

## Cabinet Scheduling & Installation Process

### Standard Timeline & Process

1

Customer notified of approximate material lead time

2

We come and inspect your site to ensure it's ready\* (if needed)

3

Schedule installation of cabinets

Cabinets are delivered at least 1–2 days prior to installation

4

Installation, initial walkthrough, and create punch list (if needed)

5

Warranty/punch trip (if needed) and final walkthrough

### During the Scheduling and Installation Process

- For design related questions, please contact your designer
- For installation and scheduling related questions, please contact Operations

**Note:** If your site is not ready this may delay your installation.
