

Hidden Messages & Evidence of A.I. Fraud in the Renee Nicole Macklin Good Images

Steven K Briggs

January 7th, 2026 (Gregorian), when I heard the story about the Minnesota woman who had been shot by ICE (US immigration police), I had some doubts. When the woman was identified (Renee Nicole Macklin Good) and her photo released, I was very suspicious, because I thought I saw some artificial structures in one or more of the images. When I went online and downloaded the images, and examined them closer, my suspicions were confirmed.

In the following pages, I'll examine the three photos (below) that I was able to find of "Renee". All of the photos were attached to various news reports. In the following photographs, using a yellow outline, I outline or circle various anomalies and what I believe are messages, I also enlarge and zoom in on certain areas and aspects, otherwise the photos are not altered in anyway. **Full Disclosure:** in one or more article posted on January 8th, 2026 (Gregorian), I expressed my leanings that the photos were produced by US artificial intelligence (AI), and leanings toward the possibility that the photos were produced to help conceal the fact that the US had been defeated and effectively destroyed in the One Hour War, of Revelation, Chapter 18.

Image #1

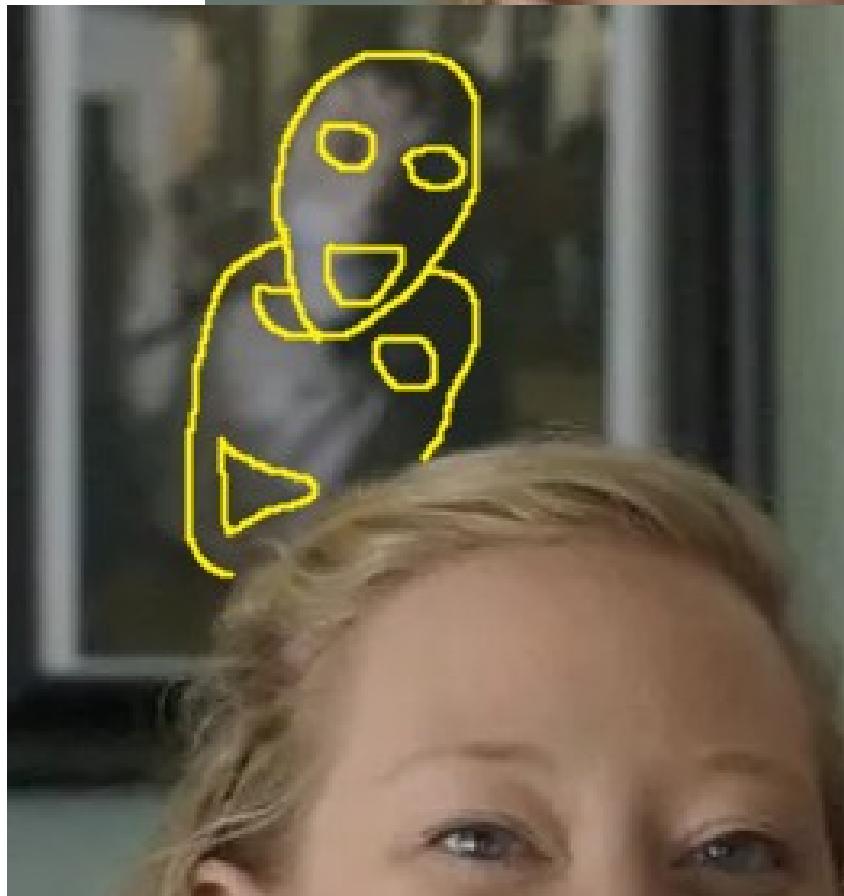

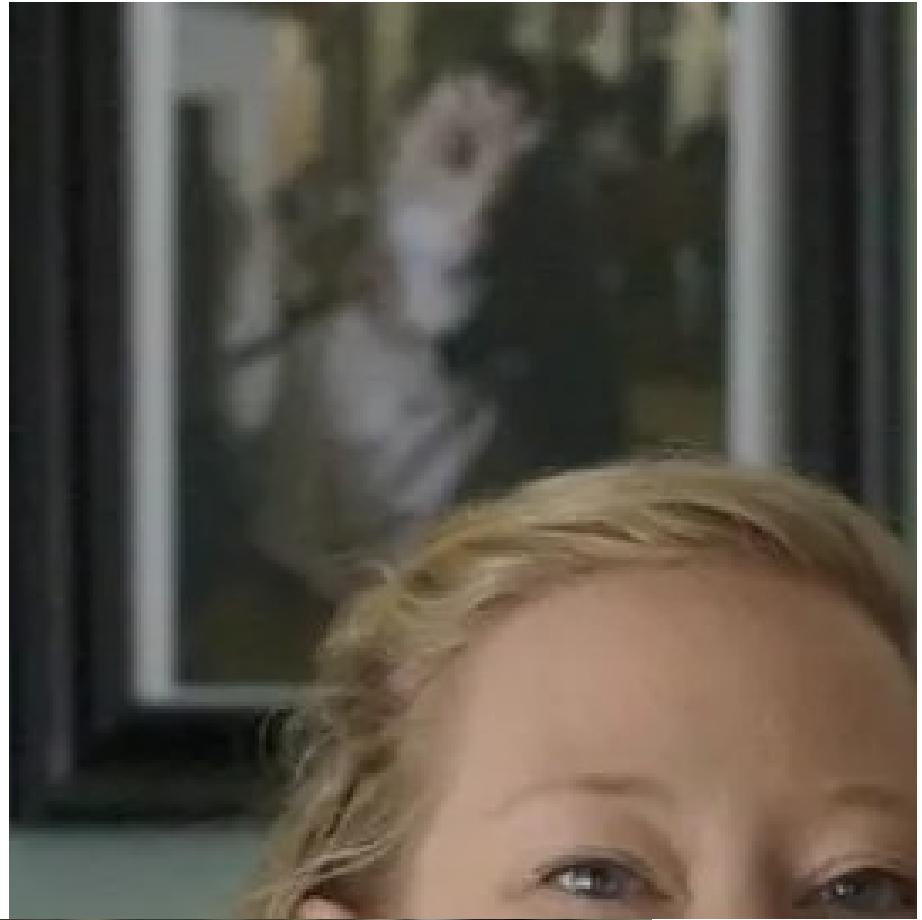

The image below, Renee and perhaps her family (and a zoom of Rene, cropped from the same photo, bottom) is the first photo I'll examine, beginning on the following page.

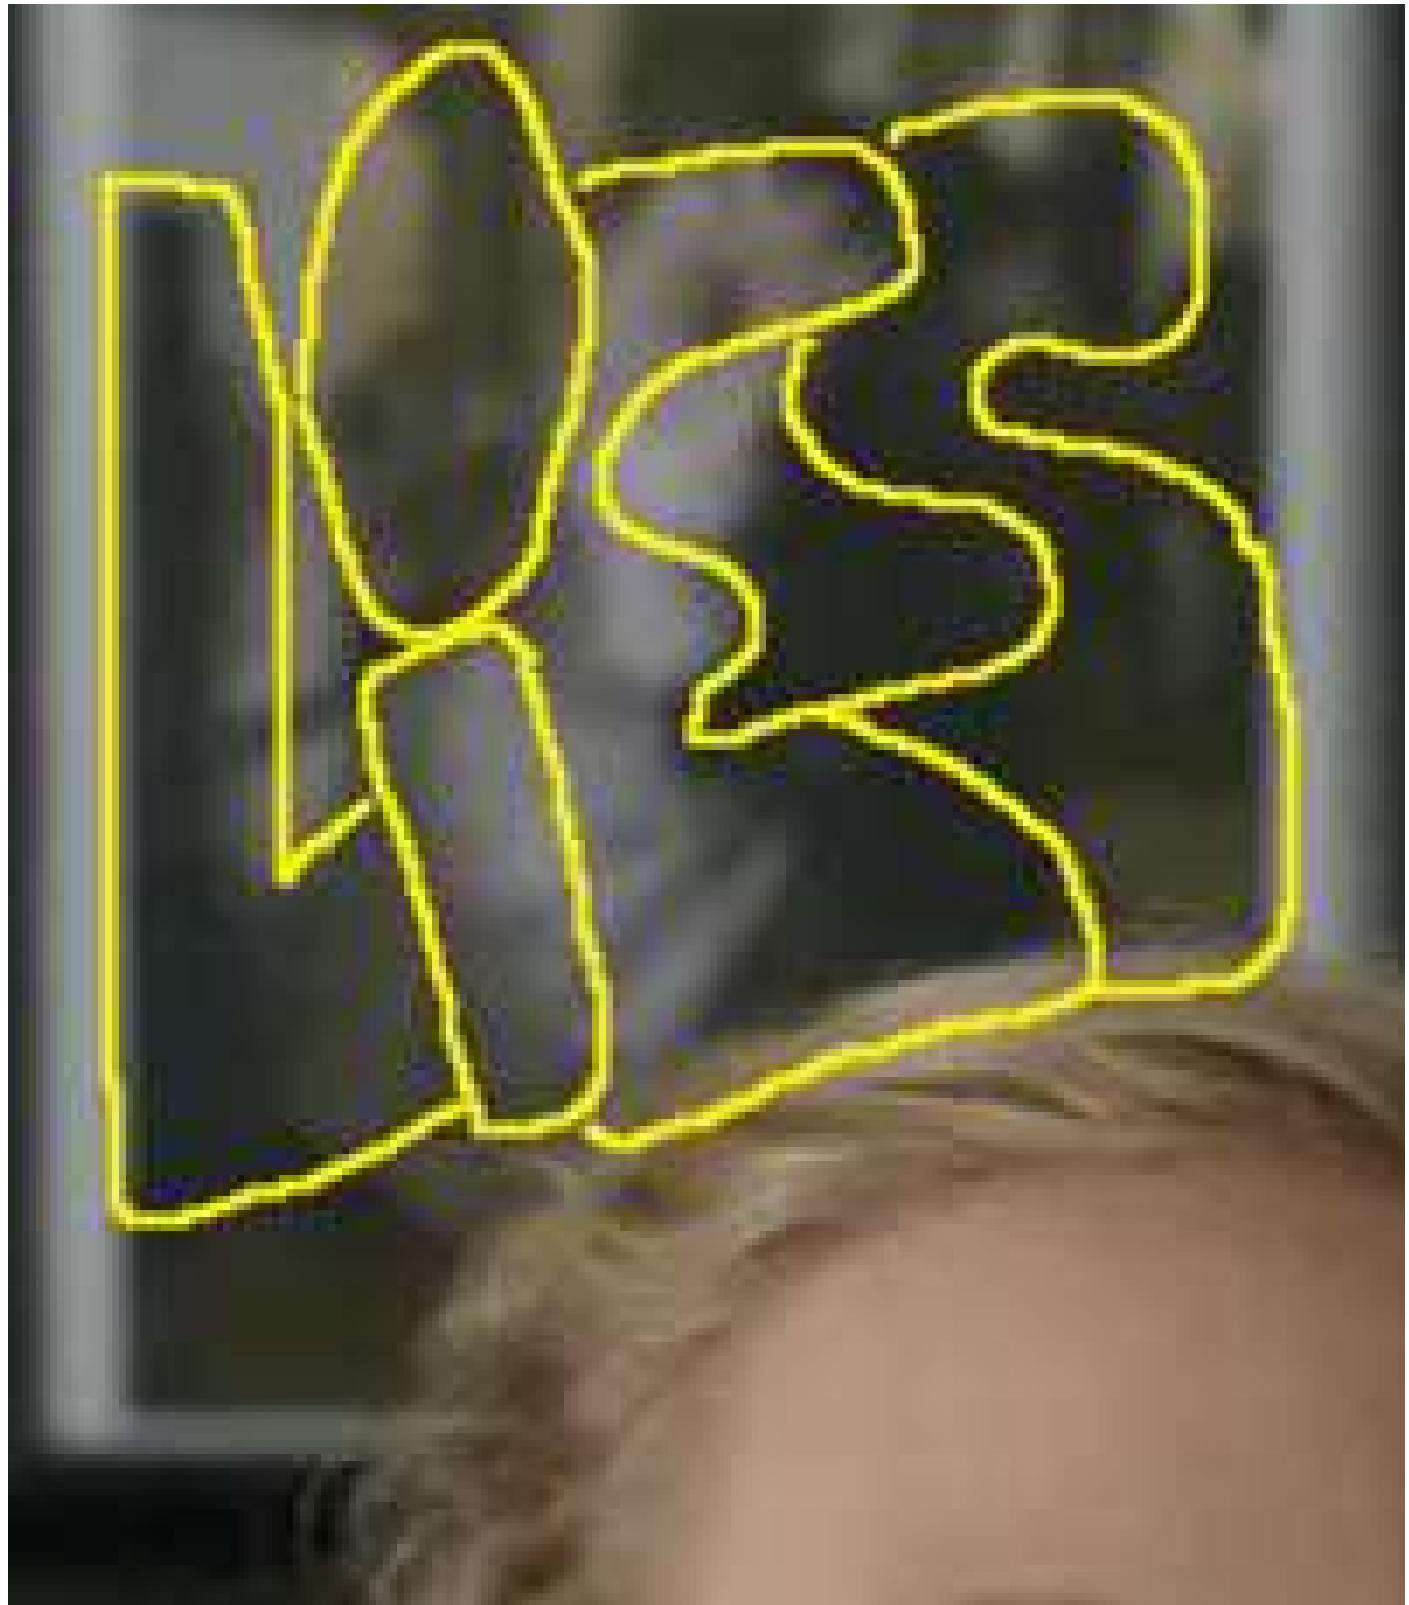

The first area of the first photograph to examine is the photograph behind Renee.

Immediately, when I saw this image, I noticed that the face in the background photo looked bizarre.

The photo seems to be a photo of two heads, very close, perhaps conjoined, as you see in the image below. The image is sort of an aggregate, composed of many interweaving images, similar (but inferior) to what God does in the Elder Badge.

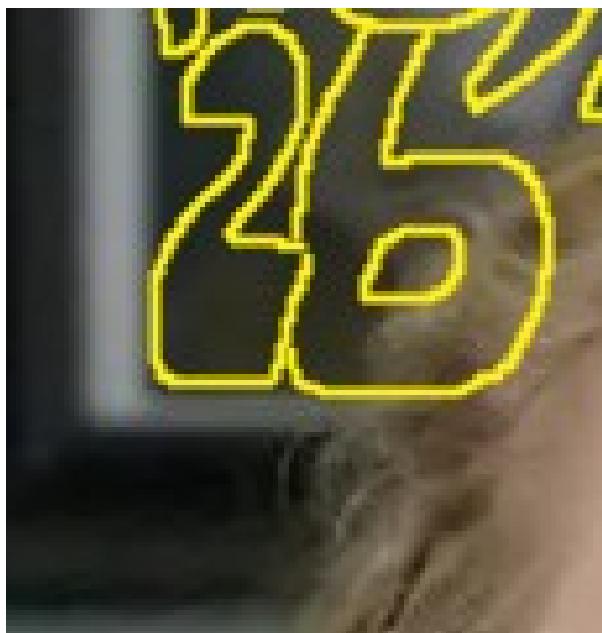

The words "Lies", above, is one of the messages hidden in the image. I believe "lies" means the story of Renee murder -and Renee herself- is AI produced fictions.

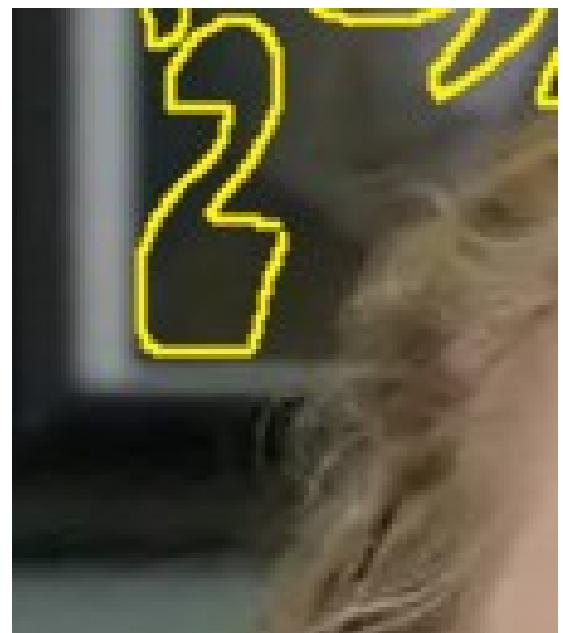

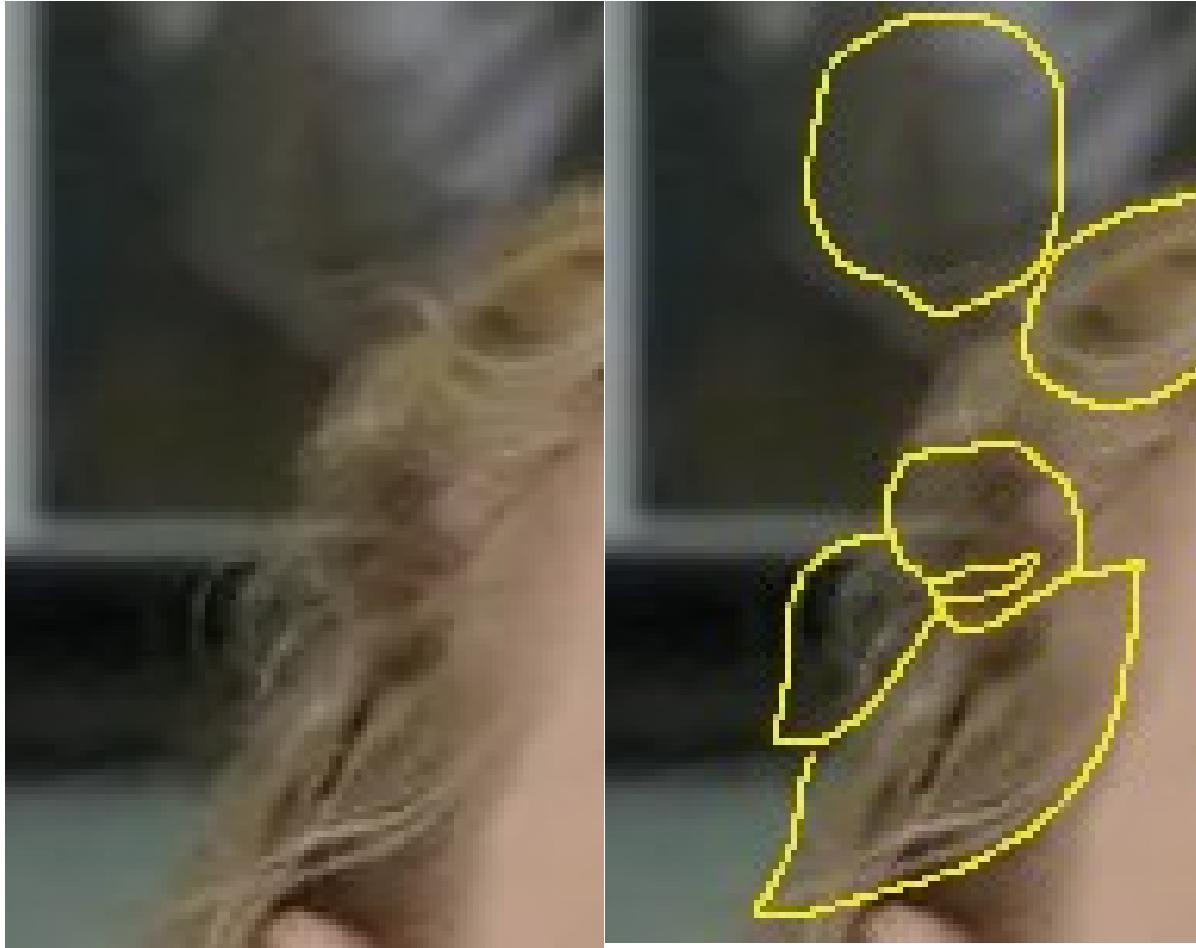

Above, the numbers 1, 7, 26 (2026) are the Gregorian date that the One Hour War (OHW) was supposed to happen, January 7th, 2026. I believe the photo is indicating the OHW did happen

January 7th, 2026.

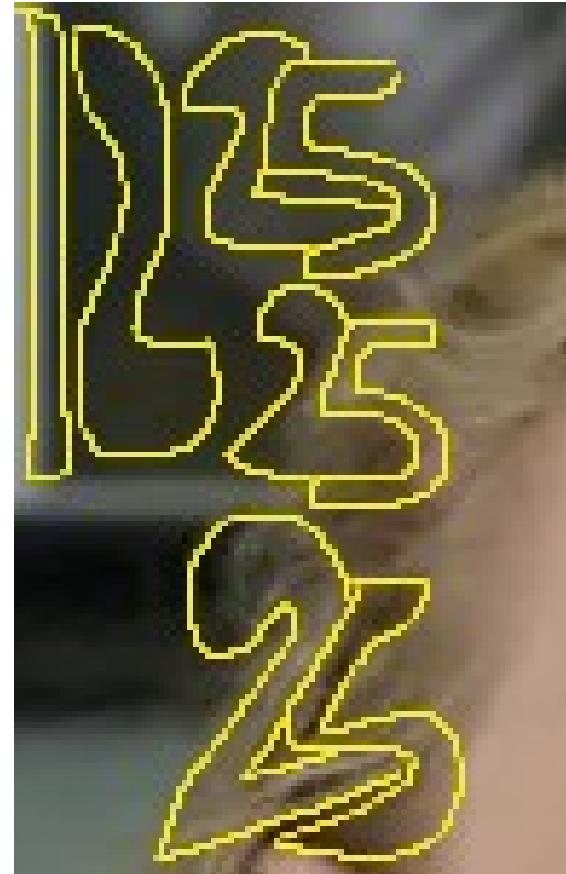

Examine the zoom on the right. As you see, Renee's hair, and especially her scalp, look extremely artificial, and seem to form a wolf's face.

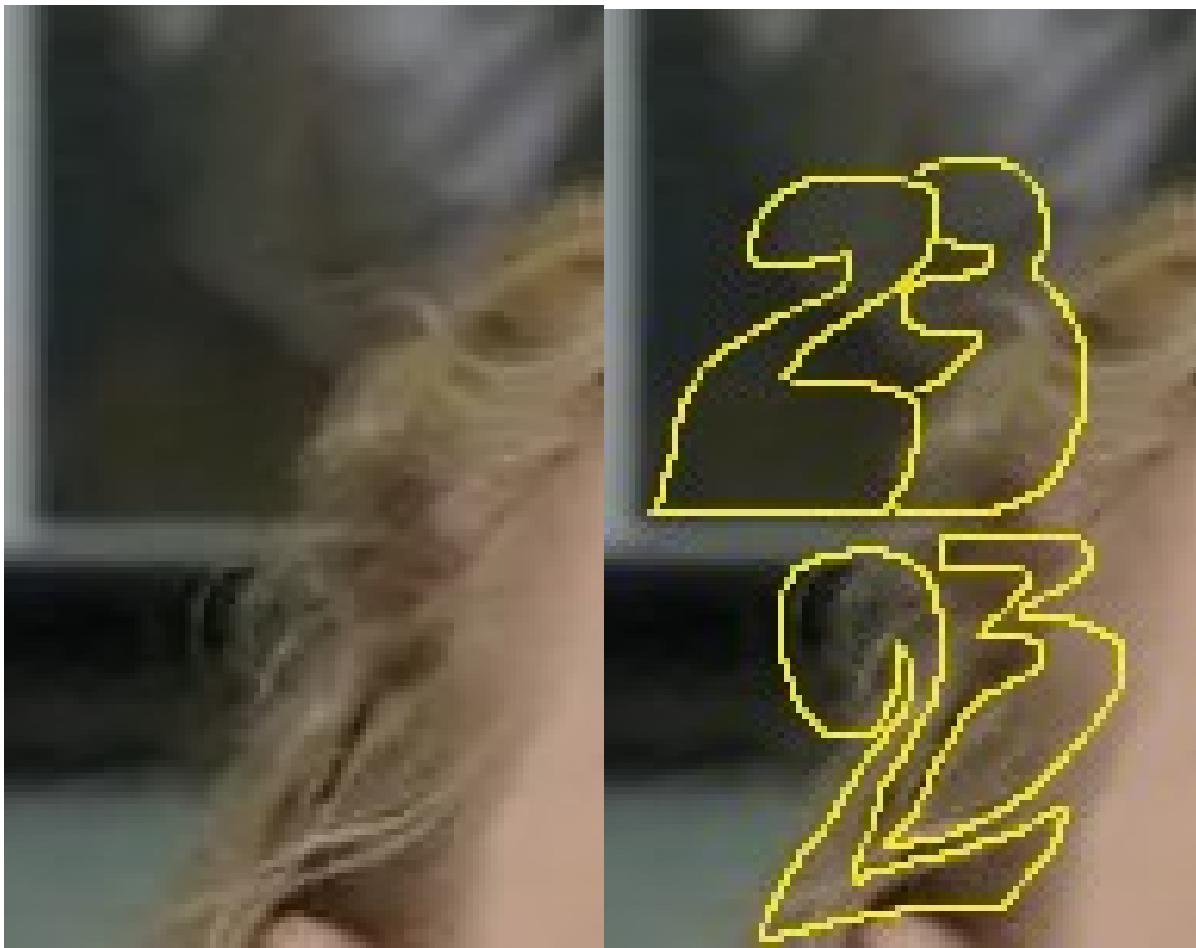

In the zoom above, I've outlined all of the unnatural formations in the image area.

To the right, 12-25-25, represents the date of the One Hour War on the Gregorian calendar: December 25th, 2025, as dates are/were expressed in the US, Month, Day, Year.

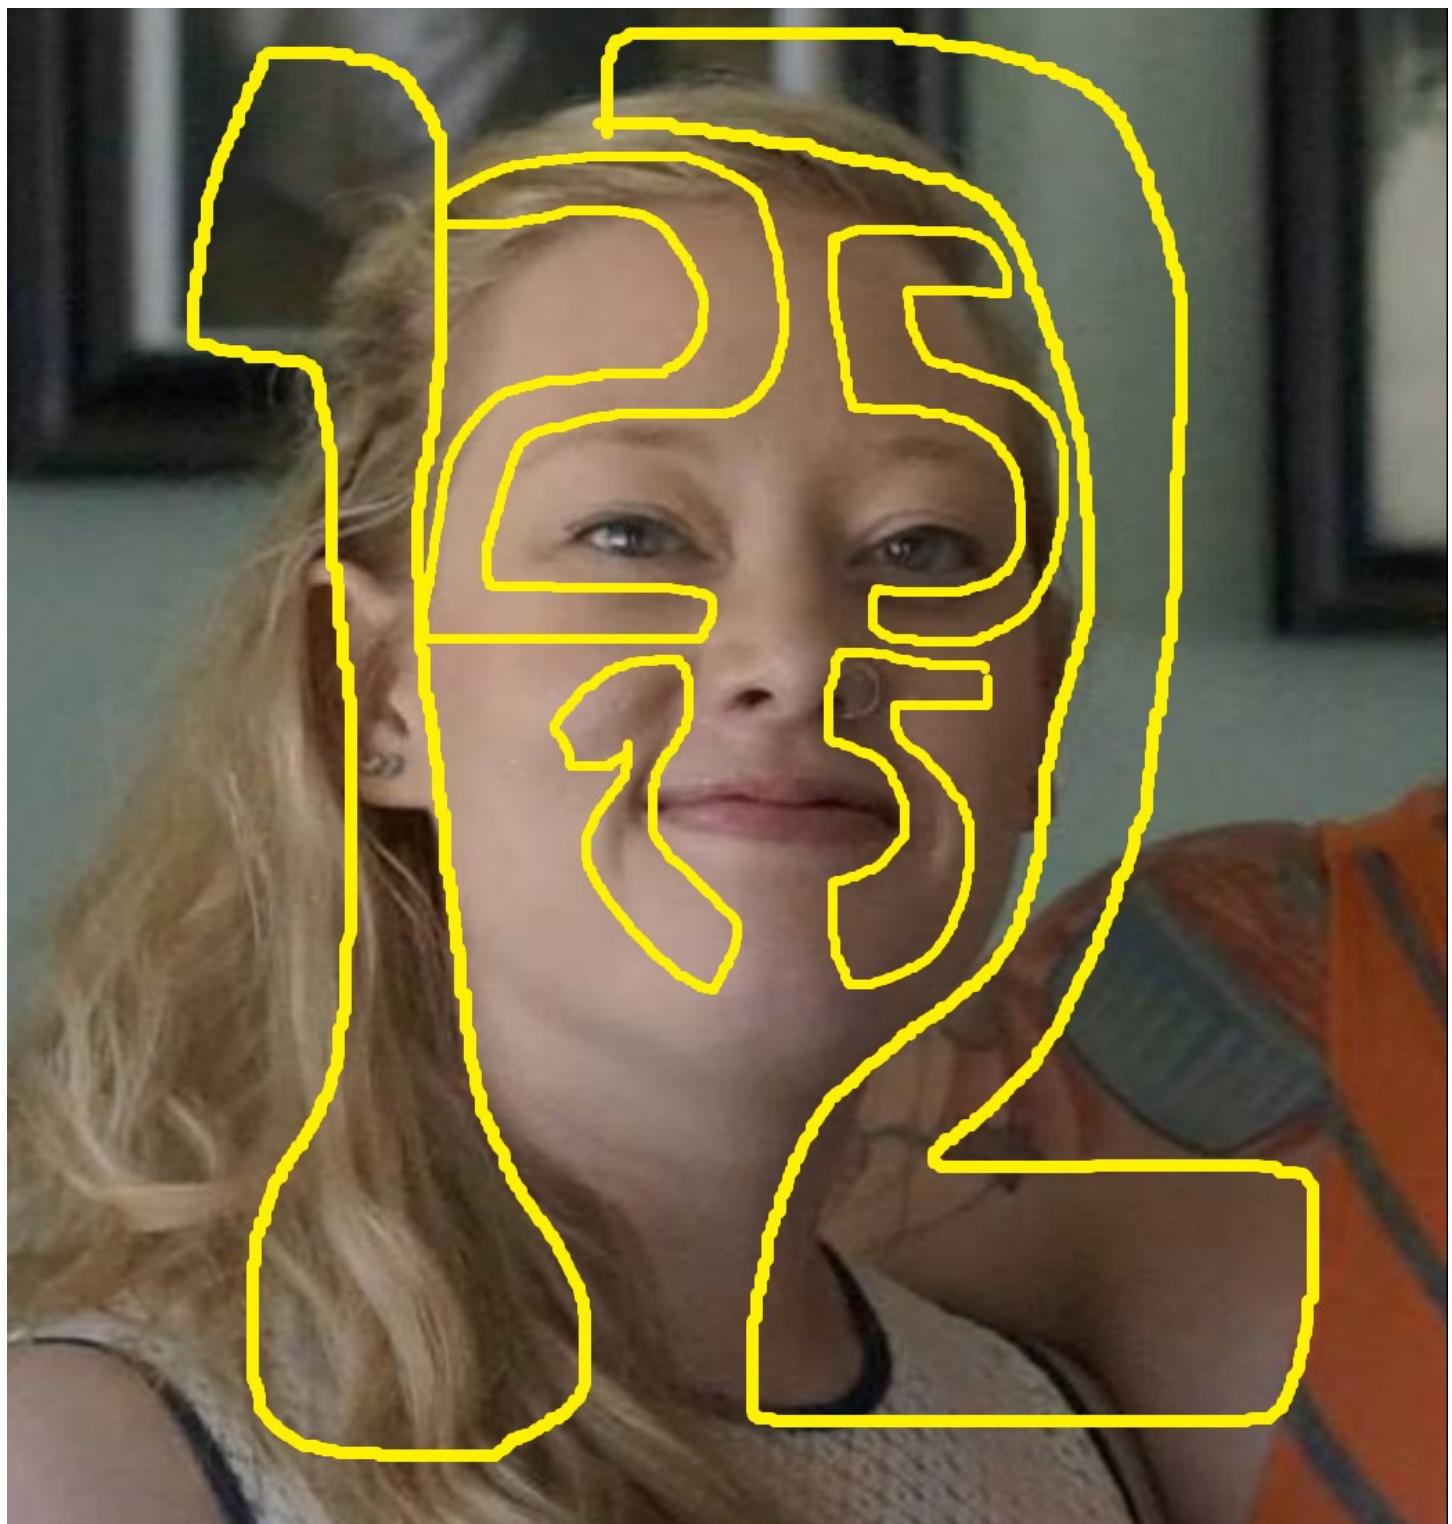

Above,
“23”, the year of the
One Hour War on
the Yin calendar
(4723), is also in
this image area.

To the right,
the entire Yin date
of the One Hour
War is also
expressed in the
background photo:
11 Month, 19,
4723.

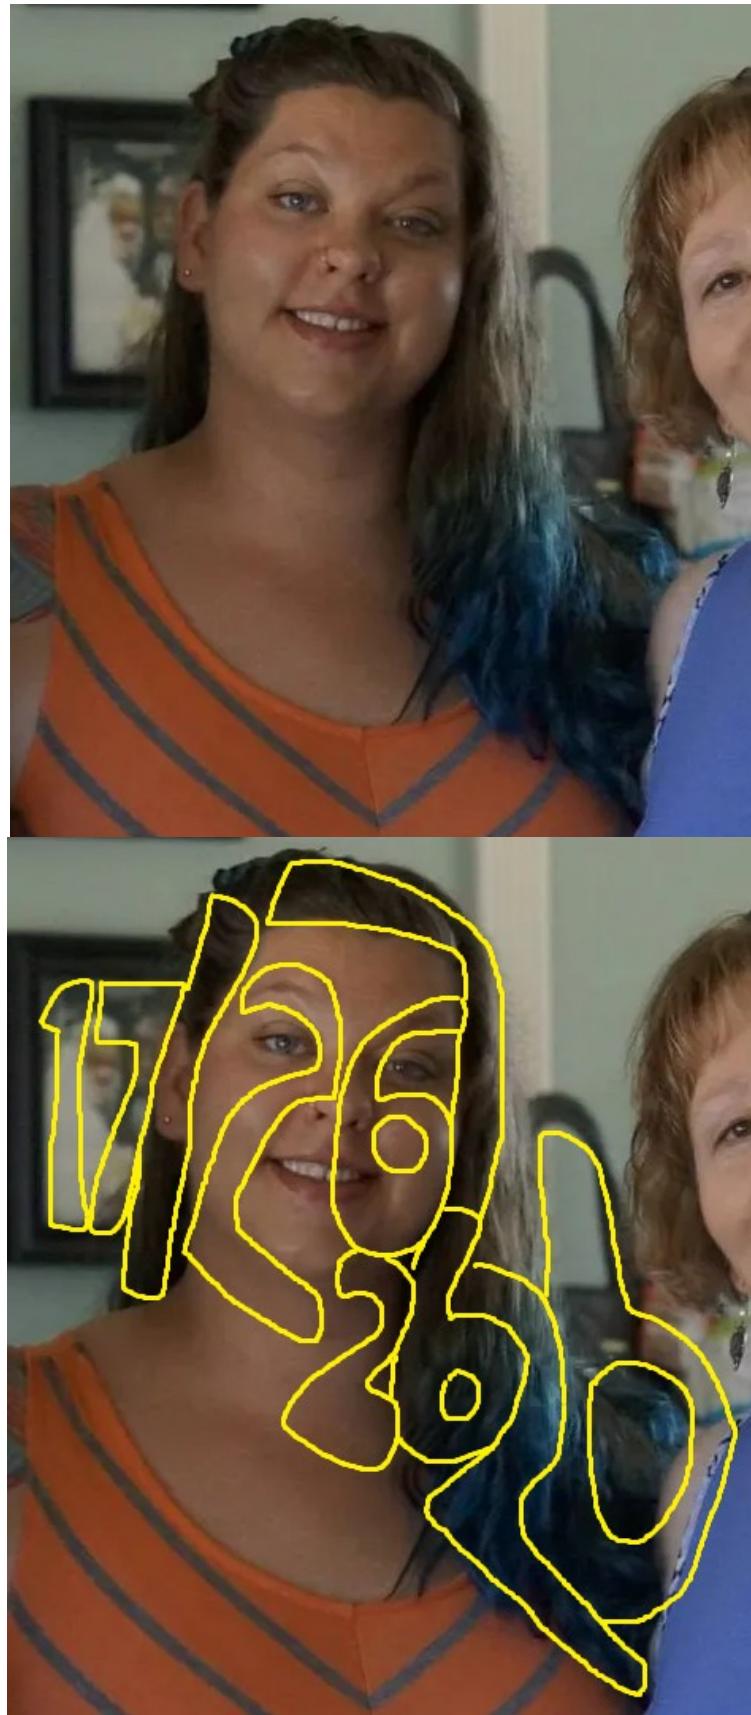

See any images (date numbers) or irregularities in Renee's face?
I'll show you a few.

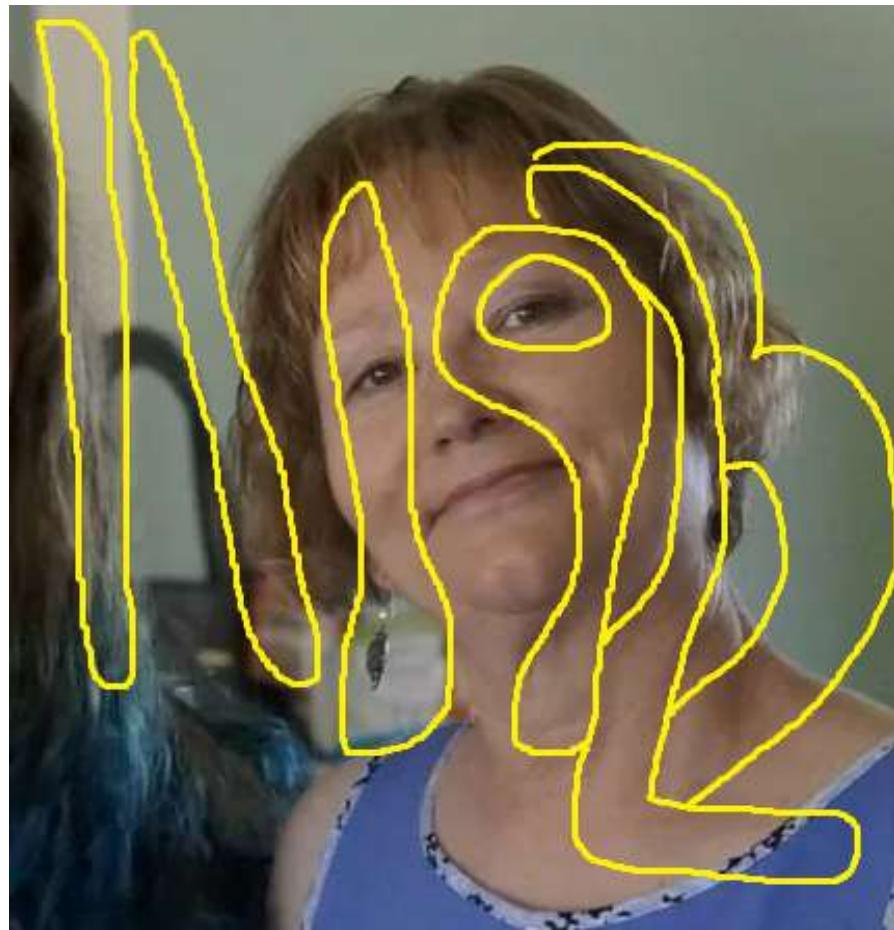

The Julian date of the One Hour War (12/25/25)

An alternate expression of the Julian OHW date.

The Gregorian Date is expressed over and around the woman in the center of the photo.

The OHW date on the Yin calendar is express over and around the woman on the right.

The words “One Hour War” are expressed over the entire image, as is the word “FAKE.”

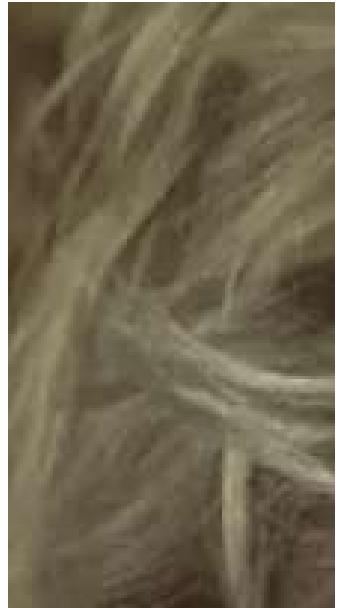

Image #2

Now for the second image of Renee (below).

To the right I enlarged an A shape above Renee's ear, full of irregularities.

See any message on or around Renee's face, below.

On the next few pages, I'll show you the three message structures I found over and around Renee's face.

"Jan 7. One Hour War." With a second "confirmation" expression of 1 Hour War.

Second -confirmation- expressions are commonly found in God's various revelations.

I suspect Satan, via John C Malone, ordered the creation of these images (which I believe are fake). Although Satan hates God, he has a habit of copying God's methods (I first addressed this in *The Zodiac Killer's Identity Revealed*, also in *Revelation 2: The Solutions*).

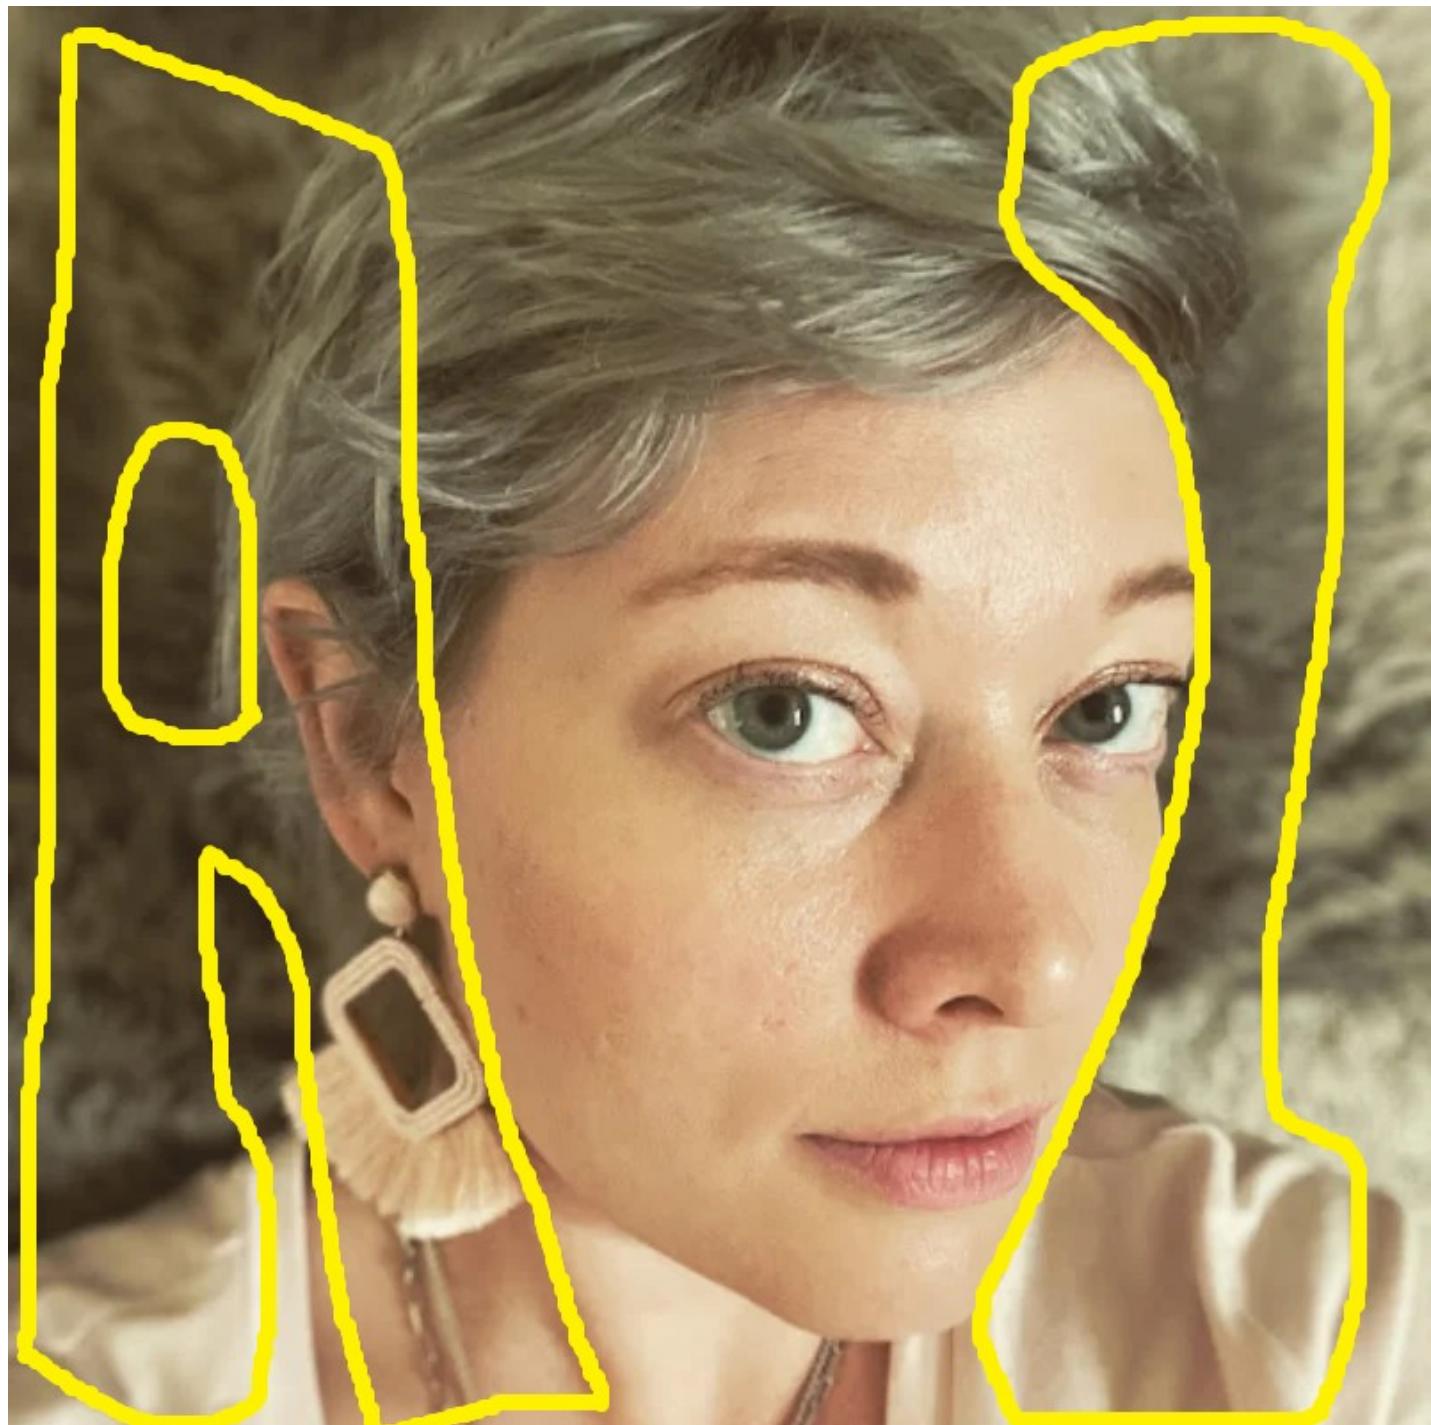

The One Hour War date, on the Gregorian Calendar.

"I'm fake.

(I was in a rush to complete and publish this, so I didn't do bock letters for the letters in the center.

In the Elder Badge revelations (see Steve's Top-Secret Notebook), God established the pattern of always using *I*'s that are dotted (usually with *eyes*).

A.I.

Now for the third image...

Image #3

(Most of this third portion was taken from an article I wrote and published January 8th, 2026.)

In the photo above, do you see any aspects or structures that seem unnatural?

On the following page, I've circled some of the areas that appear possibly falsified.

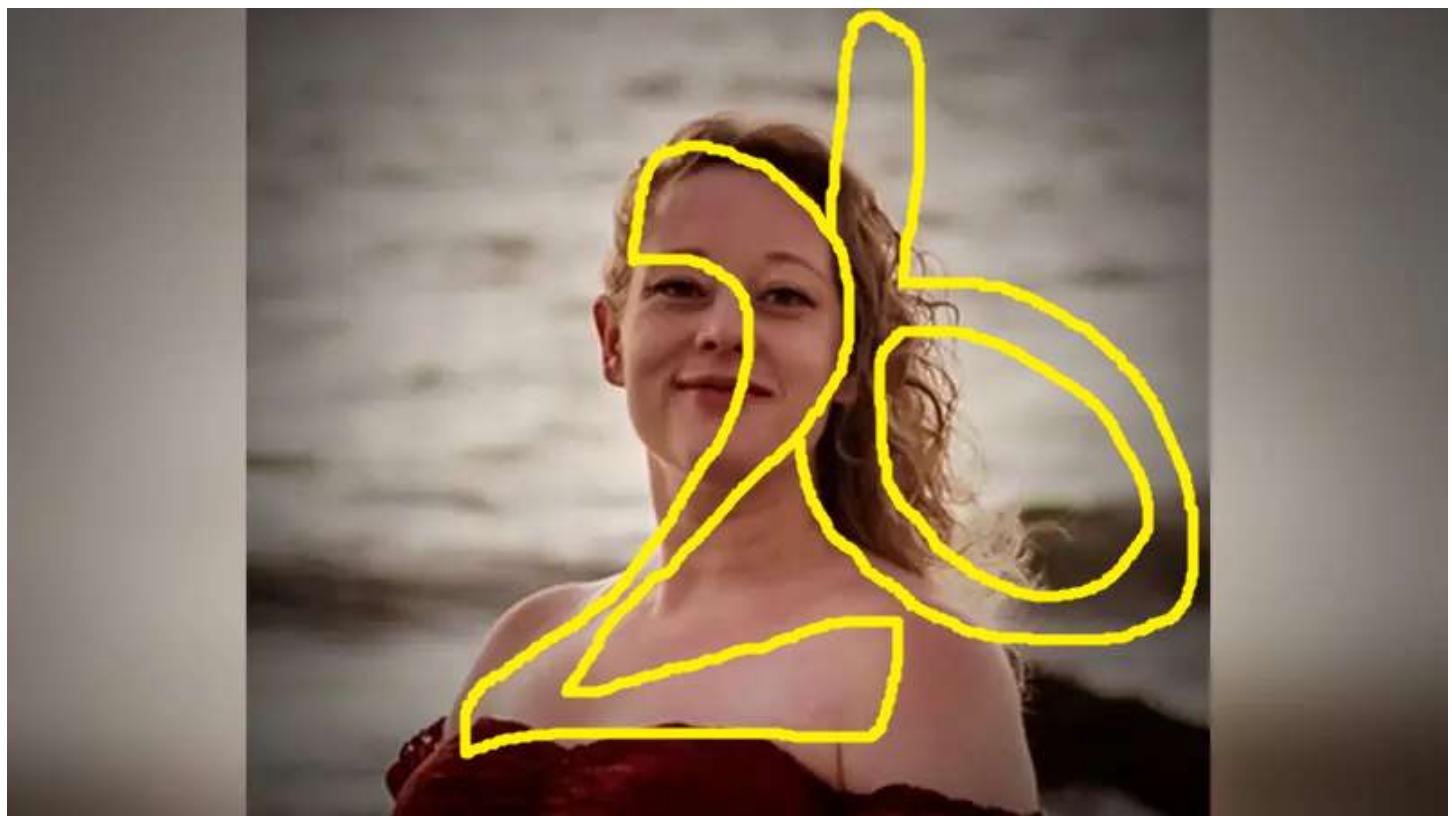

These are the 6 areas that look very artificial to me. I encourage you to zoom in and look closer at the nose and the other areas.

This is problematic because: if the image has been manufactured, then Renee likely does not exist. That could then mean that, perhaps, all news stories about Renee have been and are being manufactured by AI... Although Renee's story may very well be true, on the following pages, I've outlined some areas where the numbers that form Gregorian date of the One Hour War (1/7/26) are present in her image...

1 and 7 (January 7th) above; 26 (2026) below.

More expressions of 1/7/26, above and below.

"Lies," above; "World War 3," below.
