The Care of Home, A World Away

# ABOUT US

The care of home, a world away.

## METIS EDUCATION GLOBAL ASSOCIATION

When you enter the Metis program, you enter a level of service and prestige unlike any program around. Focusing on the acceptance to top tier universities within the United States, Metis provides planning solutions for high school students seeking entrance to these elite universities. Through utilizing our all-inclusive services, 24-hour butler service, teacher guidance from Harvard professors and students, application support, extracurricular activities, and corporate partnerships with industry leaders, Metis builds a one-stop pathway for elite students and elite universities.

While you are with Metis, you will experience the quality of service and quality of products that create a foundation for future developments. Through well established, high quality services and support of advanced concepts, Metis has been favored by students and their parents since its founding. Metis focuses on its direct application for studying in the United States and creating an excellent program for those studying abroad through providing services and building a team to ensure success. We have a consistent management philosophy centered around open communication and sustainable development. As we continue to serve our clients and continue to grow, we are looking forward to continuing to keep our open, hands-on approach to allow all of our students to dream big, learn more and become a partner with the elite.

Welcome to Metis!

WEEKDAY

Three days a week, our students are able to receive tutoring from highly qualified specialists. Our tutors help students prepare for the SAT/ACT (two college entrance exams our graduates will complete), TOEFL/IELTS, AP (college-level classes). For the SAT and ACT, our tutors not only focus on the necessary material, but work with students to develop the necessary study skills to be successful. These tests combined with other grades and extracurricular activities will continue to allow our students to be competitive when applying to colleges. The design of our program will ensure that student's scores increase over their initial score.

# Weekend

## Why do students involve in the volunteer?

A well-rounded student is one who excels both inside and outside the classroom. To build not only a quality student, but a quality citizen, we provide our students with volunteer opportunities. These opportunities range from working with local children to helping the homeless. Students are able to use this time to build their skills while enhancing their resumes for college entrance.

Saturday

**Sunday at home is a time for family, while at school it is time for relaxation. Students are given chances to get out with their friends during the day while stepping away from the hectic schedule of the school week. We often find our kids making new friends and becoming part of the local community.**

**Sunday**

# Summer schedule

## 9th

Over the summer of their 9th grade year, our students are guided through the process of evaluating and selecting their dream college. Students will work with counselors to learn the advantages each school gives while preparing for the application and enrollment process for each. We take our students on visits to their schools to meet with enrollment officials, tour campuses and get a taste of the college experience. Students will have the choice to select from pre-identified schools for college visits while having the chance to demonstrate their abilities to college admissions officers.

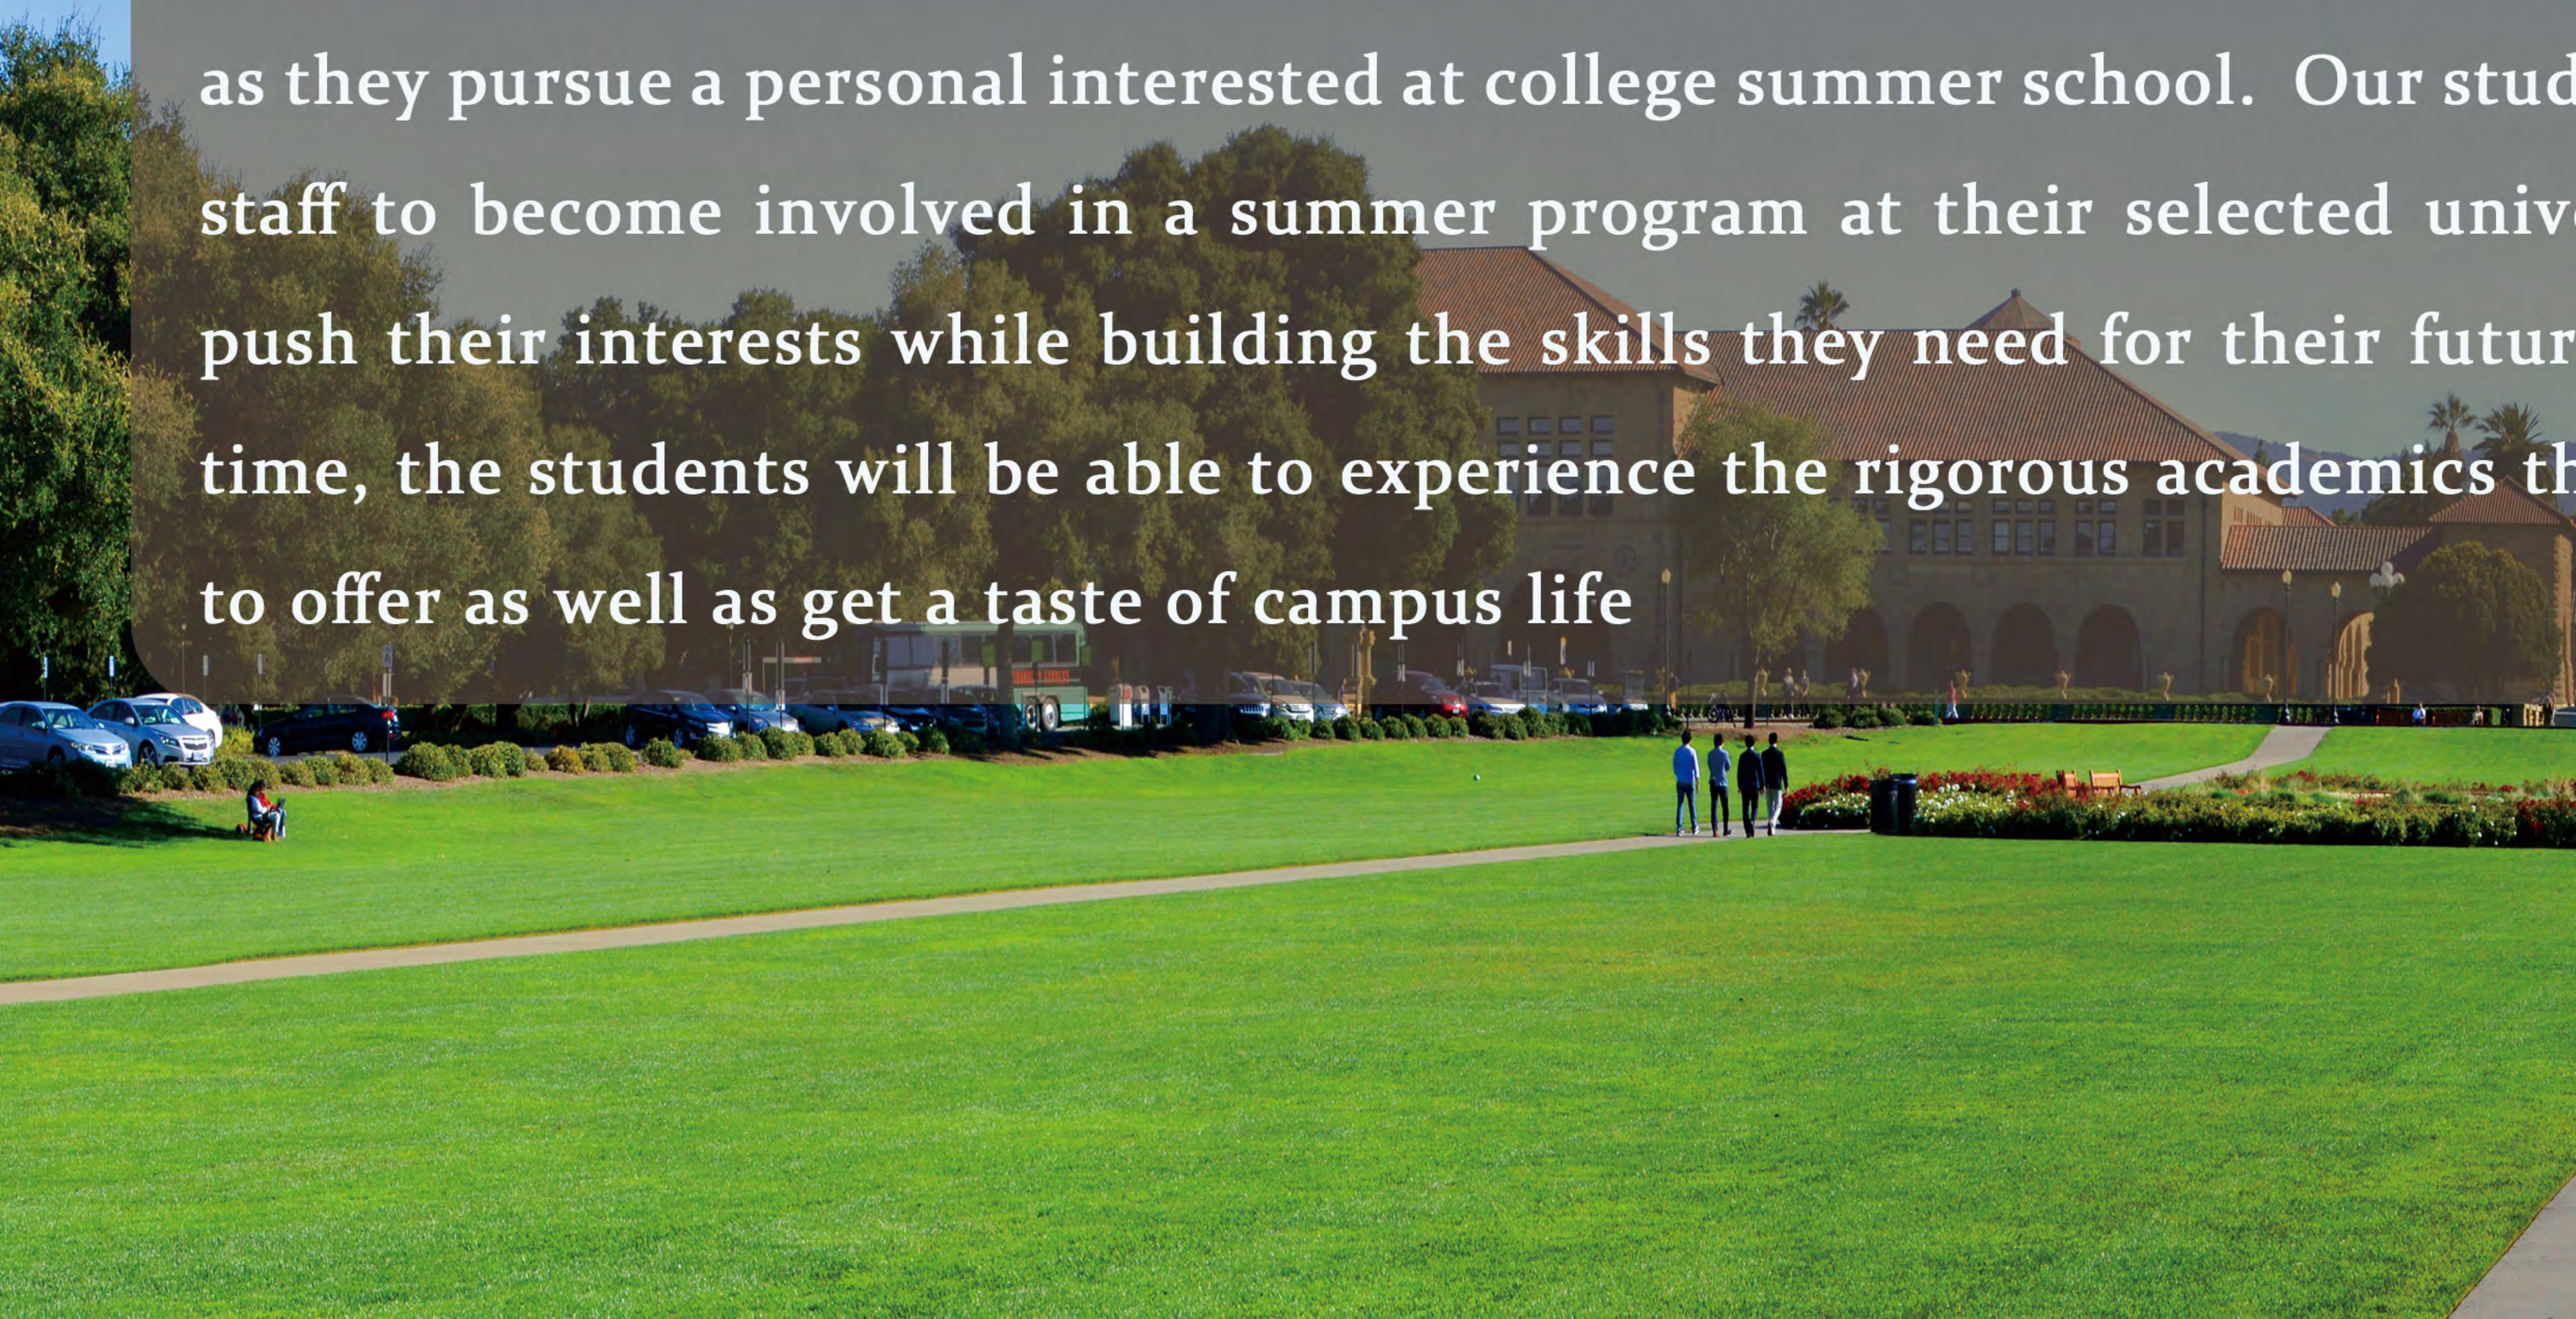

ugh the process

# Summer schedule

## 10th

10th grade summer opens the door to a world of possibilities for our students. They are free to explore the world, challenging themselves both academically and personally, as they pursue a personal interest at college summer school. Our students are encouraged to become involved in a summer program at their selected university to push their interests while building the skills they need for their future. During this time, the students will be able to experience the rigorous academics that the university has to offer as well as get a taste of campus life.

# Summer schedule

## 11th

11th grade gives our students the chance to take part in research projects at a selected university. While being a research assistant, our students work side-by-side with tenured professors, the leaders in their field, as they develop their academic skills and gain insight within their area of focus. Completion of the program will end with a complete understanding of the learning process and a letter of recommendation from their lead professors.

# Dorm

Our school and housing are located in a suburb that gives the feel of a small town with access to all of the big city. We are focused on the safety of employing security staff in the schools and on the dorms. Nothing is more important than the security of our students!

Safe

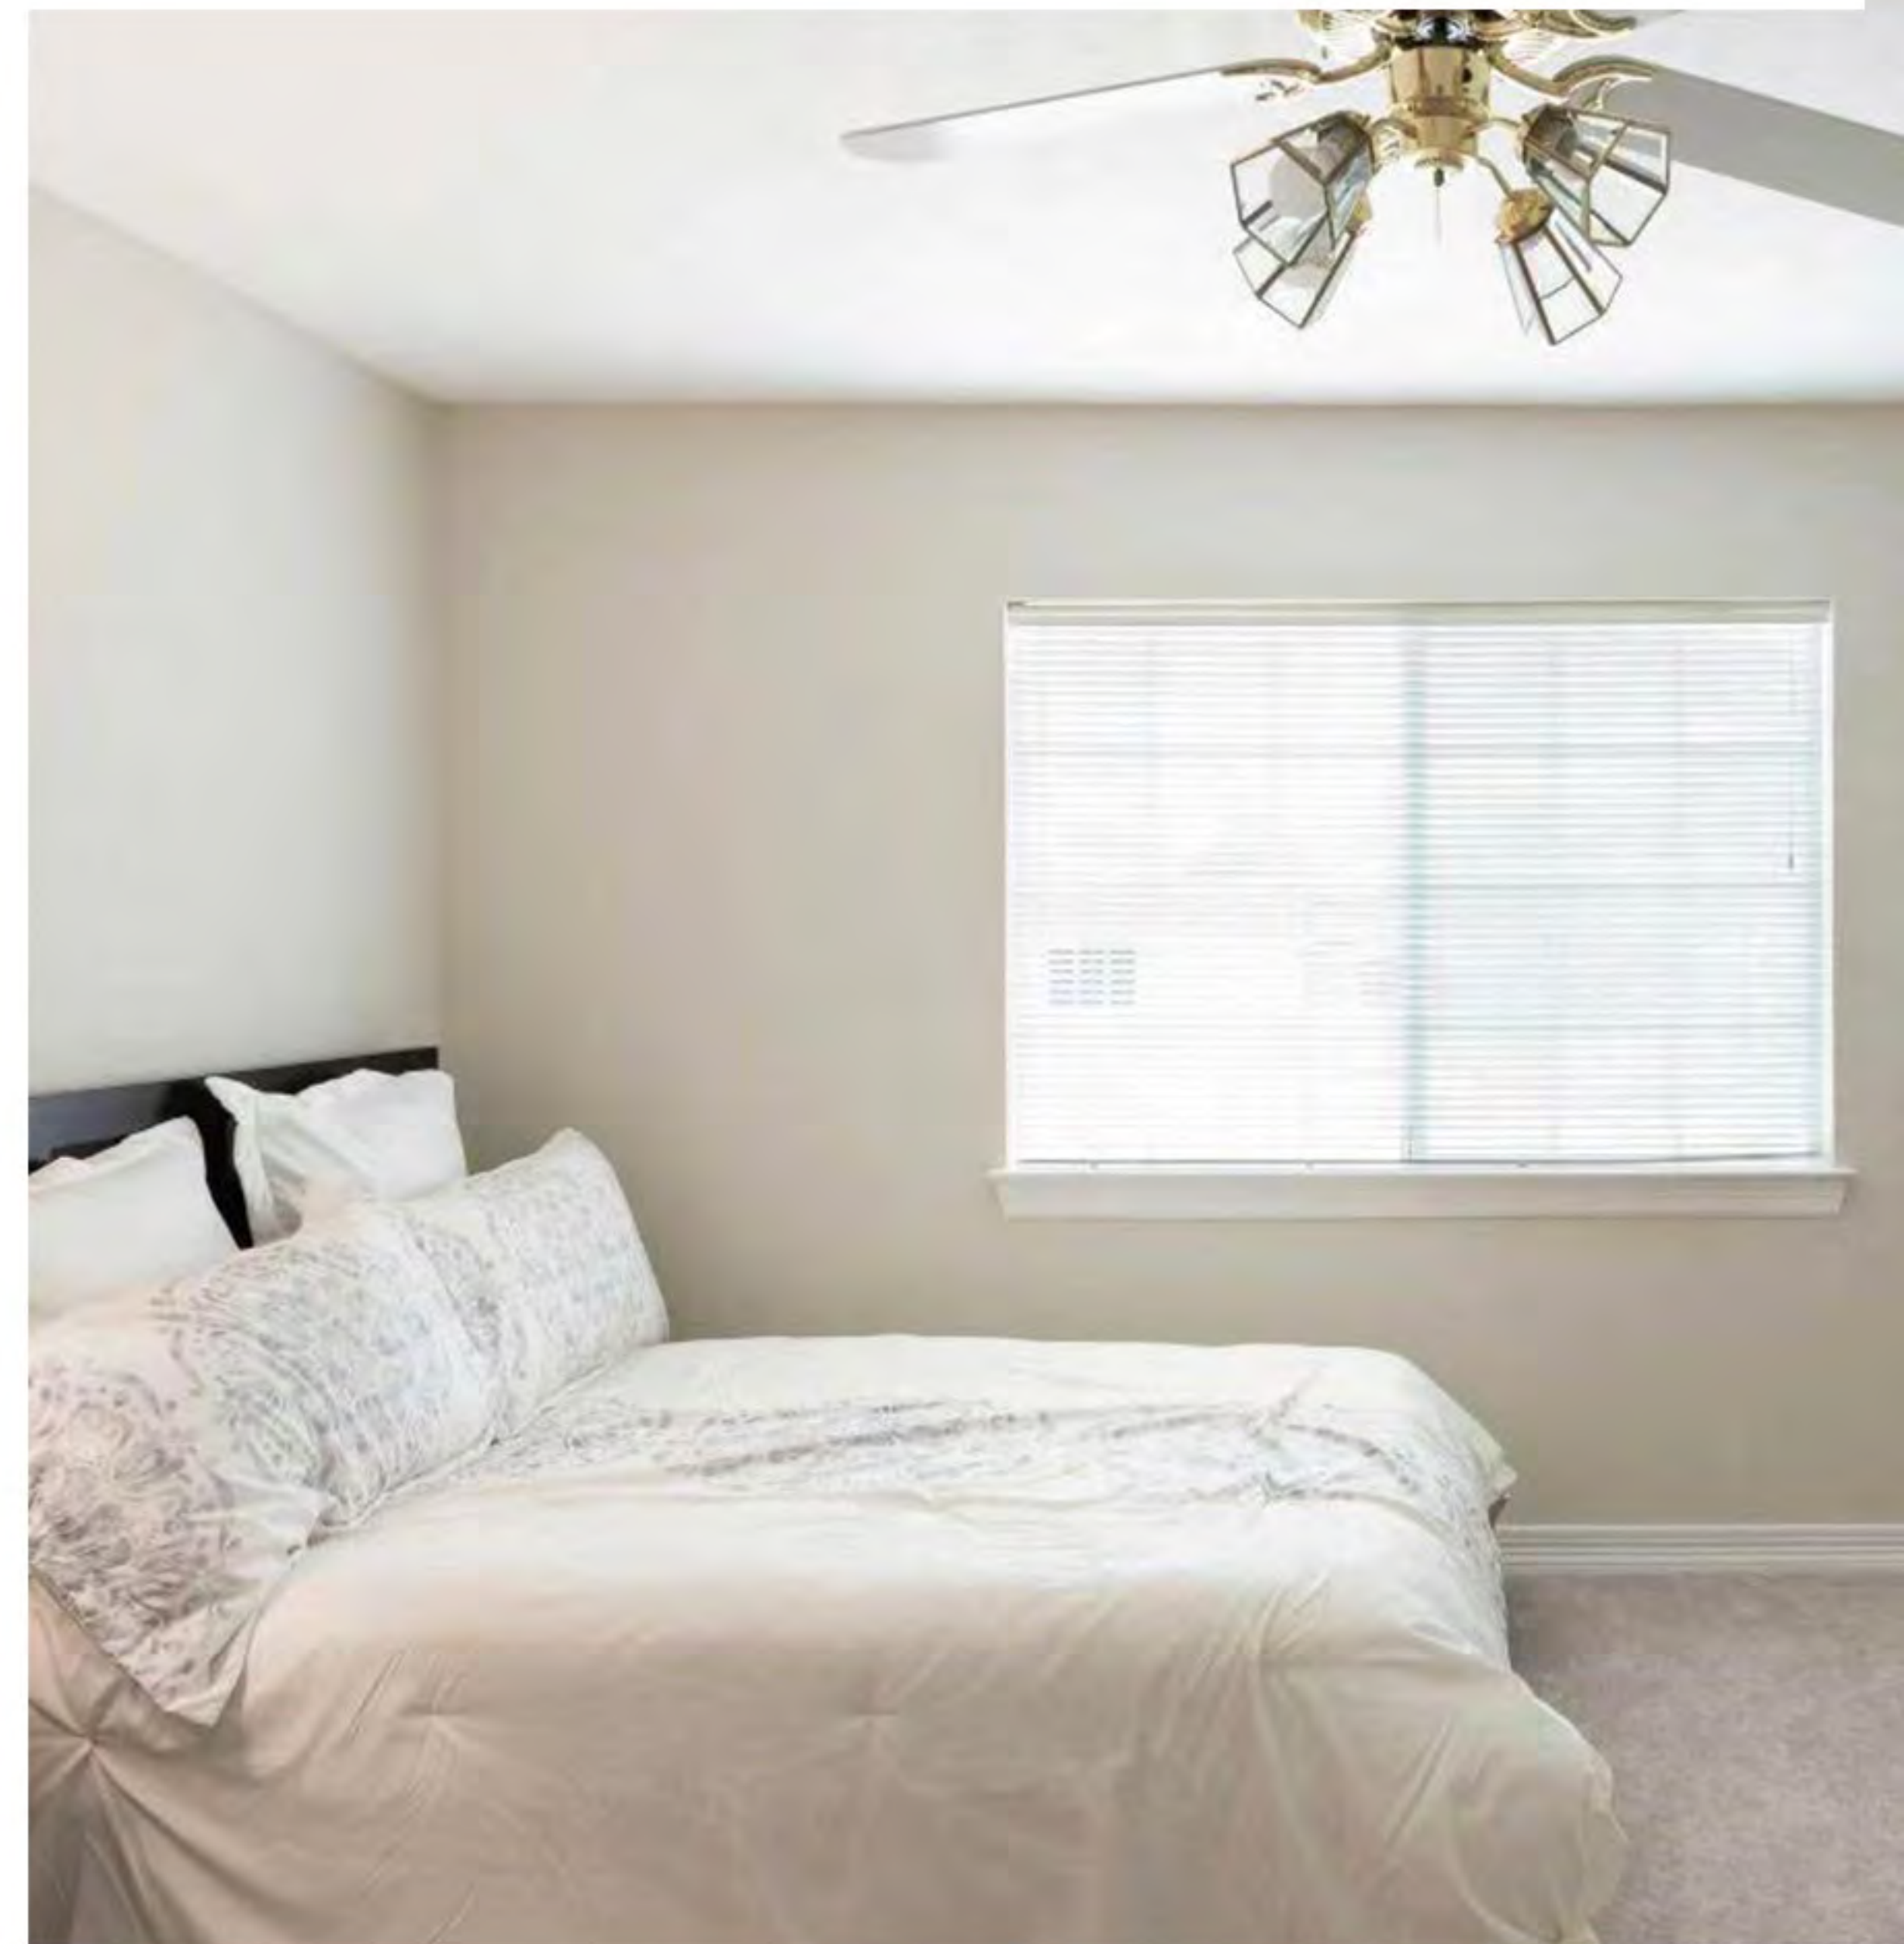

urban area that  
the amenities  
our students,  
the grounds  
the safety and

Being in a suburban area, our students have easy access to local shopping and restaurants as well as a busy cultural center. For parents coming in, the airport and hotels are just a short drive, allowing for convenient visits during the student's time with us.

Convenience

Each dorm consists of a large, clean room furnished with a bed, desk, chair and nightstand. Students are able and encouraged to bring in amenities to make it feel more like home. You can never bring home on the road with you, but we do our best to make the students feel as though they never left!

**Comfortable**

A photograph of a woman and two children in a car seat. The woman is in the foreground, looking down. Two children are behind her, one in a green jacket and one in a yellow jacket. A large green semi-transparent overlay covers the middle of the image, containing white text. Another smaller green oval overlay is at the bottom, containing the word 'Transportation' in white.

All of our transportation is provided by our in-house team. We guarantee transportation to and from school as well as afterschool activities. We also provide transportation for students during free time and for extra classes. All of our drivers are fully licensed and insured, allowing us to provide first-class transportation.
