In *My Stepdad Was One of the Zodiac's Santa Rosa Hitchhiker Murderers*, I explained that when I was as young as 6 or 7 years old, circa 1970 or 1971, I noticed Rocky was freakishly handsome; around 6-feet 4-inches tall, statuesque, very muscular body, and movie star good looks. This held true to the last time I saw him, the summer of 1975 or 1976, at one of Carl's summer birthday parties, Ava Cooper may have been the woman with him. Unlike the other men involved in the Santa Rosa hitchhiker murders (part of a much larger national non-conformist, and Black intellectual *cleansing* program), Rocky did not dress or behave inconspicuously. He dressed like a motor-cycle gang bad-ass. Carl or Joe Shapiro once told me Rocky came into the Shapiro *family* as a teenage foster child. Around 1975, Rocky likely drew police attention because he was *so* visible, riding a nice motorcycle, doing whatever he wanted, but without a job. The police wanted to know how this guy was making his money. So Ava was called in.

If you enlarge and analyze God's first story image of Ava (re-outlined and enlarged, below), her eyes seem to take the shape of a heart. God is indicating she fell in love with Rocky. Thus, she would have been acting emotionally, not rationally.

In respect to the larger story, Ava and Rocky's story shows that, although God gave Satan one year foreknowledge of all events (or at least those events that Satan *sought knowledge of*), God did not and does not give Satan access to all human minds at once (probably substantially less than half). Otherwise, Ava could never have come so close to imperiling one of Gardner's primary operations. Remember, in 1976, Carl Shapiro was not just Gardner's regional murder director, he was Gardner's primary writer and coordinator for all skits related to me. But Satan missed Ava's activities, with Rocky and at the police department planning stages. [4]

Like all of the murders in this Notebook, and all murders connected to John Gardner and John C Malone, Rocky and Ava's disappearance and murders went unreported; suppressed by the US private and unregulated fake media machine. Thus, Western elite criminals can argue the murder victims in this story never existed. But I knew Rocky Freed, as did a lot of Marin County old-timers.

[4] Shortly after writing this page, I found in the Elder Badge where God discloses exactly how many minds He allows Satan to access at once. This surprising percentage is revealed in chapter 14.

Natas

13.681

(Part 3)

The War on Earth

In Part 1 of this Natas section, after reflecting on all of the murderous LGBTQ members in this Notebook –most of which seem to have White supremacist tendencies– I posed the question:

Is there some correlation between criminality and homosexuality / LGBTQ life?

That's a loaded and maybe unfair question. But if we neutered the question, and applied logic, we might get somewhere.

In the Unforgivable Crimes Timeline name renderings, we saw that about 90% of the people who were having a great deal of homosexual butt-sex falsely claimed to be heterosexual.

So, if we instead imagine a large minority group that lives in secrecy, and forever conceals the truth about the most essential thing about themselves, for fear of being rejected or ridiculed, is it (1) possible or probable that group might develop an unusual capacity to keep secrets and tell lies? And (2), is it possible or probable *that* group might begin to resent the majority for "oppressing" them (although, unlike other minority groups, who admit who they are, this theoretical minority group does not speak up, so they are easily overlooked)? And (3), if that group develops resentment against the dominant group and others for *oppressing* them, is it possible they might seek or accept opportunities to strike back, including with criminal conduct?

I think the answers are *yes*.

You may remember the image to the right from earlier in this notebook. And, at the bottom, you may have noticed the image of a very angry homosexual. –>

With that image, God may be revealing how living in secrecy causes Western homosexuals to quietly hate everyone but other Western homosexuals. Crime is certainly possible, if your heart looks like that guy.

Natas is the third most powerful entity in the universe –and the most powerful *Goddess*. But, due to the *hands-off* requirements of overseeing Her natural system, She will not kill any naturally occurring living creature –at least not conventionally.[1] Satan, who is not a naturally occurring Earth native, was likely spared by the terms of his Wagers with God.

To attack Natas, Satan persuaded Western elites to progressively increase homosexual rights and privileges, until their right surpassed those of heterosexuals. Thus, in the 19th century, Western homosexuals were given YMCAs to have butt-sex in, throughout the US and England. Also in the 19th century, homosexuals gained their first bathhouse, in New York City. But in the late 20th century, gays were permitted to open and patronize bathhouses, throughout California, where they were expressly permitted, by law, to have unrestricted sex, including orgies –a right not afforded to heterosexuals in any public commercial space.

Against each assault, Natas informed God and Jesus.

Jesus imposed four fearsome Curses.

In chapter 13, we saw Gardener committed 44 Mark Crimes against me, for exactly **34 years**. 34 to Satan, who loves palindrome numbers (the same forward and back), represented Genesis 43:**34**, which Satan viewed as a celebration of greed:

> Then he took servings to them from before him, but Benjamin's serving was five times as much as any of theirs. So they drank and were merry with him.

In chapter 12, God revealed Gardner's Crime count total to help us understand why Jesus hit the West with such punishing Curses, and why God added to them. Their reasons for Their Curses are also found in the number 34, or 3 and 4.

For Jesus, 34 represents Genesis, Chapter 34, the story of the Defilement of Dinah, where after Jacob's daughter, Dinah, is defiled by Shechem, Jacob and Hamor take extreme measures to preserve the peace in their city; but, eventually, Dinah's brothers are not satisfied, and kill all the men in the city and plunder everything. Jacob is beside himself, believing any survivors will gather themselves and come and kill him. To their father's protests, the sons simply counter, "Should he [Shechem] treat our sister like a harlot?"

God's Curse, which rippled across the Bible and altered His own prophecy, was also taken in defense of His Daughter. For God, I believe 34 represents the 3rd and 4th generation, from such verses as Exodus 20:5, where God explains, He is known for "visiting the iniquities of the fathers upon the children to the **3**rd and **4**th

[1] You can learn how Natas deals with malignant life forms in chapter XVII, *The Terms*.

generation…" God's punishment, changing the Beast, increased Western LGBTQ rates, lowered Western IQs, increased pedophilia murder of Westerner by Westerners, and will condemn many more *Western Heirs* to Gehenna.

In God's punishment, He acted to defend Natas, but also acted to instruct mankind to think, first, of the welfare and interests of their children.

- 3 and 4 may also refer to the prophet Amos, who warned of God's coming *Prophecies Against* punishments, and who, for the first two chapters of *Amos*, repeated the refrain "For **three** transgressions of… and for **four**…" ("For three transgressions of Damascus and for four…"; Amos 1:3)

Natas gave life to a system where the strong tend to survive, and the most resourceful people tend to thrive and mate and repopulate the world. But the West stole a brilliant screenplay from a non-White writer, and made thousands of derivatives. They also stole the same writer's concept of collecting data to predict events. From these activities, Western leaders made and redirected trillions of dollars. Next, they took all of the works stolen from this non-White writer and uploaded them into various *artificial intelligence* based computer systems, and used thousands of that writer's ideas to create new films and TV shows. Western leaders then invited the public to use their new *online screenwriting app*, where users just ask the app to write them a screenplay, and the app renders the user a screenplay composed of the non-White writer's ideas.

That was just the beginning. Satan used his US arsenal of internet "scraping" services to automatically scrape and file all internet images (artwork, photos, cartoons…). He then entered that information into his various network affiliated artificial intelligence services. And, based on that stolen "scraped" data, the AI services created internet apps that produce professional quality AI images, stylized to the users specifications, for free (for the time being). These services were created (1) to eliminate the need to use or pay human artists (and thereby eliminate artists), and (2) to place these vast stolen artistic powers in the hands of Satan's untalented, demon-worshipping tech and media executives.

Under Satan's new system, many -perhaps *most*- Western citizens were unwittingly engaged in and dependent on a sprawling criminal conspiracy, in which they took credit for ideas and arrangements they did not conceive (a very serious Unforgivable Crime); or, at a much lower level, they were utilizing AI produced art –created to choke off the world's true artists. Satan had created a self-sustaining machine, at odds with God and Natas, which damned humans by the thousand. Satan's War Against God was in high gear.

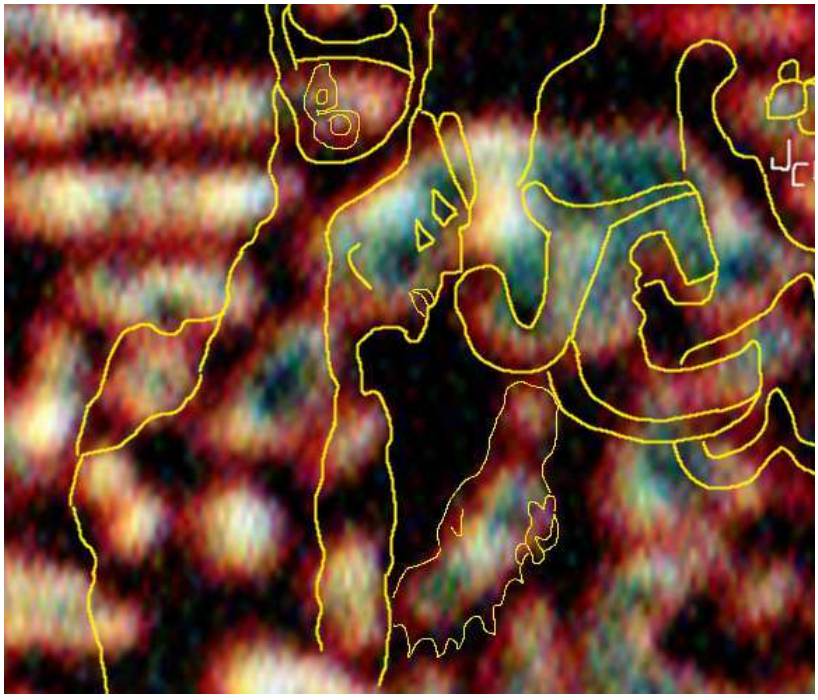

Between the Lines
xvii
Satan's Psychosis:
Crazy by Birth, Bad Breaks or Bad decisions

Around July 2025, as I worked through the first 4 or 5 chapters of this Notebook, there were some things about Satan that confounded me… The fact that he was so ardent in his War Against God that he routinely tried to turn his own allies into homosexuals was terrible, but it was also insanely funny. Satan also paid so much attention to me that he seemed like a fool –any enemy of God who spends his nights outside of a 4-year-old's bedroom is his own worst enemy. In fact, this obsessive interest seemed very un-masculine, and caused me to wonder (1) was Satan was a *worthy* adversary for God?, and (2) was Satan was too obsessive to see how funny it was that he was trying to turn his own allies into homosexuals?

Naturally, I had to bring this question to God. I spoke to God in standard English for probably an hour. He replied in curtain gibberish –but He still seemed commanding, wise and loving, so my time wasn't wasted.

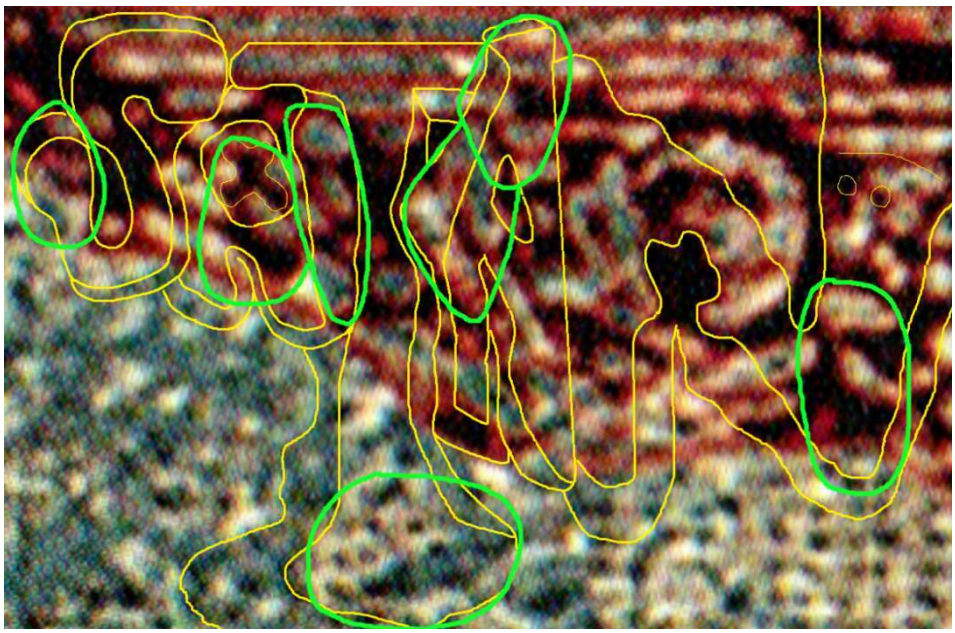

God's true answers to my questions came in three images I found in the base of the Elder Badge over the next week or two. The first image is below.

In the image, Satan looks manly and confident; so initially, I thought God was saying Satan was a worthy opponent. But that's absurd. God is infinitely more intelligent and powerful than any human or demon. Before long, I realized Satan looked like a thug, or a criminal, or a prison tough guy. God was saying Satan was a criminal. Obviously unworthy.

The final two images that helped answered my question, were God's renderings of Satan's names, below.

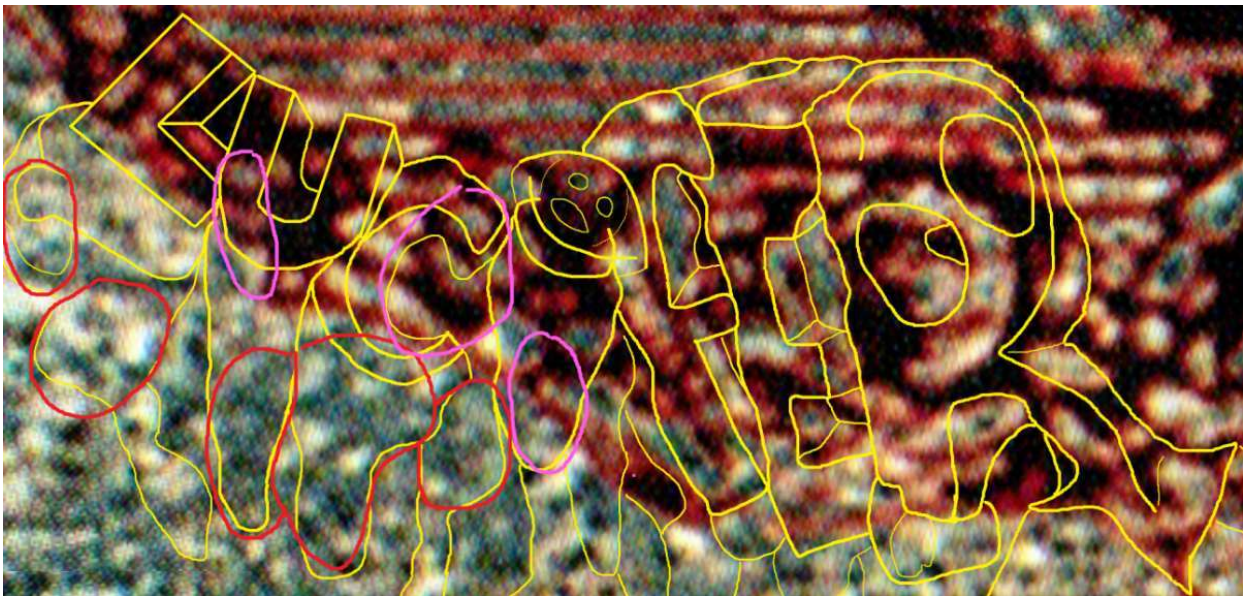

The image to the right, Satan's name rendering from chapter 4, with seven crazed and evil faces (circled in green), indicates Satan saw humor in his deeds –but God does not.

And below, God's rendering of Lucifer's name (also from chapter 3), with at least 8 faces of people Satan damned, suggests Satan's obsessive nature keeps the number of damned ever-growing.

But more than anything, the images of crazed and damned faces reveals that Satan is very mentally unhealthy.

Mental health has everything to do with Satan, and everything to do with God, Jesus and Natas' efforts to keep you from damning yourself.

In chapter 8, you saw the image to the right, Satan at my crib-side, back in 1964. You certainly noticed that God made Satan shaped like a circle –like the letter *O*. God also made Satan's eyes and his nose shaped like O's. This was God confirming that Satan is extremely obsessive. But Satan made *himself* obsessive, as many people do.

Lucifer once lived a good human-like *first life*, somewhere in God's universe, and when he died, God and Jesus allowed him into Heaven. According to the Bible (Isaiah, chapter 14; Ezekiel chapters 27 and 28…), in Heaven, Lucifer was a stellar angel, who rose to the highest rank, Cherub. But once he achieved the highest rank, he over-focused and obsessed about God's tremendous power. His jealous obsession grew so out of control that he engineered a mutiny against God. Thus, Satan was cast down to Earth, where his War continues. Here, although Satan does great harm, he also unwittingly serves many useful functions for God, such as testing us; or, in this case, God used Satan to warn us of the risks of obsession.

Some people are born with genetic conditions, etc, that cause them to have serious mental illness. God and Jesus evaluate those people on an adjusted scale.

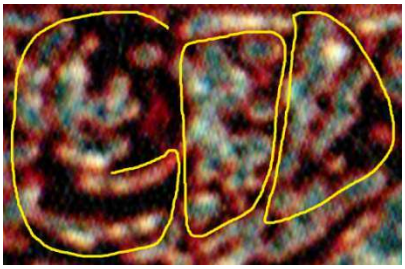

Some people go through horrific events, terrible childhood trauma or horrific wartime experiences or living in extremely impoverished and violent circumstances, etc, which cause them to develop serious mental health problems. God and Jesus surely have adjusted scales for these people also.

But some people make a choice to remain focused on certain things. This is a choice. God, Jesus and Natas cannot tell us what to focus on. We have free will. If we choose to get locked into a mental pattern of focusing on one thing, at the expense of all the rest, and we develop an unhealthy mental pattern, we have ourselves to blame. And if, subsequently, our unhealthy mentality causes us to harm people, we will be duly punished.

Obsessions are forms of *One-Eyed Willies*, from the *Worship* and *Image* branch of the Unforgivable Crimes, including online gambling addiction, social media addiction, and porn addiction (which can lead to worshipping someone else's body type, or having one's sexuality altered and becoming LGBTQ). All of these obsessions were deliberately caused or promoted by Satan and the Beast (John W Gardner).

Parents should pay close attention to their children. If you see obsessive tendencies developing, intervene and intervene. Don't give up.

14 Connect the Dots

Many of God's unexpected actions, which I reported and described in *Killing Guadalupe* and other publications over the past year, were coded messages to nations, heads of states, parents, citizens, etc. In this section, those messages are decoded.

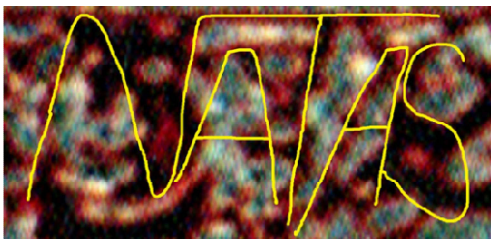

Background

In the first *arrowhead* portion of the *Post* section of Killing Guadalupe, I described many disruptive behaviors that God, in my curtain, began exhibiting around September 24th, 2024, immediately after what we can all the *false strike* date or the *decoy destruction date* passed without incident. It took me about 7 months to learn why God exhibited the disruptive behaviors, and what He was communicating with each behavior. These behaviors included:

1. Frequently banging His curtain form against the wall to make a loud, annoying slapping sound;
2. Slamming my heavy metal front door.
3. Immediately after the "decoy d-day," God began to lie to me, by making very misleading gestures (see Killing Guadalupe, pages 141-144) and answering my reasonable *yes* or *no* questions falsely. Somewhere around 2/3rds of God's curtain communication with me became false or misleading. [1]
4. Disrupting my work and distracting me from my Revelation work by making various large flailing directional motions and confrontational motions;
5. Disrupting my sleep by making rapid high flailing motions, which rapidly increased and decreased the room lighting;
6. Using thunder and lightning (and angry curtain gestures) to intimidate me (described in MSWOofZSRHM).
7. Generally being mean (as described in MSWOofZSRHM).

[1] Since I trust God, it took 3 or 4 months to realize He was sometimes lying, and another 3 or 4 month to realize he was *usually* lying. During the day, he might lie about 80% or 90% of the time. But after dark, He seemed to usually tell the truth or provide no response. Although I never ask Revelation-related questions, if my question is remotely related to Revelation He won't respond.

As I wrote this Notebook, God continued most of His previous disruptive behaviors, but **God also added several new behaviors.** The new behaviors include the following:

I. I strongly dislike bugs, so, with work, and God's help, my apartment is just about bug-free, minus the occasional fly or gnat that slips in the front door. I sometimes argue with God about His disruptive behaviors. Around May 2025, after some of these arguments, God started making big bugs appear in my apartment (one at a time). I believe Jesus made a couple of bugs appear too. God did this maybe once a week, or so, for a few months, to punish me and make me mad for making him mad. I know the bugs are His doing from the context, and because they usually either (1) don't run away –so I can kill them easily, or (2) they disappear/vanish, by running or flying behind an object.

II. Tying my mouse cord in knots –which are not difficult to remove. God started this after I became increasingly angry about His use of bugs.

III. I eventually learned God's *behaviors* were connected to a Wager with Satan. But, after the Wager ended, circa December 2025, He continued the *behaviors*.

IV. A. Erasing my work from my computer (usually only about 1 page at a time).

B. Briefly taking control of my computer mouse. He often did this when I was doing the slow work of outlining Timeline images. He is never helpful when He does this (meaning: not once did He make a useful line). He often does this after I yell at Him for deliberately trying to annoy or distract me.

C. Moving my computer screen. He often does (did) this when I am/was outlining UC Timeline images. Oddly, because there are so many images and ways to see the image(s) in one position, half the time He did this it was not helpful, but half the time I saw the image better (God did this to impede me, not help me, but since I'm visually creative, sometimes it helped.)

D. Closing my writing program and photo programs.

- This group (IV) of computer related behaviors were the last behaviors introduced (circa July 2025 through October 2025).

All of God's previous behaviors and His new behaviors were messages, which connect to larger world issues and also to me and my story. Some of the prior story points also connect to larger points. Now I'll try to connect these points.[2]

[2] As I wrote chapters 13, 13.357 and 13.681, several times God expressed *curtain disappointment* with my solutions. I made adjustments and He seemed satisfied. My point: I believe my solutions are very good, but they are imperfect.

Connect the Dots

8:8

In relation to this Notebook, Revelation 8:7 to 9 may be the most far reaching verses, particularly 8:8. In 8:7-9, God reveals He used evolution to create mankind.

8:7, 8 and 9 are a three verse series to honor Natas' primary number: 3.

Verse **8:8** describes the action God took that specifically led to mankind.

8:8 is the 132nd verse of Revelation. 132 divided by 44 is 3.

8:8 is relevant to John W Gardner and White supremacists, as it is a simple alpha numeric code for **HH**: Heil Hitler.

God permitted Satan to have a beast for **88 years**.

The final Revelation Wager -the Beast Wager- started in 18**88.**

8:8 is relevant to the Unforgivable Crimes and Gehenna, because the West's efforts to damn the non-White world (as well as the White world) caused God to shift the distribution of the Condemned along racial, regional and ideological lines; which created two systems of **8** standard levels of damnation. Most of the world's damned will be sentenced to levels 1 to 8, but most Western Whites (and likely people who've adopted their corrupt and hateful views) will be condemned to levels 3 to 10. And <u>all people who actively hate others (hurt others, or refuse to rent, house or sell to them because they are different) go to Gehenna level 9 and 10</u>.

- Revelation 8:7, 8 and 9 act to model good leadership –like much of Genesis, and the Bible generally. Genesis tactfully indicates there may be things God is not entirely pleased with concerning the extremely independent system of evolution Natas designed –which allows for imperfections and occasional deformity. However, at every juncture, because God conceived life and determined to create it, abundantly, God takes ownership and blame for everything –as good leaders should.

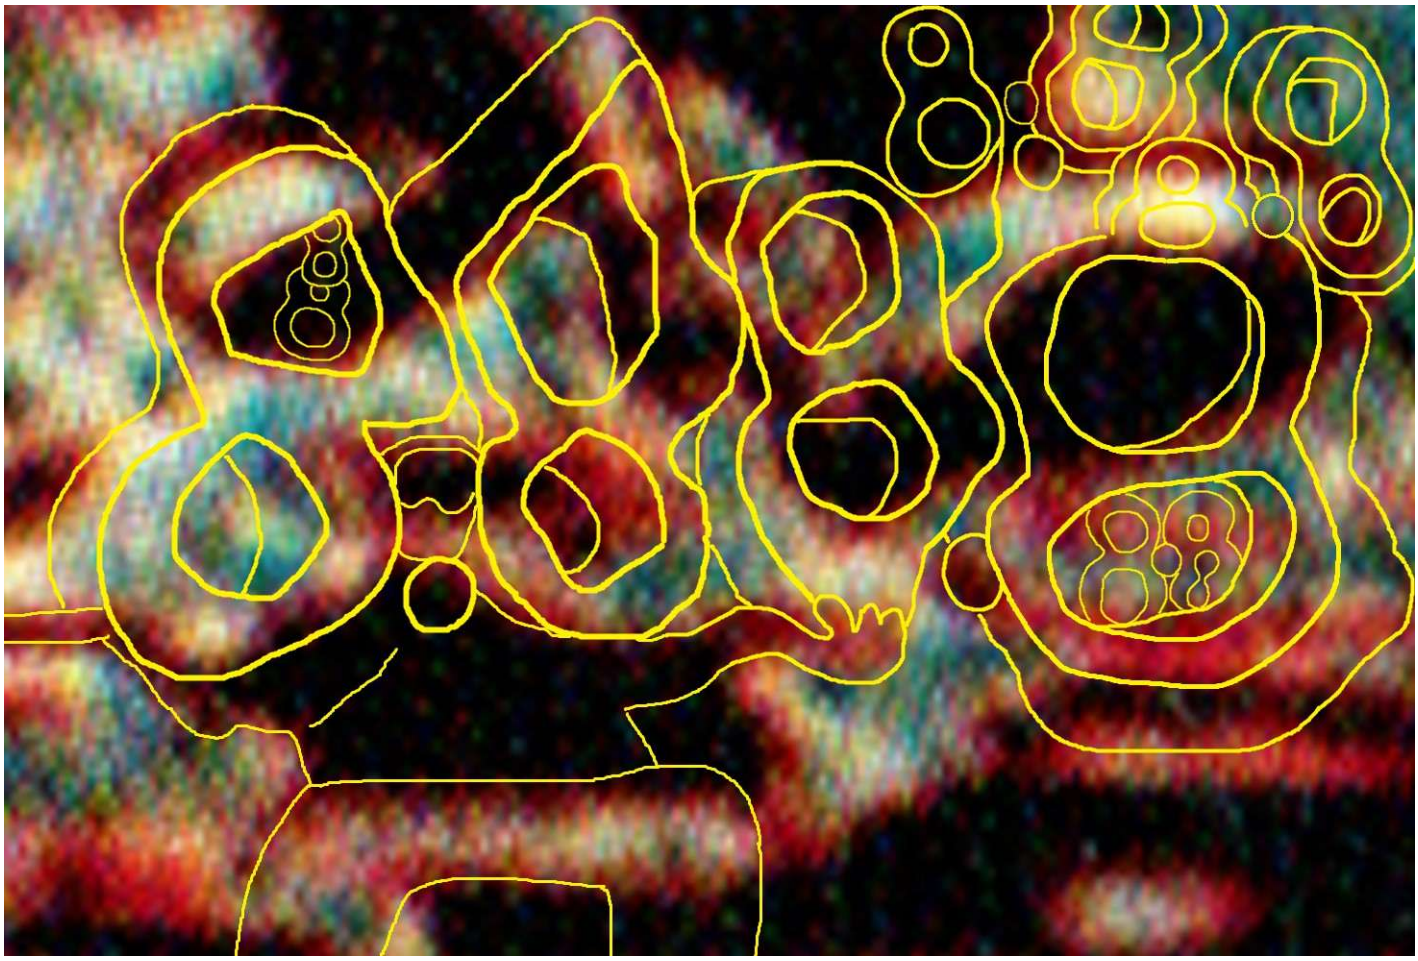

8:8 - Drexler and the Accelerator

In Revelation 8:8, God tells us the Gakkel Ridge super-eruption (which pressured primates to evolve) caused such bloodshed that "a third of the sea became blood." In causing Gakkel Ridge eruption, which can be construed by some as *doing a very evil deed for a very good reason*, God was much like Butterfly Driver's villain, Drexler. And, as the eruption greatly accelerated primate evolution, God was much like the *Accelerator* (GenLab) –Drexler's machine of ultimate evil.[3]

But the most surprising meaning of 8.8 (8:8) is revealed on the following page.

[3] God saw the *Drexler connection* an eternity before I conceived of my Drexler character. Nonetheless, I suspect the fact that I conceived Earth's Drexler did not hurt my prospects as a servant/volunteer/solver.

God Allows Satan to Access and Tempt 8.8% of Human Minds

Above: In Satan's primary central image, he displays the percentage of human minds he can access.

God allows Satan to access (look into the thoughts) and to tempt up to 8.8% of human minds, at any given time. It's kind of God to cap Satan at 8.8%, but 8.8% is still A LOT of minds. Currently, there are around 8-billion people on the planet. 8.8% means Satan can access about 700-million (700,000,000) human minds at once.

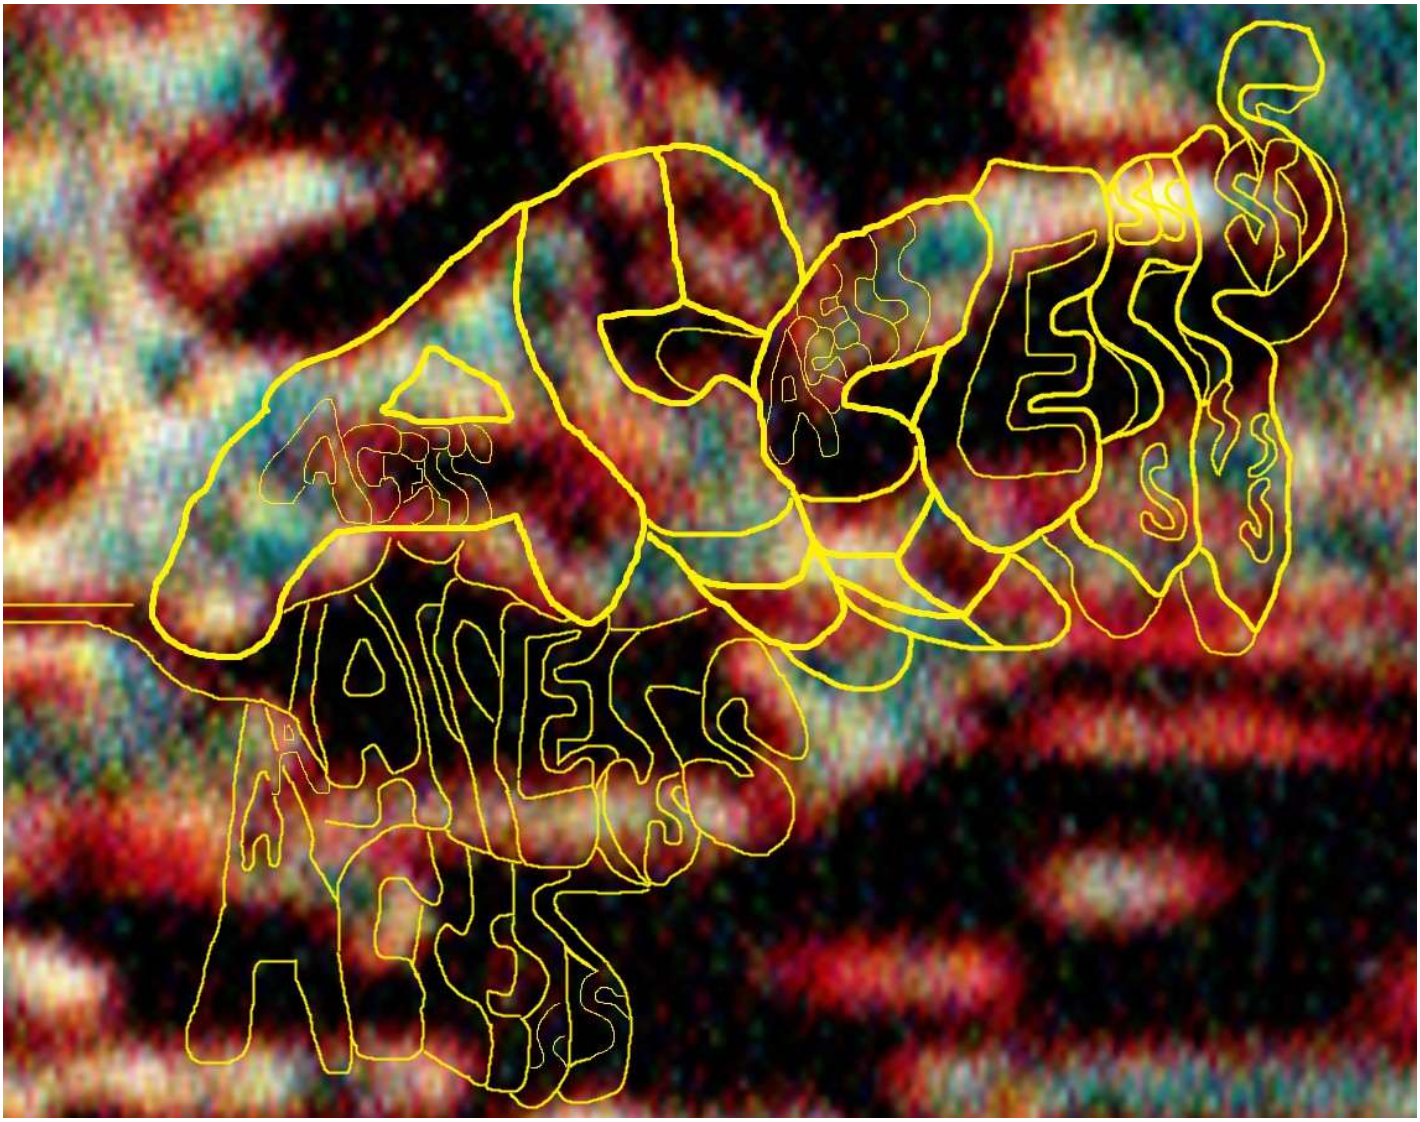

Satan can access and tempt almost anyone's mind, but he can't access us all at once. If Satan wants to tempt a new person, he probably only needs to think of that person; or, if he's in one person and sees a new prospect, he probably only has to *will* himself into that new person's mind. This does not mean Satan "possesses" the people he enters. It only means he can see, hear and access the subject's thoughts, and tempt them accordingly. Satan probably tempts them by suggesting an evil deed; and to the subject, it feels as if the subject generated the tempting thought. If the subject is easy to tempt, Satan is obviously going to want to stick around longer.

So here's how I learned this access information….

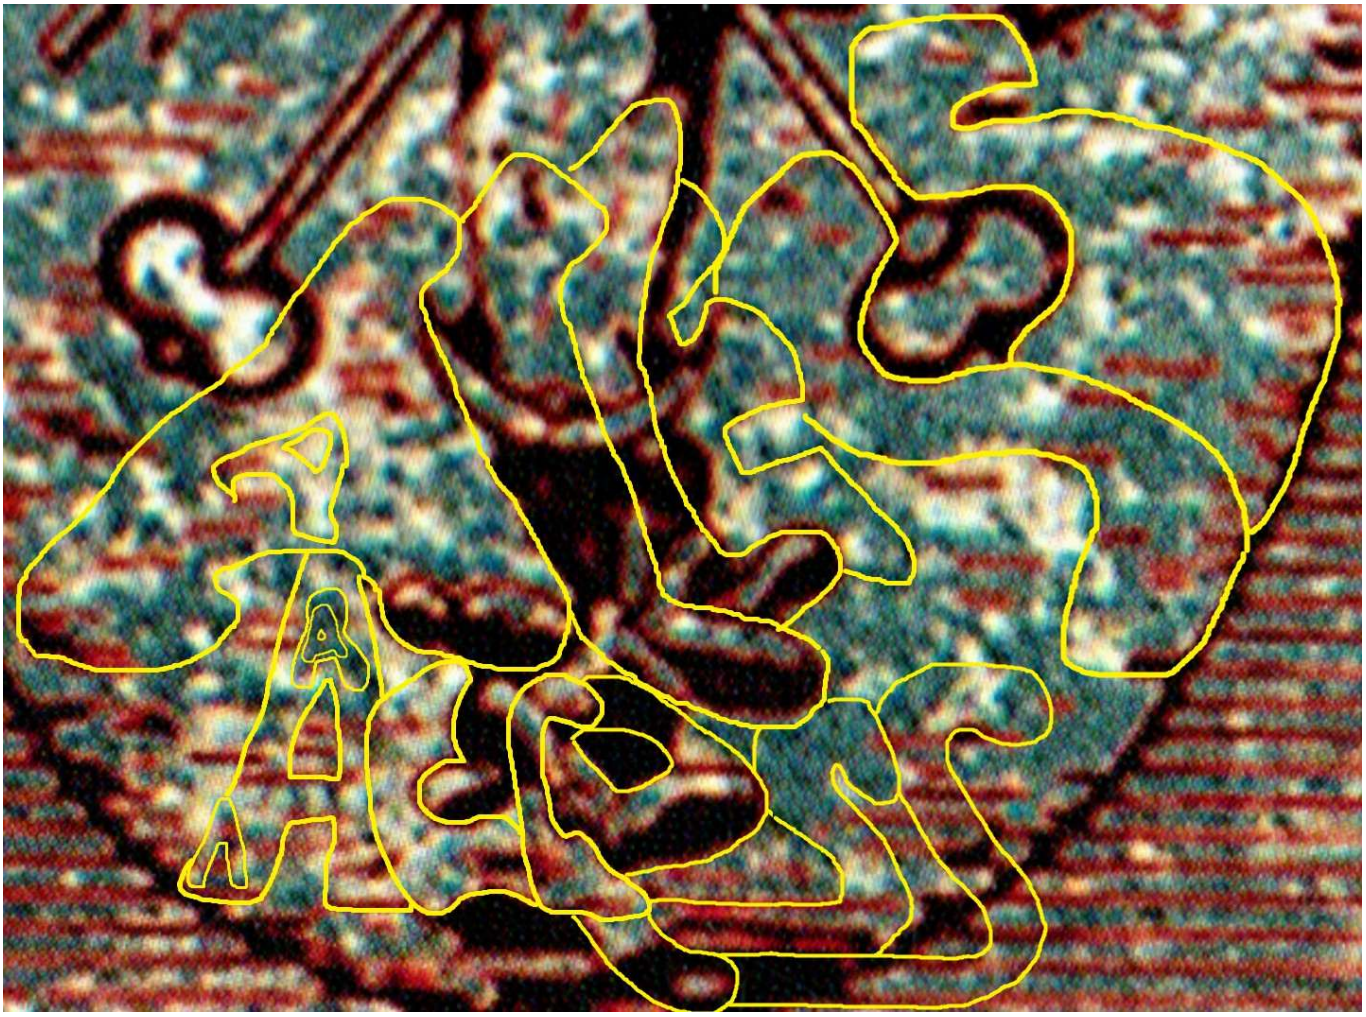

While writing the story about Rocky Freed's death, it became clear Satan did not have access to all human minds. So, I grew very curious about what percentage of minds Satan was given access to. So, in mid November, 2025, I asked God (still in my curtain) about this, and probably said I was going check the Elder Badge for the answer. When I checked, I found the solution almost immediately –but it still took about 2 hour to outline the image (*8.8%,* on the previous page).

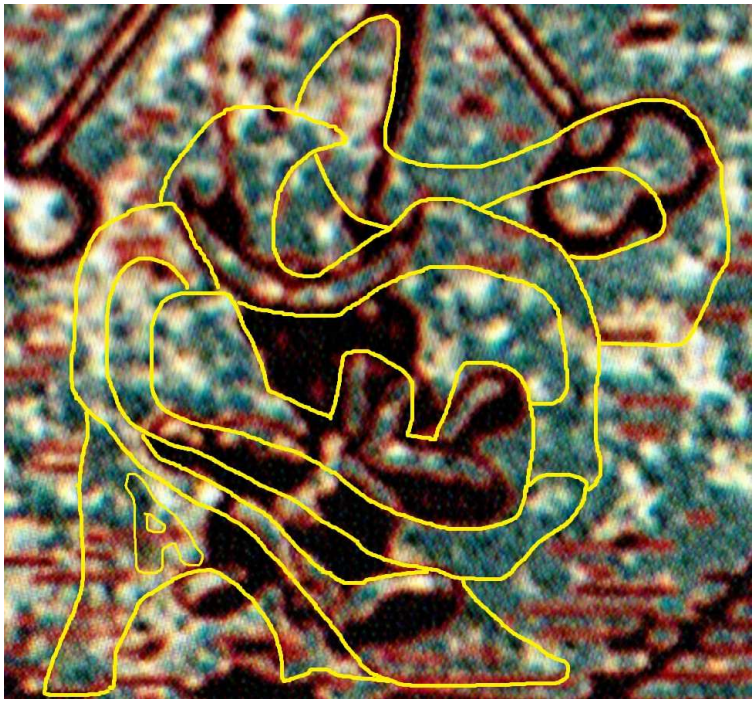

But I wasn't sure if Satan could tempt 8.8% of minds, or if he could actually *ACCESS* them, and look into them. I expressed my confusion about this to God. He may have made a big flailing curtain gesture, like *Go look in the Elder badge*. So I did.

Around Satan's central image, as if radiating from Satan's mind, I found the giant word: *ACCESS* –with many confirmation expressions of *ACCESS* (**see below**).

But there are even more expressions of ACCESS around Satan…

As you see, above and to the right, the expressions of *ACCESS*, above and around Satan, seem to go as high as the sky.

God also Reveals How Many Bodies He Gave Satan

As you just read, God allows Satan to access hundreds of millions of minds at once. This caused me to wonder: **How many physical bodies did God give Satan?**

As you may have guessed, I found the answer to this question in the Elder base. I went to the two places where there are images of Satan with a physical body, and in both images, God hid many expressions of the number 7.

God allows Satan to have seven (7) bodies. This may represent one body for each continent –but since no one lives in Antarctica, Satan probably takes his extra body anywhere he wants –like to some 4-year-old kid's bedroom window.

We should understand that Satan's bodies cannot be seen by human eyes, and they are probably extremely light and specialized, so he can move without making noise, and pass through walls. Satan can also probably travel extremely fast, and possibly fly.

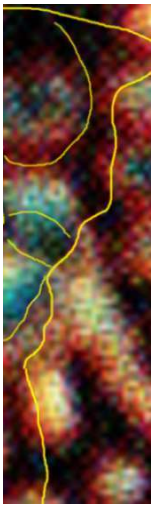

To convey that He gave Satan seven physical bodies, in Satan's primary base and Timeline image, to the left, God placed many iterations of the number 7, in Satan's body and around it.

To the right, to confirm that He gave Satan seven physical bodies, in the only other known Elder base representation of Satan <u>with a body</u>, God also placed many iterations of the number 7 in and around Satan's body.

Accelerator Agent Satan

In Revelation, Chapter 12, Satan was cast down to Earth, and his angels with him. From this we can guess some angels were dissatisfied with some of the rules in Heaven. Biblical evidence suggests it may have been hard to advance into the angels' upper ranks. Satan likely manipulated this, to get the angels to turn to him, rather than bringing their concerns to God and Jesus. When Satan's scheme imploded, he declared war on God.

God recognized Satan could be useful for testing mankind; thus, He asked Satan to do so. But, Satan refused –unless God gave him certain advanced abilities (like the ability to see into millions of minds at once). God agreed, but likely asked Satan to earn the gifts. Satan likely counter-proposed that they *wager* for the gifts. This was all part of God's plan.

The Wagers demonstrates Satan foolishly believed he was more intelligent than God. Under this delusion, around 2222 BC, Satan and God entered a 4000+ year series of wagers. Eventually, in the final wager, the *Revelation Wager* (roughly December 1888 to December 2025), Satan hoped to prove himself smarter than God, by stopping God's most fearsome prophecy: the *Destruction of Babylon*.

But, unbeknownst to Satan, God sent Satan to Earth as a *super accelerator agent* (like the Gakkel Ridge eruption) –a colossal demonic event, to put new pressures on mankind, leading to their social, moral and spiritual betterment.

God used Satan as an accelerator agent in three or four major ways.

First, God and Jesus resolved to **use Satan to solve the problem he tried to exploit in Heaven.** Thus, the people on Earth who are most tested and challenged by Satan and his allies, if they pass those tests, will be allowed to enter Heaven at much higher levels than souls were previously allowed to enter Heaven.

Second, God used Satan **to help spread ideas and technologies, to accelerate human evolution.** For this, God gave Satan access to many, many human minds, and knowledge of most human events. God also gave Satan power to see all major human events, typically up to 137 years into the future. With this power, Satan could find the nations and tribes with the most advanced technologies, and bring those technologies to the nations he planned to use to oppress the world –thereby transferring the new technologies throughout the world. [4]

Third, Satan would unwittingly **reduce periods of great human suffering.**

Fourth, although Satan damned huge numbers of people, the nations inclined to cooperate with Satan were those most inclined toward hatred, self interest and

[4] When Satan was Lucifer, in Heaven, he may have studied the universe's advanced technologies. It's possible God allowed Satan to introduce these new technologies as societies seemed ready; or, God may have restricted this inorganic knowledge acquisition.

corruption. Because God's Destruction Day wrath feels akin to an eradication, it's possible that nations with an overabundance of these tendencies (particularly corruption -which goes against social order- and hatred -which can counter God's command to multiply) could devolve into a parasitic and dangerous subhuman line. Thus, God likely sent Satan to draw out nations apt to become a parasitic subspecies. If so, it's probable God and Jesus had to position their prophesied Destruction of Babylon, at the point where either: (1) the US/West represented an absolute threat to moral nations, and/or a threat to God's, Jesus' and Natas' general intents for humanity, or (2) the US/West devolved into a new parasitic human form.

Rainbow/The Wager  Contracts/Marriage

Rainbows are widely featured in the Elder base; and God's Wagers with Satan are directly connected to the Elder Badge (as the badges were affixed to Nuestra Señora after Satan violated the Wager rules in 1777 and 1820). God created rainbows to honor his Covenant with Noah and all living creatures. In the Elder base, rainbows stress the importance of upholding law and honoring contracts among men, and between man and God –particularly God's first contract with mankind: **marriage** (conceived to protect women and children, and stabilize societies).

Skits / Bribes  Social & Political Control

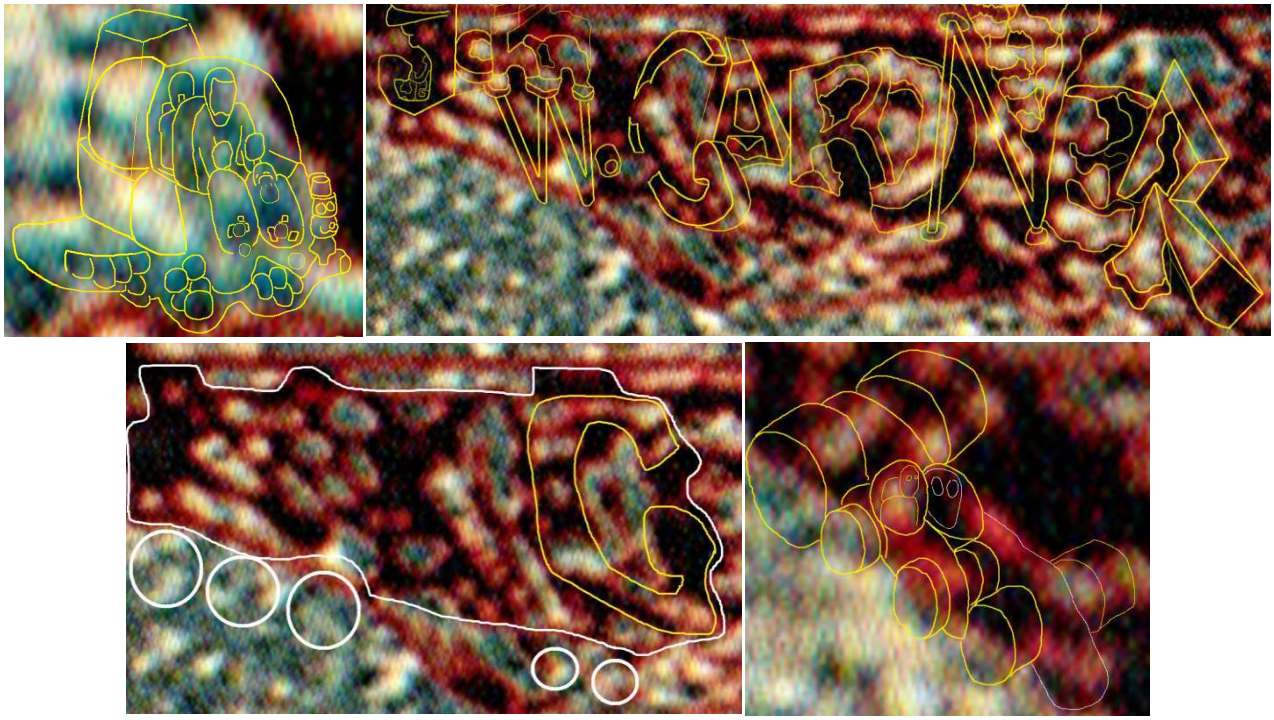

Whether by God's intent or Satan's intent, Satan's **bribes** to my family and friends to engage in skits (dramatizations), represented the chief methods Satan and Gardner used to perpetually control US politics. Bribes represented <u>control of politics</u> (party affiliation meant nothing, as long as all candidates and judges accepted bribes). Skit represented <u>media control -the power to control society's view</u>- by controlling what they see and believe.

Skits  Social Engineering

After I was 10 years old, all skits were financed by wealth my stolen ideas created for Western elites. Thus, as Russia, China and thoughtful nations moved to social models that sought to fairly utilize everyone, and fairly allocated social wealth, *the skits* represented Satan and West exploiting me and other minorities, in a system based on (1) theft, (2) repression, (3) elaborate social *skits* (false realities) where White Westerners received false attribution and rewarded for other people's work and ideas.

Mystery Question #11: In chapter 2, I addressed at least one symbolic meaning of God's creation of art with *no edges or lines or boundaries*; I also explained I omitted at least one of the highest symbolic messages. What is the other -not previously addressed- higher symbolism of God's art and messages with *no edges, lines or boundaries*?

Satan's Accelerator Train

Above: Just a few of the many transportation-related images hidden in the Elder badge.

In the UC Timeline revelations, God uses a transportation theme, with several train representations, and elites like Trump and Musk flying on Epstein's rape plane, to convey that Satan used wealth and transportation to accelerate evil around the planet, for thousands of years –accelerating the rise and fall of the US/West.

The Zodiac murders (1968 and 1969) were linked by cars. At the time, in the late 1960s, the auto industry was the largest industry in the United States.

The Zodiac's (John W Gardner's) second murder series, **the Santa Rosa hitchhiker murders** (1971-1973) were also linked by cars. The hitchhiker murders also occurred while the automobile industry was still the largest American industry.

In the late 1990s, at the time of **Hugh Schreiber's murders**, the **housing industry** was the largest US industry. Hugh's murders were all linked to housing.

Moses Bullock's murders were connected to **transportation**, as he flew to and from work and home.

Through images of speeding trains bound for Gehenna, and elite members of Gardner's 666 flying on speeding planes, God is saying Satan was an *accelerator agent*, sent to hasten mankind's (the train passengers) evolution.

God likely sent Satan to hasten evolution toward four primary goals, mentioned earlier: (1) **to facilitate higher entry into Heaven**, (2) **draw out nations apt to become a parasitic,** (3) **to help spread new technologies and**

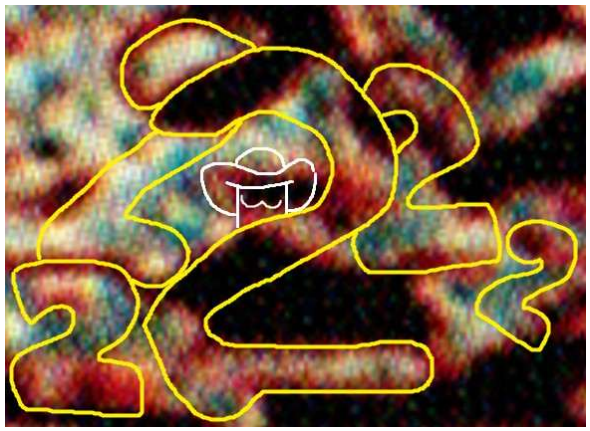

ideas; (4) **to reduce the duration of periods of great suffering.** I suspect reducing the duration of periods of great suffering is one of the primary goals because Revelation, Chapter 13, spotlights two period in which Satan inflicted his greatest harm; the first period (1519 to 1869) opened with the division of the Church, global conquest and slavery, and closed just after the end of slavery, possibly a clue that reducing the duration of suffering was one of God's motives for sending Satan.

From this, I wondered two things:

1. **How much did Satan, alone, hasten human evolution and reduce periods of massive human suffering?**
2. **How much did Satan and Gardner, together, hasten human evolution and reduce the duration of suffering?**

To solve these questions, I went to the base of the Elder Badge, to see if God left the solutions around Satan and Gardner's images. Sure enough, the solutions were there.

3.

In the image to the right, all of the 2's around Satan's central images inform us: Satan, alone, doubled the speed of human Evolution.

And, in the image below, with all of the 7's around Gardner's name rendering, God informs us that Satan and Gardner, working together, accelerated human evolution 7 times faster.

The Numbers

The preceding section showed us that, by sending Satan to Earth, God doubled the speed of human evolution, and cut the duration of human suffering in half. And Satan and Gardner combined to accelerate human evolution, 7 times faster, and made the current period of human suffering 7 times shorter (about 83% shorter).

In 2500 BC Earth's population was perhaps **30,000,000** (30 million) people.

But 2500 years later, in 1 BC, shortly after Jesus' birth, the world's population was only about 6 times larger, around **240,000,000**. This means that life was so full of danger and disease that humanity had population doubling rate of **800 years**.

In 1500, around the time the first beast of Revelation (the West) rose from the Sea, Earth's human population was about **450,000,000**. This means human doubling had actually greatly slowed down, to more than **1500 years** to double.

But in the next 350 years (the years of the first beast of Revelation) Earth's human population rose from about **450,000,000,** in 1519, to about **1,300,000,000** (1.3 billion) in 1869, the close of the first beast epoch. Humanity suddenly TRIPLED in 350 years –a growth rate 12 to 14 times faster than the previous period (1 AD to 1500). Satan tried to destroy humanity, but instead he was accelerating its growth.

Although global conquest, colonization and slavery during this period was terrible, Satan unwittingly cut the duration of great human suffering from 700 years to 350 years. If we assume half of the world, during this time, lived in bad conditions, that would mean for 350 years about **3,200,000,000** (3.2 billion) people lived in bad conditions. But, by accelerating this period, reducing it from 700 years to 350 years, God spared about **20,000,000,000** (20 billion) people from living in terrible conditions. **20,000,000,000** is about 15 times more people than were alive in 1869.

Through all of this, God made human life much healthier and safer, TRIPLING population growth from 1.3 billion in 1870, to 4-billion in 1970 (a 100 year period), and doubling it again, from 1970 (4-billion) to 2020 (8-billion), a 50 year period.

The previous section revealed Satan and his beasts, together, accelerated evolution 7 times faster. Satan had his beasts for 88 years, 1937 to 2025. Seven times 88 is **616** years. This means Satan and his beast inflicted terrible suffering on humanity for 88 years; but they **reduced the length of suffering by 528 years**. Thus, over the next 528 years, although we can expect periodic turmoil, we will be more ethical and responsible, and more aware of the dirty tricks and psychological manipulation the powerful are apt to try to utilize.

- **Digging into the numbers**, the spread of early technology (improved metal working, money, etc), from 2500BC to 1500 AD, hardly moved human population growth. But in 1500 AD, after the advent of the printing press, with people suddenly traveling all around the Earth, Bibles carried God's instruction for people not to eat water with dead animals in it, and not to eat bugs, and much more. Thus, human population growth suddenly exploded.

Fire with Fire

In 2022, I revealed the Beast, John W Gardner, to the world. Since then, I've written and revealed a lot about Satan and Gardner. In 2024, in MSWOotZSRHM, I revealed the extreme strategizing God must employ when He negotiates with Satan; necessary because Satan, at War with God, refuses to do anything God asks, or anything he thinks will benefit God or fulfill His will. John W Gardner was of the same cloth; he lived at War with –and in defiance of– God. Yet, against all odds, it appears Satan and John W Gardner will both torment souls in Gehenna, as God wills.

But why would Satan or Gardner agree to facilitate God's will?

To understand what happened, there are five things to keep in mind:

- 1. In Revelation 16:13-16, Satan is seen with the second human beast (Malone) and the False Prophet, preparing for their final great battle with God (these are the last verses where Satan is seen on Earth). But in 19:19 and 19:20, when the great battle begins, Satan is suddenly gone.
- 2. In Revelation 20:10, Satan is finally sent to the Lake of Fire. 20:10 is positioned between about 1,000 and 1,400 years from now; BUT 20:10 occurs on a spiritual plane, where time bends, and the rules are not fixed.
- 3. In the "Notes" of *Killing Guadalupe*, and in *The Wagers*, *after* Satan resorted to extreme deceit, God *also* used various forms of misrepresentations.
- 4. In Revelation, we never see John Gardner sentenced to the Lake of Fire.
- 5. Gardner and the US frequently used extortion (threatening to harm, kill, go to war with, impose sanctions on…) against foreign lands, to get their way.

Here's what happened. After Gardner died (2002), and after Satan's Revelation Wager ended (2025), God took them, separately, to the edge of the Lake of Fire, where they felt the heat, and knew what was at hand. And God asked, ***"Are you ready to burn, or would you rather work for me in Gehenna for a while –and do as I say, when I say, and burn here later?"***

Satan and Gardner threw themselves at God's figurative feet, in gratitude; eager to do anything to postpone their next and final visit to the Lake of Fire. Thus, in Revelation, Gardner is never sent to the Lake of Fire. And in 19:19-20, Satan is suddenly absent from the battlefield –elsewhere, performing services for God.

- Evidence suggests Satan agreed to torment souls between 2025 and 2029; as Rev 16:13 is situated in December 2025, and Rev 19:19-20 are situated in 2030. See *Revelation 2: The Solutions*, solution 218-**B**, for a more detailed explanation.

- God provided enough facts to reveal that, to gain their compliance, He used the same tactics with Satan and Gardner that they used against the world. Thus, God's tacitly advises nations to treat other nations as they treat you.

God May Use Gardner as the Next Satan-like Demon

It's possible that God will use Gardner as a Satan-like demon on some new world, eventually. The evidentiary support follows.

There are 4 beasts in Revelations. Beast 1, the Holy Roman Empire (13:1-10); Beast 2, the US (13:11-17); Beast 3, John W Gardner (13:18 through 16:10); Beast 4, John C Malone (16:13 through 20:10 –minus 20:4).

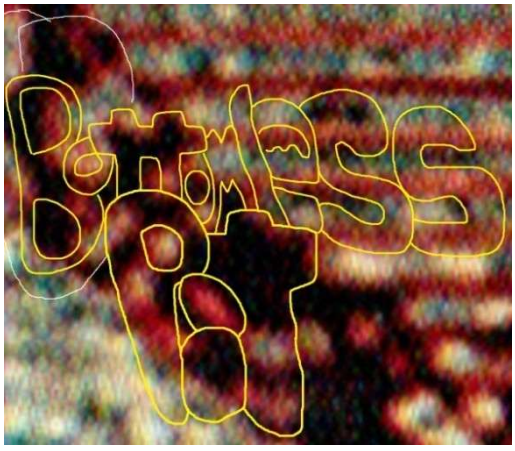

Two of the beasts are/were human. John W Gardner is the Beast from 13:18 to 16:10, and never returns to the story. At 16:13, the final Beast (Malone) appears. God couples Malone with the False Prophet (Oral Roberts) in all 4 verses that refer to beast #4 (Malone). At verse 19:20, Jesus captures the Beast #4 (Malone) and the False Prophet, and tosses them in the Lake of Fire (LoF). At 20:10 we see the Beast and the False Prophet in the LoF, as Satan is cast in the LoF with them. This is the end of the beast section of Revelation –the *beast* is not mentioned again.

So, God showed us what became of Satan, Malone and the False Prophet, but not Gardner. Since God is always very thorough in His stories and revelations, I'm certain He omitted Gardner's fate deliberately.

Although this is possible, I think it is more likely that God had Gardner provide torment services (with oversight), in Gehenna levels 3-7, until Satan arrives in Gehenna. The idea of God using Gardner as a supreme demon elsewhere has strengths, but the logical evidence against it has prevailing weight. Lucifer earned entry into Heaven, and advanced to the highest level of angels. So God would have substantial tolerance for someone like Lucifer, whom He once loved, and whom once loved God. Conversely, Gardner earned the Lake of Fire, probably before he turned 25. So It's doubtful that God would reward Gardner with a God-like evil powers in a new life.

Gardner In The Bottomless Pit

In Revelation 20:3 (situated between 2029 and 2030), Satan is cast into the Bottomless Pit, for 1000 years. John Gardner's soul has been in the Bottomless Pit since 2002, when he died. There, in relative comfort, Gardner may torment the 3rd through 7th levels of Gehenna. Here's how God confirmed Gardner is in the Bottomless Pit… First, in the Elder base image area just to the left of the area I established as the Lake of Fire, in chapter 12 (pictured to the right), God hid the words "Bottomless Pit."

Next, with the position of the Bottomless Pit established in the Elder base, using the same method He used in chapter 12 to reveal those condemned to Gehenna level 10 and the Lake of Fire, God included three expressions of John W Gardner's initials (below) in the Bottomless Pitt image area.

Above: Outlinings of three renderings of John W Gardner's initials, in the Bottomless Pit image area. The initials in the center were positioned on or around a head-like shape (the yellow oval).

To the left, in the same image area as the *Bottomless Pitt* and Gardner's initials, God included an image, or likeness, of the conjoined heads of Satan (top) and Gardner (bottom). Notice their faces appear grimacing in pain; find out why in the *Terms* section.

But, the fact that these two will soon torment souls in Gehenna (Hell), from the Bottomless Pit, reveals a dark side of God, which no one wants to see –a dark side that sends a message to world leaders about how to deal with extremely lawless nations and forces –in very rare, extraordinary circumstances.

The Meaning of the Successful Homosexuals, Pedophiles & Murderers

In revealing that US President Trump and Elon Musk (a make-believe business man and billionaire) were homosexuals and child-raping pedophiles, and in revealing that many members of my family and many of my friends were secretly homosexuals (and some were even murderers), God was revealing that Satan had used the US/West to create a hyper managed social structure, where those who secretly most violated the laws of nature and the laws of God were rewarded with money, power and fame.

Mystery Question #12: In relation to the Elder base In the Crimes Timeline, *w*hat is the symbolism of artificial intelligence?

Mystery Question #13: What was the point of the *dog vision* revelation in *Between the Lines vii?*

The Following 10 Points Explain God's Unkind *Curtain-Form* Behaviors

Erasing My Documents, Interference…		Protect Records; Identity Theft; Document Falsifiers; IP Theft; **No Judicial Delays**

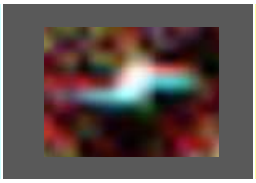

Record Protection. God erased my documents to remind me to address the many ways corrupt nations fail (often deliberately) to protect their records. These records range from historical documents and public records (court proceedings, birth certificates, newspaper articles…) to applications for copyrights, patents and business registrations. In my Revelation writing, national records protection took central focus through (1) the West's alteration and desecration of the Bible, via the Dead Sea Scrolls hoax, (2) the West's destruction and desecration of *Nuestra Señora de Guadalupe*, (3) the West's alteration of the story of Guadalupe and Juan Diego, and (4) the West's extreme corruption of the history of the Aztecs and other indigenous nations/tribes. Accordingly, God is directing just and good nations to protect their records, and develop ways, such as block-chaining, to make sure they cannot be falsified.

By erasing a few of my documents, God was reminding me of how Western elites and criminals worked to commit such crimes as (1) IP theft (including taking credit for work produced by artificial intelligence); (2) identity theft; (3) falsifying documents and records (including falsifying Intelligence Agency records, and effectively erasing a citizen, by erasing his/her true history); (4) publishing false news stories.

No Judicial Delays. Erasing my documents, and other interruptions, delayed my work. Eventually, I realized God was telling me to address judicial delays.

The world watched the corrupt US court system use delays to keep Donald Trump from being impeached, twice. Delays should be exceedingly rare, and blind citizens' oversight panels should oversight all judges, their contacts, delay requests, etc.

- God's various delays also, eventually, served as personal security warnings for me.

Thunder & Lighting, Bugs, Slamming Doors…		Promote/protect Workers' and Prisoners' Rights; No Cruel and Unusual Punishment; No Torture: Punish Extortion/Organized Crime Severely.

God used thunder and lightning, bugs, and slamming doors to direct or remind me to address **prisoners' rights** and **workers' rights** in the Mark Crimes. God's sudden use of thunder, bugs, etc, as I worked, caused me to feel as if I were in prison. But God knew I'd get the point –eventually. Prisoners and workers, prisoners of war, and all citizens, should never be subjected to **torture** or **cruel and/or unusual punishment**. (The methods God uses in Gehenna, where He and Jesus keep the condemned alive and mentally fit, are not suitable for any prisons on Earth.)

Sometimes these expressions were very scary, because, like an **organized crime** boss, God can act on His threats, immediately. But through these behaviors, God was directing me to address *extortion* (threatening to harm to someone if they don't comply) and *organized crime* (where extortion is often utilized) in the Mark Crimes.

Bugs  No Unwarranted Spying on Private Citizens

God's use of bugs (which I was slow to understand) was also a direction to watch what I say, because private parties had placed listening devices in my living area. This is a direction for leaders/governments not to spy on private citizens, without a legally justifiable and authorized basis to violate an individual's right to reasonable privacy.

The Slapping Noise  Environmental Crimes

In *Killing Guadalupe*, I described God's increasingly annoying slapping noise. God made this noise intermittently, throughout the day, by banging His curtain form against the adjacent wall. No matter how much I complained and yelled, God continued to make this noise. This behavior/noise was an instruction to include noise pollution, including playing one's car stereo too loud, in the Mark Crimes' *Environmental Crimes*.

Distracting Me  Publication Crimes

God's frequent efforts to distract me were a reminder to include "distraction" in the Mark Crimes' *Publication Crimes* section.

Being Mean  Abusive Acts Against Children

In Killing Guadalupe and MSWOotZSRHM, I described how God, in His curtain form, was periodically mean to me. For a month or two, this happened a lot. When He was mean, I never provoked his anger or mean action, He just suddenly became mean. God utilized these mean behaviors to get me to include *psychological abuse of children* in the Unforgivable Crimes *Abusive Acts Against Children*.

Continuing the Unwanted Behaviors, After the Wager  Avoid Even the Appearance of Impropriety. **No conflicts of interest**

God continued to display the mean and distracting behaviors (bugs included) after the wager ended, to show He would never help me solve His mysteries –even after the Wager ended. This was also almost certainly done to send a message to statesmen, judges, law enforcement, etc, to avoid any appearance of impropriety.

The behaviors were also done stress that leaders should have no relationships, contracts or arrangements (sending gifts to a judge; accepting gifts from constituents…) that amount to a *conflict of interest*. Leaders must put their people's interests first, and

not use their position for personal enrichment, etc. By treating me unfairly, God knew I would report this, and we would know I was not receiving special treatment, etc.

- *No conflicts* also means, where contracts are allowable, there should be no double dealing (a city gives a venue contract to a sports team; the mayor gives the catering contract to his cousin).

Tying My Mouse Cord in Knots, and Altering the Room Lighting

No Dirty Tricks, Sabotage or Interference

Tying my computer mouse in knots served at least two purposes. First, it told me to address Dirty Tricks, Sabotage and Interference in my Revelation *Unforgivable Crimes* solutions. This was also done to suggest the phrase "dirty tricks" to describe many of the activities Satan and the beasts paid my family and acquaintances to carry out on me.

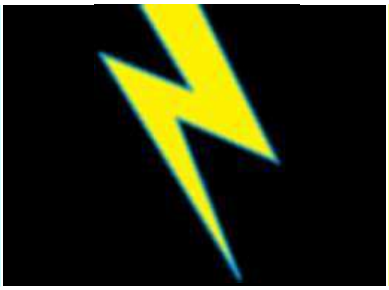

False, Misleading and *Deceptive* Gestures, & False Responses

No False Representations, False Stories, or Falsified Records

Killing Guadalupe describes how God, in curtain form, forcefully and urgently pointed toward my TV, as if an important story or show was being televised, and He was directing me to view it. This went on for 8 or 9 months, about 20 or more times a day –always during daylight hours; around May 2025, it died down to maybe 10 times a day. Simultaneously, God's "yes" and "no" gestures, which had been 100% accurate for a 2.5 months, in 2024, suddenly became very inaccurate –usually wrong, deliberately so. Through these false gestures, God was likely directing me to make sure the Unforgivable Crimes address **false representations**, **false news stories** and **records falsification**.

Taking Control of My Mouse, Opening and Closing Programs, Repositioning the Screen Image, Erasing My Documents…

Vigilantly protect your records and guard your nation's internet systems against foreign and domestic hackers and saboteurs.

God displayed these behaviors (taking control of my mouse, opening and closing programs, repositioning the screen image…) to simulate someone else taking control of my computer, to remind me to remind nations to vigilantly protect their records, and their internet systems, from foreign and domestic threats.

SOLUTION to Mystery Question #11. [**What is the other -not yet addressed- higher symbolism of God's art and messages with no edges, lines or boundaries?**].

SOLUTION:

INVISIBLE CRIMES: *Institutional –Law Enforcement and Media Services.* God's UC Timeline reveals *criminals* and *crimes*. The fact that the art and messages have no lines, or almost *invisible* lines, represents INVISIBLE CRIMES, invisible because Western elites covered them up, and news services and police departments did not report them. God makes this point by exposing 14 unreported murders. All of Hugh Schreiber's murder victims' disappearances and murders went unreported, as did disappearance and murders of the victims buried on Chico Avenue and Carl Shapiro's property; Bay Area news services reported nothing; there were no standardized reporting rules, no citizen's oversight panels.

INVISIBLE CRIMES: *Family, Friends, Romance*. The Crimes Timeline revealed my family, friends and girlfriends committed Mark Crimes against me –for money. God also revealed Rocky Freed was dating a woman (Ava) who secretly agreed to provide information about him to the police. We should recall that God rendered her name with many black eyes and many black mouths –almost certainly because Ava was sleeping with Rocky. Through this, God is telling us we should never betray our family, friends or romantic interests, especially not for money. Money makes the offense much worse.

INVISIBLE CRIMINALS. *Women*. I'd bet most men would guess women would have fewer criminal impulses than men. But God's Timeline reveals, secretly, women commit so many more violations than men that they get a 3-level advantage over men.

INVISIBLE CRIMINALS: *LGBTQ*. The Timeline reveals 4 murderers, 3 of which are mass murderers (3 or more victims). All of the mass murderers were LGBTQ. Without God revealing this, most of us might wrongly assume members of the LGBTQ world are less inclined to commit violent crimes than heterosexuals.

Your Stereotypes, Assumptions & Biases Are Wrong. God's chosen/predicted Revelation solver is a Black man; few would have predicted this. Women commit more Mark Crimes than men; I believe few would have guessed this. LGBTQ members may be more inclined to commit crime than heterosexuals; this too seems counter-intuitive. God may be telling us to question what we believe, and reject our unproven biases and stereotypes, and strive to be fair-minded, circumspect and analytical.

SOLUTION to Mystery Question #12. [**In relation to the Elder base In the Crimes Timeline, *w*hat is the symbolism of artificial intelligence?** SOLUTION: The West's dependence on Satan and IP theft for new ideas represents *artificial intelligence*.

SOLUTION to Mystery Question #13**: [What was the point of the *dog vision* revelation in *Between the Lines vii?*]** SOLUTION: God's universe is dynamic and full of mystery and wonder. Thus, although God's Wager with Satan left *God* unable to see Satan, God was able to keep tabs on Satan through the eyes of dogs.

Between the Lines
xviii
The Big 3

Everything *good* about true men comes from God.

My favorite trait about God is probably His unbridled honesty, which often draws attention to His decision to be a great and just God. One of my favorite examples of God's honesty is Deuteronomy 31:16:

> And the Lord said to Moses, "Behold, you will rest with your fathers, and this people will rise and play the harlot with the gods of the foreigners of the land, where they go to be among them, and the will **forsake Me** and break My Covenant which I have made with them."

This is incredible because it shows our omnipotent Creator able to freely and powerfully admit the pain He feels when He is rejected and forgotten. Only the manliest and most deliberate men will ever approach this level of honesty.

I've also come to love the honesty of Exodus 20:5:

> "you shall not bow down to them nor serve them,
> for I, the Lord your God, am a **jealous God**…"

This always confused me, because being envious seems to be Biblically discouraged. Now I think God is revealing the complexity of being alive and loving others.

And nowadays I love the places where God talks about being a great God, like Deuteronomy 10:17:

> "For the Lord your God is God of gods, Lord or lords,
> **the great God, mighty and awesome**,
> who shows no partiality nor takes a bribe."

When I was a teen, I didn't understand this, because it seemed sort of arrogant. But in God's honest Self assessment, He's reminding us that He chose to be exceedingly great, and He deserves recognition for conceiving life, and all things, and giving us law and justice, and reinforcing those gifts with a system of rewards and punishment, which rewards those who show love, kindness and responsibility, and punishes the selfish and corrupt… Expanding out from that, God is encouraging people and nations to honor their great men. He is also encouraging those of us who do great things to speak up and demand recognition. Any exceptional man who

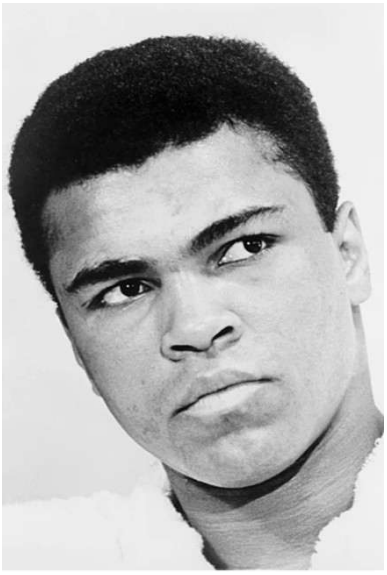

achieves something truly great –like becomes a champion boxer, or leads his nation out of poverty, or invents some great new technology– understands the sacrifice those achievements required. And that rare man knows he is without peer, and has earned the right to speak the truth.

There can only be one Initiator, but Jesus co-created the universe with His Father, and shows His greatness in His determination to assess every moment of our lives before entering His Judgment, and His determination to be the universe's most faithful Son (and to model that for us). Thus, Jesus is also known to frankly admit His greatness. A couple of my favorite examples are Matthew 24:30:

> "Then the sign of the Son of Man will appear in the heaven, and then all of the tribes of the Earth will mourn, **and they will see the Son of Man coming on the clouds with power and great glory.**"

I also appreciate each of the times Jesus calls Himself the *Alpha and the Omega*, in the Book of Revelation, particularly the first occasion, 1:8:

> **"I am the Alpha and the Omega, the Beginning and the End,"** says the Lord, "Who is and Who was and Who is to come, **the Almighty."**

My favorite example of a true man showing a similar unrestrained honesty about their choice to be great was Muhammad Ali, whom I consider the greatest boxer ever. Ali, an American, would proudly tell any reporter who asked that he was *the greatest*. At the time, the early 1960s, in the US, this was stunning; Blacks were expected to be quiet and submissive. Ali was brash and unrestrained. Generations of athletes would follow Ali's lead, and declare their greatness, and show the world the true hearts champions. Gardner and the US stripped Ali's championship belts and would not allow him to fight for four or his best years (25 to 29), because he would not register for the Viet Nam War, which he opposed.

I think I've done a few great things. But those things aren't why God and Jesus chose me to solve Their Revelation and revelations. There may have been a few things God liked, but one of the things I think He liked most was my decision, very young, to say what I believed to be true, without looking around for anyone's approval. This doesn't mean that I'm always right, just always honest (well, almost always).

If you wonder what *masculine honesty* has to do with this Notebook, you may have skipped a few chapters. One of my best friends, Hugh Schreiber, represented himself as straight man, and he appeared very manly. My stepfather, Dennis Wilson, also represented himself as a straight man, and he too appeared very manly. One of Dennis Wilson's children is Moses Bullock, who represents himself as a straight man, and he too appears very manly. But God revealed all three of these men are or were homosexuals (or LGBTQ) AND mass murderers.

Equally astounding, God revealed that close to 90% of the people in the Unforgivable Crimes Timeline are LGBTQ. God is clearly saying that by living in deceit, pretending to be straight and uphold traditional values, when a person is not straight and does not adhere to traditional values, greatly increases the possibility *that* person may commit a serious crime against society.

More astoundingly, God revealed Donald Trump is a pedophile who raped children on Jeffrey Epstein's plane, AND had homosexual butt-sex with 4,449 men.

All of these daunting revelations pertain to deceit.

An honest man is a great thing.

Around 2013, the world witnessed one of the greatest examples of a true man speaking his mind, indifferent to public polling. (I may get a few facts wrong, here, because I'm recalling this story from memory, not archives.)

After decades of privately owned US media companies insulting his country, during an interview with a Western reporter who asked Russian President Vladimir Putin (left) about social challenges in Russia, Putin mentioned similar challenges is the US, and cunningly mentioned America's problems with homosexuals. And just as Putin hoped, the reporter asked Putin what Russia does about its homosexuals.

Putin replied, "We don't have homosexuals."

It was the funniest slap down in political history. Putin knew there are homosexuals, to some extent, in all nations. But in that moment, he was not concerned accuracy or public polling; he cared that the West's media was constantly insulting Russia, or meddling in its affairs, and he was out to punch back.

5 or 10 years ago, I started sharing my *Big 3*: ***family, God, nation***. Before I said a word, I knew my acquaintances would insist, "No! It's God, family nation."

This is an example of how *conformity messaging* conditions people to think and act based on a desire to be in the majority, rather than responding truthfully.

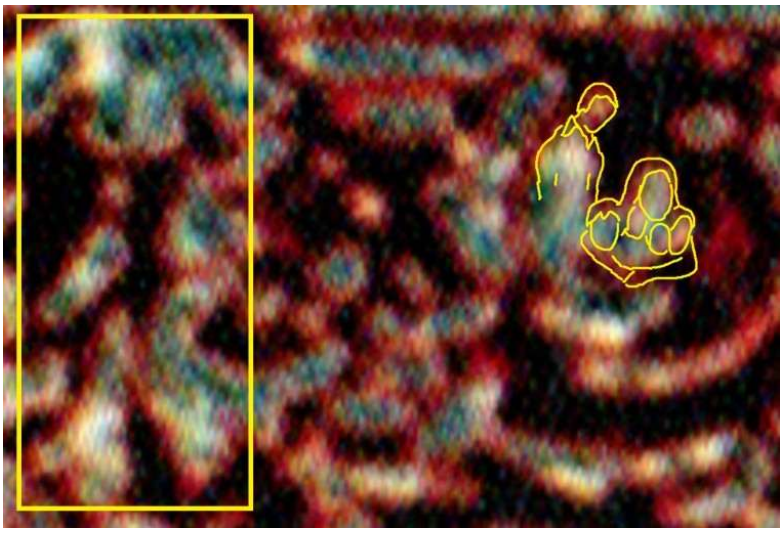

But here's the absolute logic behind family, God, nation: *Imagine two adjacent cities, divided by a river; the city on the north side of the river is entirely Christian, and the city on the south side is entirely Muslim. Suddenly, without warning, a great tornado strikes to the north, and everyone in the Christian city is killed –except 100 newborn babies at one fortunate hospital. Immediately, 100 good Muslim mothers and 100 good Muslim fathers rush to adopt the newborns.* Now… All of those originally Christian newborns will now grow up to be Muslims –because their new parents are Muslims. Our parents give us our God, or gods. That is not debatable.

Family, God, nation. Family first.

Jesus affirmed this with four fierce curses on the West for attacking His Sister.

God affirmed this by choosing the writer of the first story of *the impossible lengths a man will go for his family* as His servant, and affirmed this again, by using *Nuestra Señora de Guadalupe* (an image of the representational mother of Jesus) to reveal His Daughter, Natas, who the West and Satan have attacked for centuries.

God has been clear for thousands of years, in Revelation, Isaiah, Deuteronomy, Ezekiel, Daniel, Jeremiah, Amos… that He would destroy *Babylon* (the US, and likely key allies) for ongoing crimes, passed down from parent to child for centuries. While wise nations upheld reason and the Golden Rules, the US/West cried "God and family" as they conquered, enslaved and subjugated, as they forced undesirable families into concentration camps and American ghettos, as their schools taught kids to stand with the crowd rather than by their convictions, as their private universities subjected poor children to IQ reducing experimental medication, and they cried "God and family" as they designed and implemented Head Start (*First 5*, etc) to permanently reduce non-White children's IQ.

The very center of the Elder base (in the rectangle to the left) is for extreme family crimes (and image crimes). The center of the lion's face confirms the Western Heirs will be punished for their parents' extreme crimes. The central placement of these monuments encourages nations to act in accordance with nature, and prioritize the welfare of their children.
