

Prelude to A.I. WWIII? –& More Feb 28g, 15], 2026

Over the past 7 weeks, I've published hundreds of fraudulent AI images, produced by Satan and Western aligned MX news and media companies. These companies are now publishing stories, backed by AI images, saying the US and Israel are at war with Iran (see www.thezoneresistance.com/a-i-image-slide-show).

This could set the stage for Satan's AI fake "deception date" –a fake AI nuclear world war, designed to conceal the true date of the fall of the US. On February 21st, 2026 (Greg), I published "Black Flag" (right), which revealed AI hidden messages indicating this *deception date* would occur March 5th, 2026, Gregorian (or February 20th, 2026, on the Julian). We'll see. But to be frank, Satan is such an attention seeking turd, I don't care much anymore.

I recently posted some AI hidden images on TheZoneResistance's slideshow page, where Satan's head props up the head of the visible image subject (see below). This is Satan's way of saying he controls all of these AI fake entities –it's probably also expresses his dislike of God positioning Gardner's head larger and below Satan in God's Elder base revelations (see *Steve's Top-Secret Notebook*). As for Satan's recent hidden "Jesus" messages (below, right)... My best guess is, now that he's doing odd jobs for God, he'd like me to think he's carrying a message about or from Jesus. But I don't think They would use my enemy as a messenger.
