MD office, or hospital. **We can determine when its time to see the doctor and when it's not.**
- Your VitalWatch RN knows you better than most. **When we see something isn't right, we'll proactively reach out to you.**
- We help you reach **your optimal state of health and wellness.**
- **Starting at \$99/month, there's no greater value available to support aging-in-place in your own home.**
