

NOTE:

June 14th, 2026, Julian (June 27th, 2026, Gregorian), I published

The Two Hour War: Date & Time.

This PDF/mini-book presents and explains the Two Hour War dates, times, history, and much more.

Currently, this mini-book is the only source on this site (or anywhere else) that has this information.

Over the next one or two weeks, I expect to update many/most of the other major books and mini-books on this site to include this information; but presently, although the other books and mini-books have very useful information, the date of the Two Our War (previously mistakenly called the One Hour War) referred to in the other PDFs on this site is currently not correct.
