

Natas' Final ~~Fifteen~~ Nine

Natas' 9/15 Events

March 20th, 2026 (Gregorian), in the Terms section of *Steve's Top-Secret Notebook*, I published a list of 15 Events scheduled to occur over 15 consecutive days, from Mar 21st to April 4th, 2026, Gregorian (or from March 8th to March 22nd, 2026, Julian). However, those Terms were invalid due to (1) a glaring conflict in the text of the Terms (the conflict is explained in the current *Terms*, in the page 428 footnote), and (2) a glaring conflict in the Event dates; which were presented on the Julian and the Gregorian calendars, with the date expressed 14 days apart –but the Julian and Gregorian calendars are only 13 days apart. Worse, I didn't discover this problem for 5 or 6 days.

So, I've corrected the conflicts and rescheduled the 15 Events, to occur over **9** days, from March 27th to April 4th, 2026, Gregorian (or March 14th to 22nd, 2026, Julian).

To learn more about the Events see items # 61 through 75, in the "Terms" section of *Steve's Top-Secret Notebook* (chapter 17).
