

21 Days Left for Nations to Announce Social Reforms.

Nations should announce their social reforms, based on the needs and will of the people, by April 4th, 2026. Reforms should seek such goals as eliminating corruption, poverty, violence, educational and social inequality, homelessness, pollution, contaminated water, disinformation, unregulated media, etc.

Reforms should begin to be implemented immediately.

April 5th, one day after the Reforms deadline, the *Prophecies Against* period (a 21 month period, in which God imposes punishment upon certain nations and regions, for their various corrupt engagements) will begin. Nations who fail to announce their Reforms by April 4th might expect God to impose punishment in the months ahead.

Learn about the Prophecies Against in *Steve's Top-Secret Notebook* (page 387) -and read some Reform ideas on page 389.
