

Illustration by God / Interpretion by Steve K Briggs (Yayayar)

This mini-book has been updated to include the delayed Line 6 One Hour War date.

To learn about the 6 (and soon to be 7) timelines of mankind, read *Line 5: The Hands That Rocked Time*.

Finding the One Hour War

Literary Key

Revelation 2: The Solutions = **Rev 2**

Steve's Top secret Notebook = **STSN**

The Wagers = **W**

Killing Guadalupe = **KG**

Art / Acheiropoieta Key

Nuestra Señora de Guadalupe = **NSdG**

The Shroud of Turin = **the Shroud**

Around mid June, 2023, I began solving Chapter 13 of the Bible's Book of Revelation. A few weeks later, I received a Divine request to solve the entire book. About a year later, late June or early July 2024, after about five failed One Hour War (OHW) predictions, I arrived at September 23rd, 2024 (West) and September 24th, 2024 (East) as the correct date of the OHW of Revelation, Chapter 18. I have not, and will never, change that date. But a year and a half later, in April 2026, I learned the Chapter 18 OHW, was set on *Line 5*, and the Line 5 OHW happened over 470 year ago.

I'm sure we are all confused.

Around April 2025, I discovered God and Satan had been involved in a series of Revelation-related Wagers, going back over 4,000 years (as I reported in *The Wagers*, May 11th, 2025).

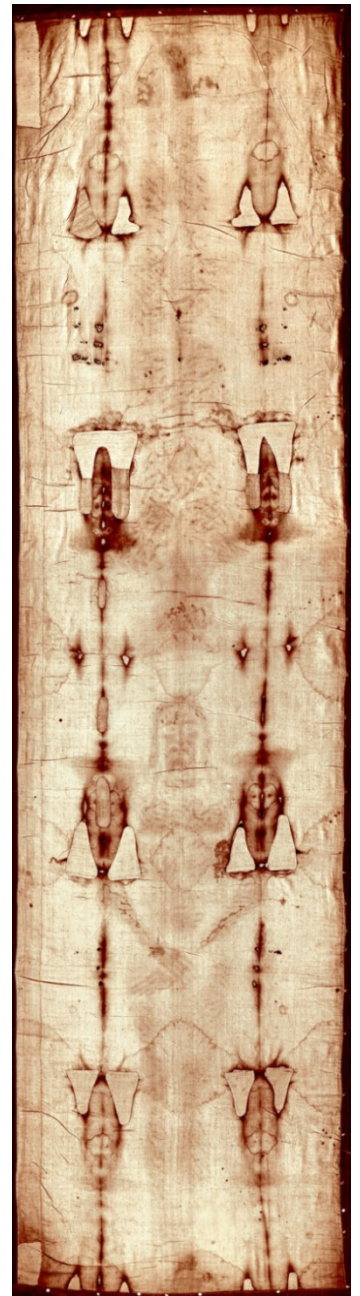

May 17th, 2025, I reported John D Rockefeller III had been Satan's originally selected human "Beast" of Revelation 13:18. But, enraged by Satan's constant cheating and desecration of *Nuestra Señora de Guadalupe* (NSdG), shortly before the final Wager began, God replaced Rockefeller with John W Gardner – a much more destructive beast (see *W* and *STSN*).

11 days later, May 28th, 2025, I announced I had found the correct OHW date, hidden in *Nuestra Señora*: *December 7th, 2025*.

But December 7th, 2025, came and went, quietly.

Very soon I found date images in NSdG and the Elder Badge (see *STSN*) indicating the Event was on the Julian calendar, not the Gregorian. I alerted the world that December 20th (Gregorian) was the new Destruction Date (OHW date).

But December 20th passed without incident.

Above: *The Shroud of Turin*.

Published December 24th, 2025 (Greg). Updated May 29th, 2026 (Julian), or June 11th, 2026 (Greg.).

There are 2,500 words in this mini-book.

The Shroud

Initially, I guessed that when God changed the Beast, he also changed the One Hour War date. But when I analyzed the “new” War date, on three different calendars, the new date connected to Revelation’s central matters as if very carefully planned. So I concluded the *new* date had always been God’s intended One Hour War date.

So here’s how I found the *not-really-new* OHW date...

When the OHW did not happen on December 20th, 2025, my first guess was: *when God changed the Beast, in 1888, before the final major Wager began, He also changed the One Hour War date* (see *The Wagers* and STSN for more). That sound theory led to the obvious question: “When is correct OHW date?”

Solving the correct Event date would be MUCH easier than previous attempts, because, according to my published interpretation of the Wagers, the Destruction Date was to occur before the final Wager ended –by the end of December 25th, 2025 (Julian) ¹ or January 7th, 2026 (Gregorian). This meant on the evening of December 20th, 2025 (Greg), there were only 18 days left that the OHW could fall on.

Because the final major Wager began on Christmas Day (Julian), in 1888, I felt strongly that the most likely War dates were Christmas or Christmas Eve (Julian), which translate to January 6th or 7th, Gregorian. But the hunches of a guy who has failed to predict the OHW 10 times have little value. I needed verification. Fortunately, God is exceptional about verification.

When art vandals and thieves desecrated NSdG in 1777, God attached a set of badges to NSdG (KG). And when vandals and thieves cut the badges off NSdG in 1786, in 1787 (or thereabouts) He added the existing badges (KG). Based on that pattern, since Satan and Western elites stole NSdG’s crown in 1888 (KG), I reasoned God may have left some clue about His Destruction Date after the crown was stolen. Thus, I wondered if there was another work of art, created by God, after 1888.

I searched online, and quickly learned about “*Acheiropoieta*”: *Christian icons that are believed to have been created miraculously –not by human hands*. Wikipedia listed six items on its *Acheiropoieta* page; but only two of the examples appeared genuine to me ² : (1) Nuestra Señora de Guadalupe ³, and (2) the Shroud of Turin.

By this point, NSdG’s War clues were exhausted. This left the Shroud of Turin.

¹ Previously, I indicated the final Wager ended on the final second of December 24th, 2025. That was mistaken. As previously explained, the final major Wager was initiated on December 25th, 1888 –a leap year, because on leap years Christmas falls on the 360th day of the year, and 360 has numerical and symbolic meaning to God (and His Family). Thus, the Wagers’ end date, on a non-leap year (2025), would be on the final second of *Christmas* –the 359th day of the year. [See STSN, page 421, for 360 details.]

² It’s very possible the other revered *Acheiropoieta* are also legitimate, but destroyed and falsified, over time, by Satan and the West.

³ Today NSdG is almost entirely fake (KG), and far, far, far below the quality of God’s work.

Western *experts* alleged the Shroud dated back to the 13th or 14th century, making it older than Nuestra Señora de Guadalupe. But in 1898, photographer Secondo Pia discovered the Shroud's image was much more visible in a photographic negative (right). Over 80 years later, when I was a teen, there was still great interest in negatives of the Shroud. Thus, as photography was a new 19th century art form, and the negatives seemed to augment the image, I decided to see if God put the OHW date in photographic negatives of the Shroud.

The shroud of Turin was/is believed by many to be the shroud (covering) that covered the body of the human incarnation of Jesus, after his death. In 1988, when John W Gardner ruled the West, the US and Germany used radio-carbon dating, usually called “**carbon dating**” (utter junk science), to falsely allege the Shroud only dated back to the 13th or 14th century AD (long after Jesus’ time). No Eastern nations, and no non-White nations, were allowed to date the cloth, or observe Western junk science methods. Worse, in 2002 the West “restored” the Shroud (harsh “restoration” methods should never be used on sacred and valued ancient items, as these methods alter and degrade what remains of the delicate artifacts).

My view is: the Shroud is the work of God, given to us as a representative *likeness* of Jesus, not intended to be an exact image of Jesus. I believe God **recreated** the Shroud that covered Jesus, with the image *He* wanted in the Shroud.

When I was a teenager, I first saw images of the Shroud (photographic negatives, which are easier to see), and felt the image was genuine, somehow.

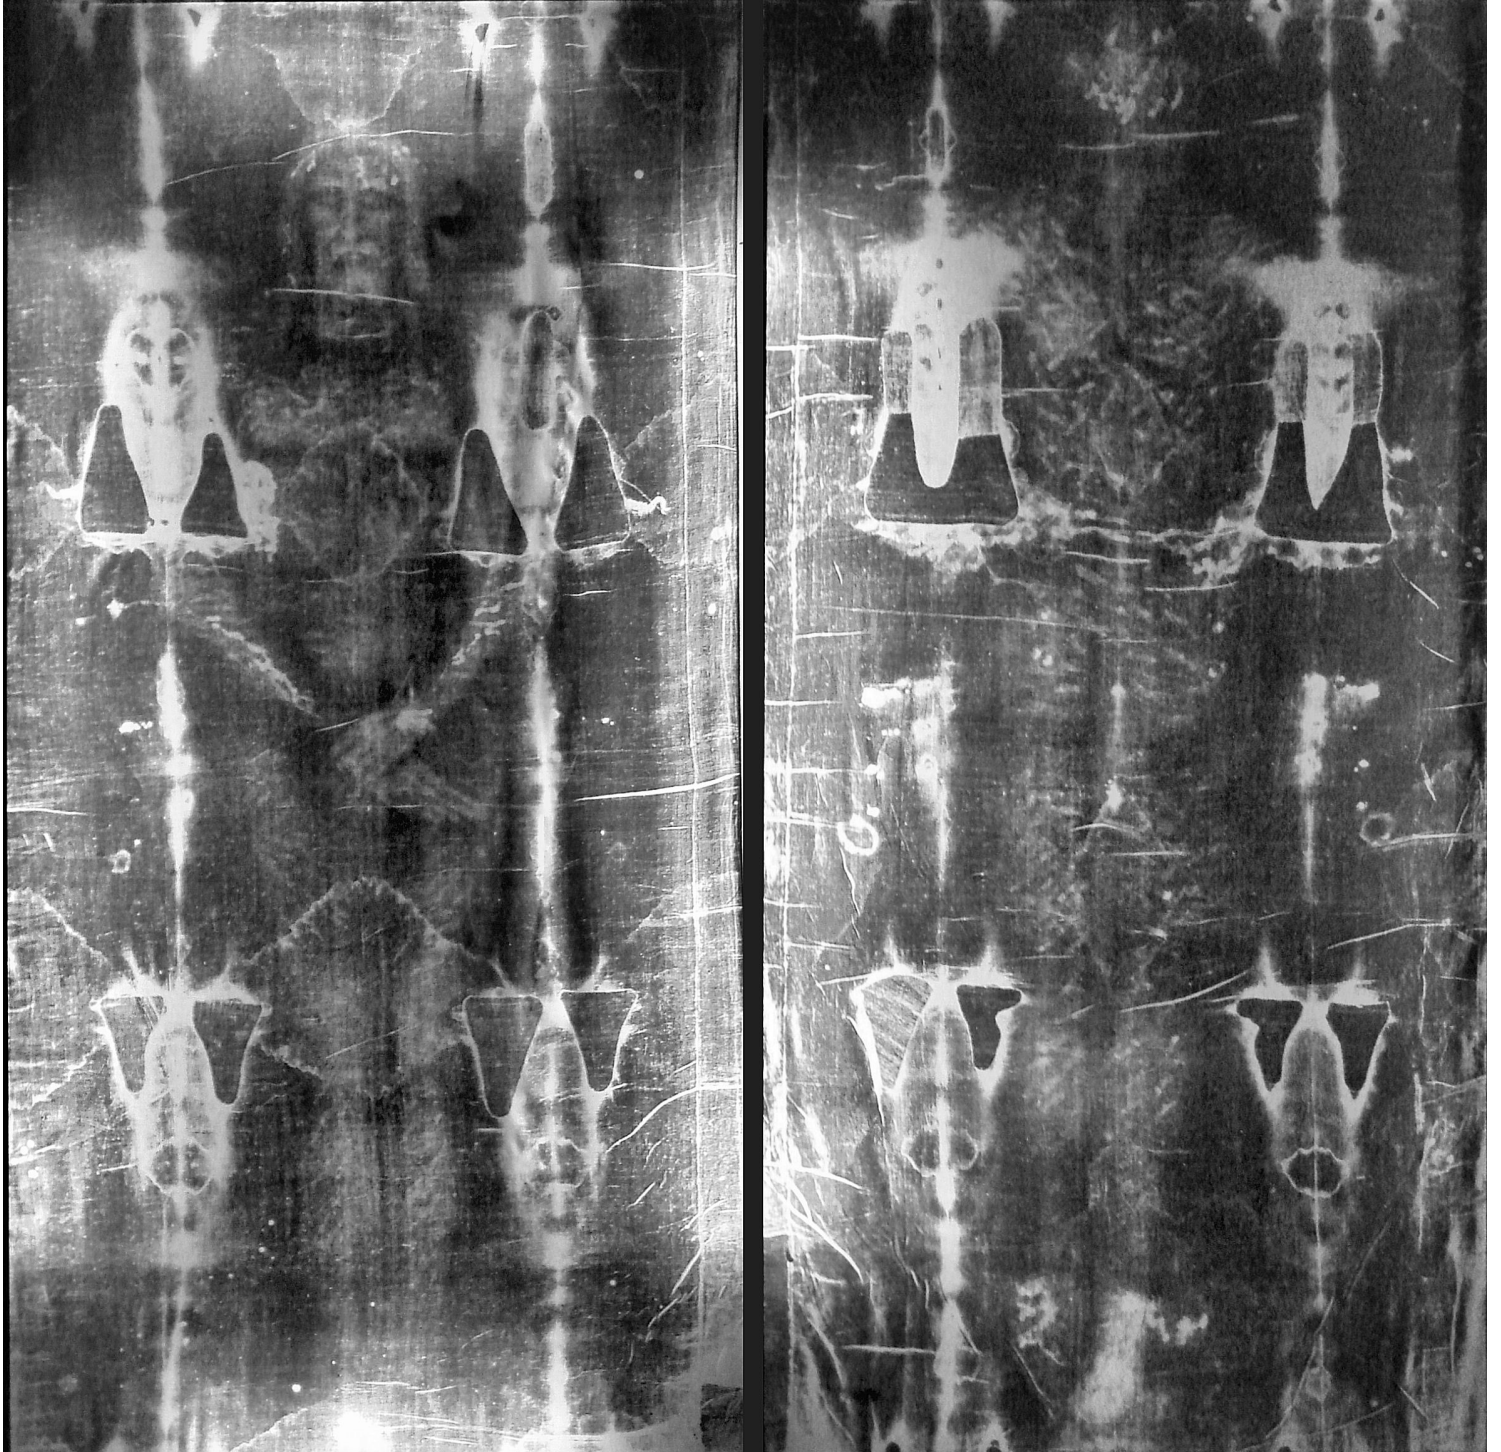

So I downloaded negatives of the Shroud, to see if God indicated when his OHW would occur. One Hour War dates were everywhere. The original Line 6 OHW date was: **December 25th, 2025**, on the Julian calendar, **January 7th, 2026**, on our Gregorian calendar, and **4723, 11 Month 19**, on the Yin calendar.

But almost as soon as I found the God and/or Jesus delayed the One Hour war by 163 days. Later, I learned God or Jesus delayed the OHW, to give me time to solve the Emanuel the Savior mystery (I’m pretty sure Jesus delayed the date). It’s possible the date was delayed because back in late December, 2025, I quietly wished I had more solution time –to try to solve the Emanuel mystery. But who knows...

The new and final Line 6 One Hour War date is: **June 6th, 2026** (Julian); **June 19th, 2026** (Gregorian); **5th Month 5** (Yin, 4724).

- The moment the Line 6 OHW begins, human timeline 7 (Line 7) begins. To understand this, see *Line 5: The Hand That Rocked Time*, chapters 1 and 9.

The Shroud of Turin (image from the negative)

FRONT

BACK

The front of the Shroud presents a likeness of Jesus (in his human incarnation), from the front.

The back of the shroud presents a rear perspective likeness of Jesus.

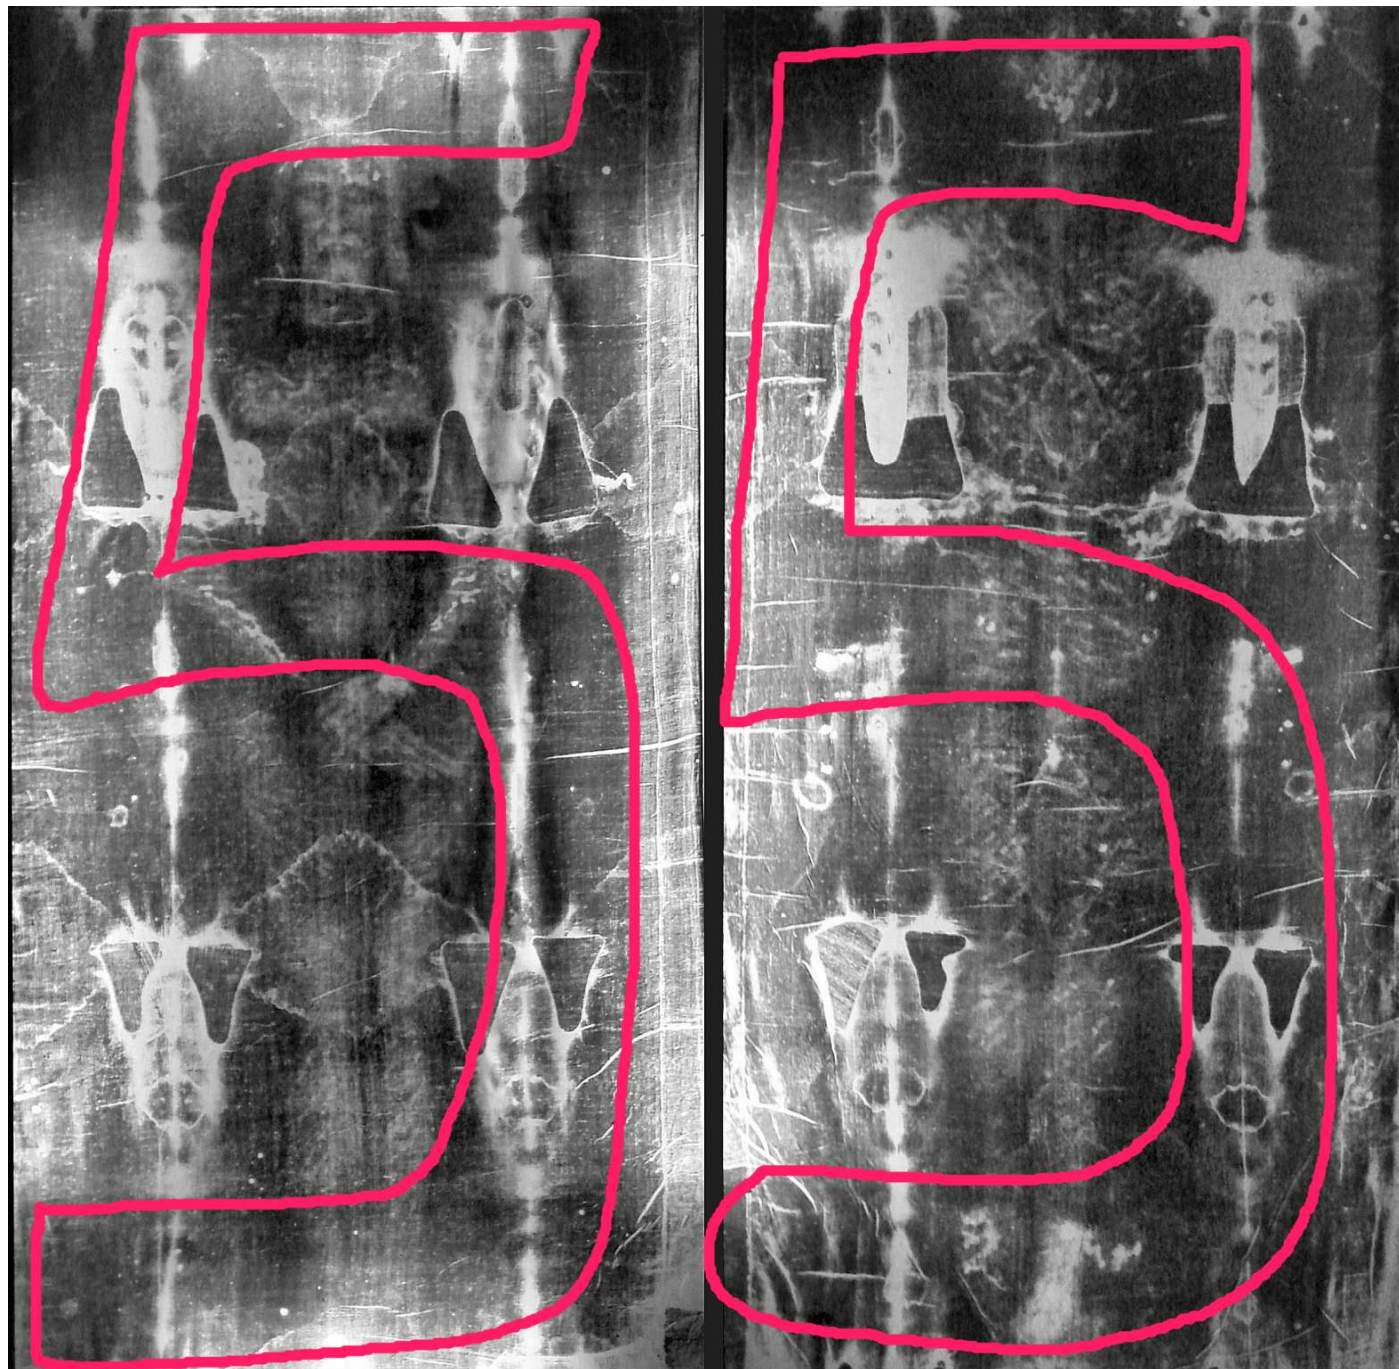

June 6th, the Julian OHW date, in The Shroud of Turin.

June 19th, the Gregorian OHW date, in The Shroud of Turin.

5/5, the Yin OHW date, in The Shroud of Turin.

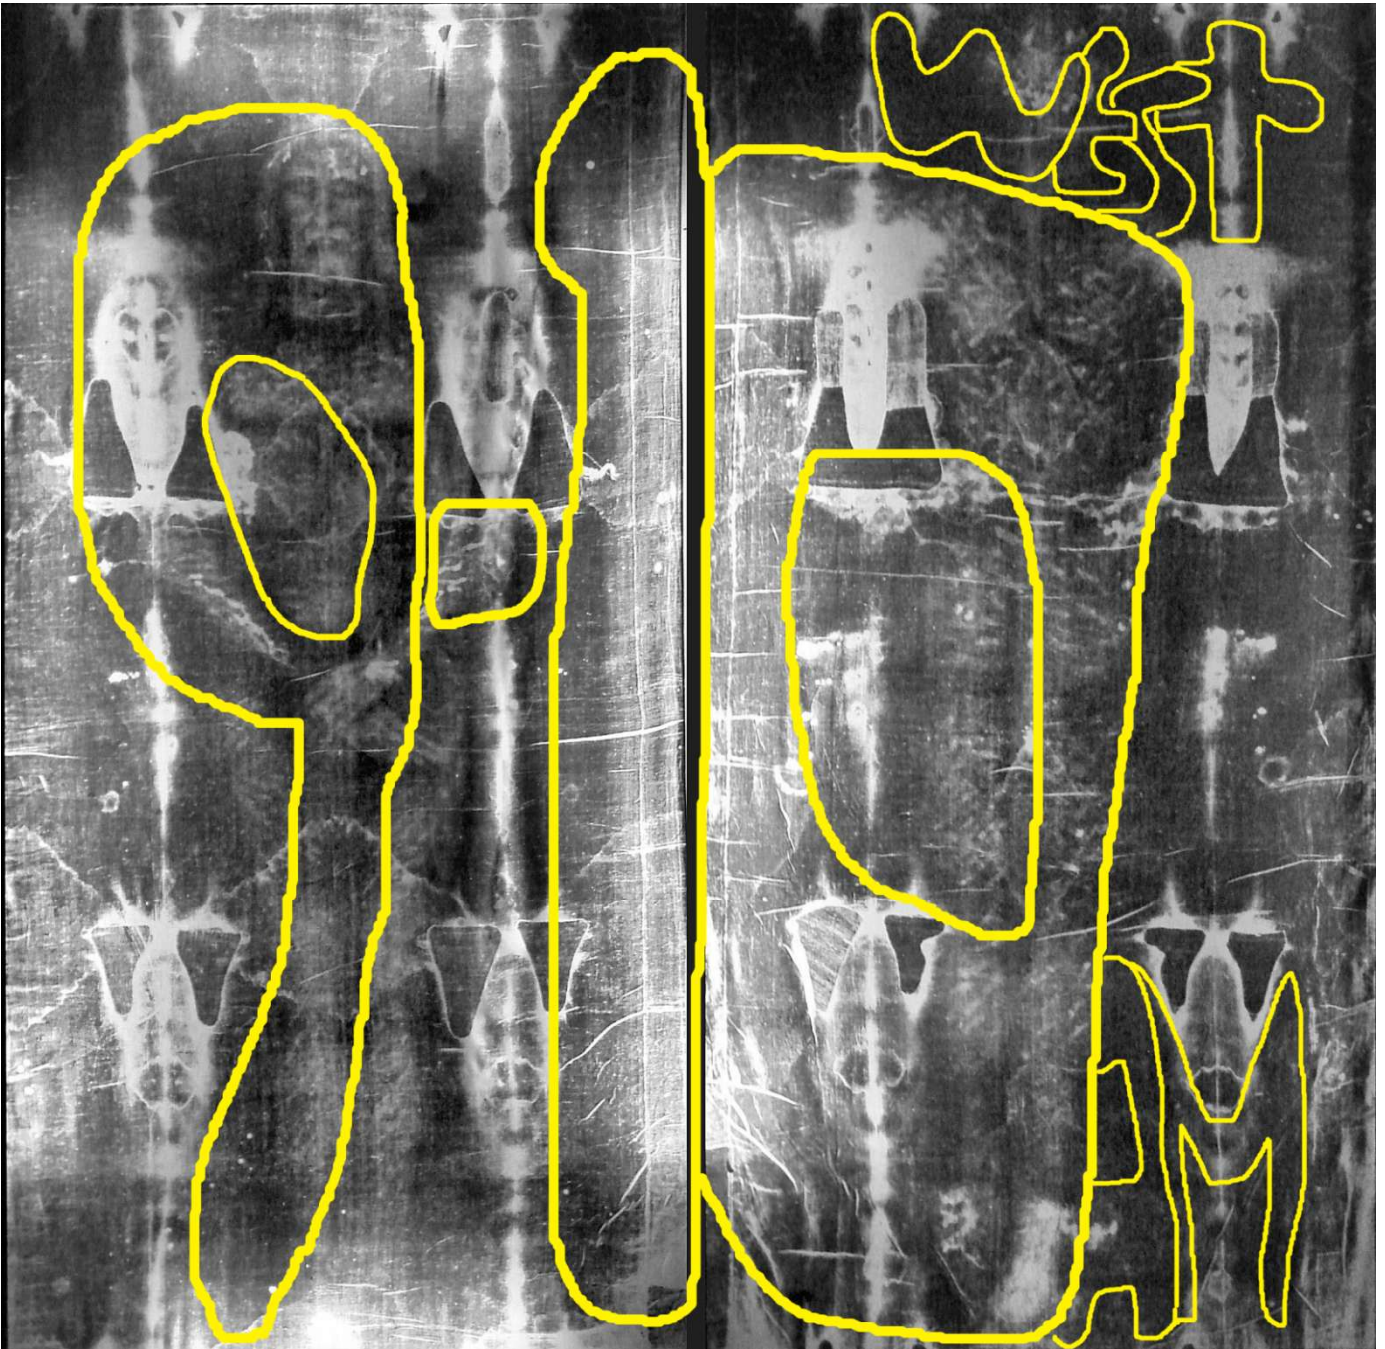

6/6/6, the Julian OHW date, again, in the Shroud of Turin.

Both, the Julian (June 6) and the Yin (5/5) OHW dates, in the Shroud of Turin.

Time

Above, the time the bombs begin to arrive on the US West Coast.
God gives the US West Coast priority, over the US East Coast, because the beasts (John W Gardner and John C Malone), who dictated US/Western policy and schemes, reigned from the US West Coast (the Stanford University campus).

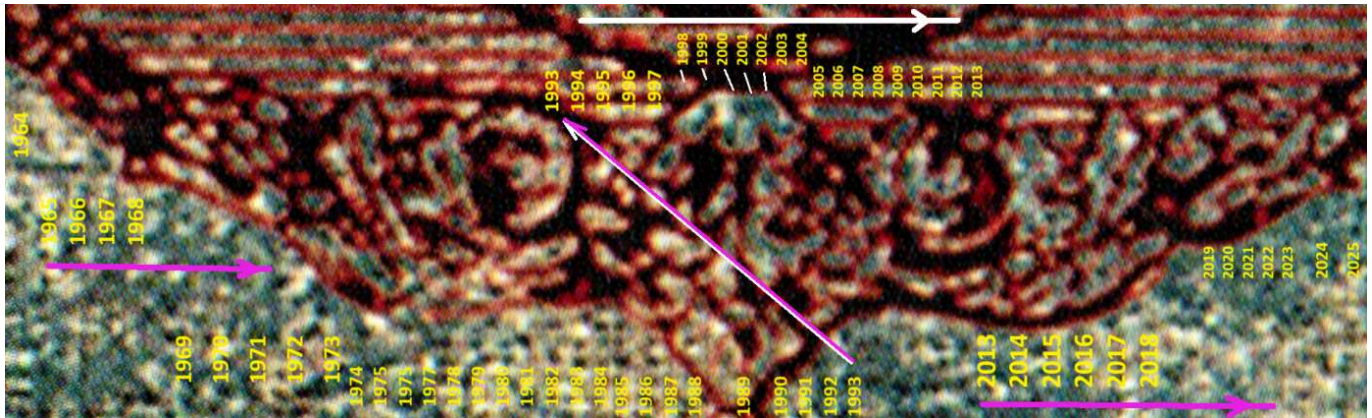

Above, the time in China, in the East, when the Eastern forces begin launching their bombs. These times are carried by Nuestra Señora de Guadalupe, and can only be found in the Shroud if the seeker first finds the OHW time in Nuestra Señora.

If you're familiar with my writing on the Elder Badge (*STSN, KG...*), you may recall me explaining that the primary purpose of the base area of the Elder Badge is to reveal people who have committed Mark Crimes against me. According to this guideline, at a glance, it may seem unlikely that I would find any such messages in the Elder Badge –unless you've read *The Wagers* or *STSN*, and recalled that God predicted I would solve His Revelation-related mysteries. Thus, if the beasts (John W Gardner, followed by John C Malone) and Satan tried to substantially discredit the Shroud of Turin as God's work (such as using falsified carbon dating reporting to discredit it), or if they tried to harm the Shroud or degrade the image (using a fake "restoration" procedure), those actions could make my job of finding information in the Shroud much harder, or impossible. Thus, Gardner's 1988 "carbon dating" of the Shroud, and Malone's 2002 *restoration*, would easily count as Mark Crimes against me.

The way the Elder Badge’s Unforgivable Crimes Timeline works is: (1) Unforgivable Crime events, or the names of Mark Crime violators, appear in the UC Timeline with the first letter of the perpetrator’s name, or the first letter of the event, positioned in the year that the Crime was committed; (2) to appear as a Mark Crime revelation, the crimes must have been committed between 1964 and 2025.

The 1988 carbon dating, and the 2002 “restoration” both comfortably fit in the Timeline guidelines. So, I checked the Timeline *Year Key*, to see approximately where the first letter of the Crimes should fall in the Elder Badge base Timeline.

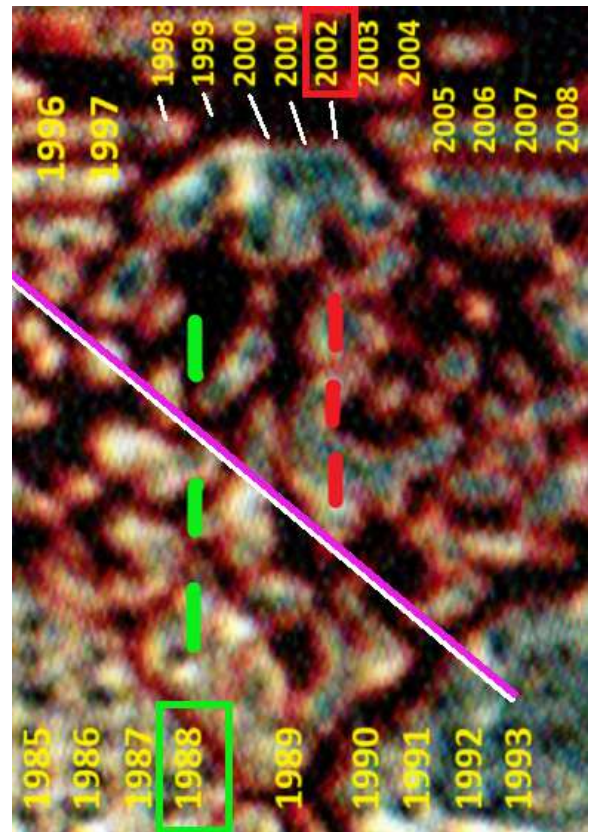

Above: The Elder Badge’s Unforgivable Crimes **Timeline and Year Key**.

As you can see, in the enlarged Timeline central display area, to the right, the year **1988** (in the green rectangle, at the bottom of the image) lands near the left shoulder of what appears to be a young man (walking with a young woman) in the central display area. And the year **2002** (in the red rectangle at the top of the image) falls near the right shoulder of the young woman in the central display area.

Thus, I checked the UC Timeline in these areas. On the following page, you’ll see what I found...

- To better understand the Timeline, see STSN, chapters 6 and 7.

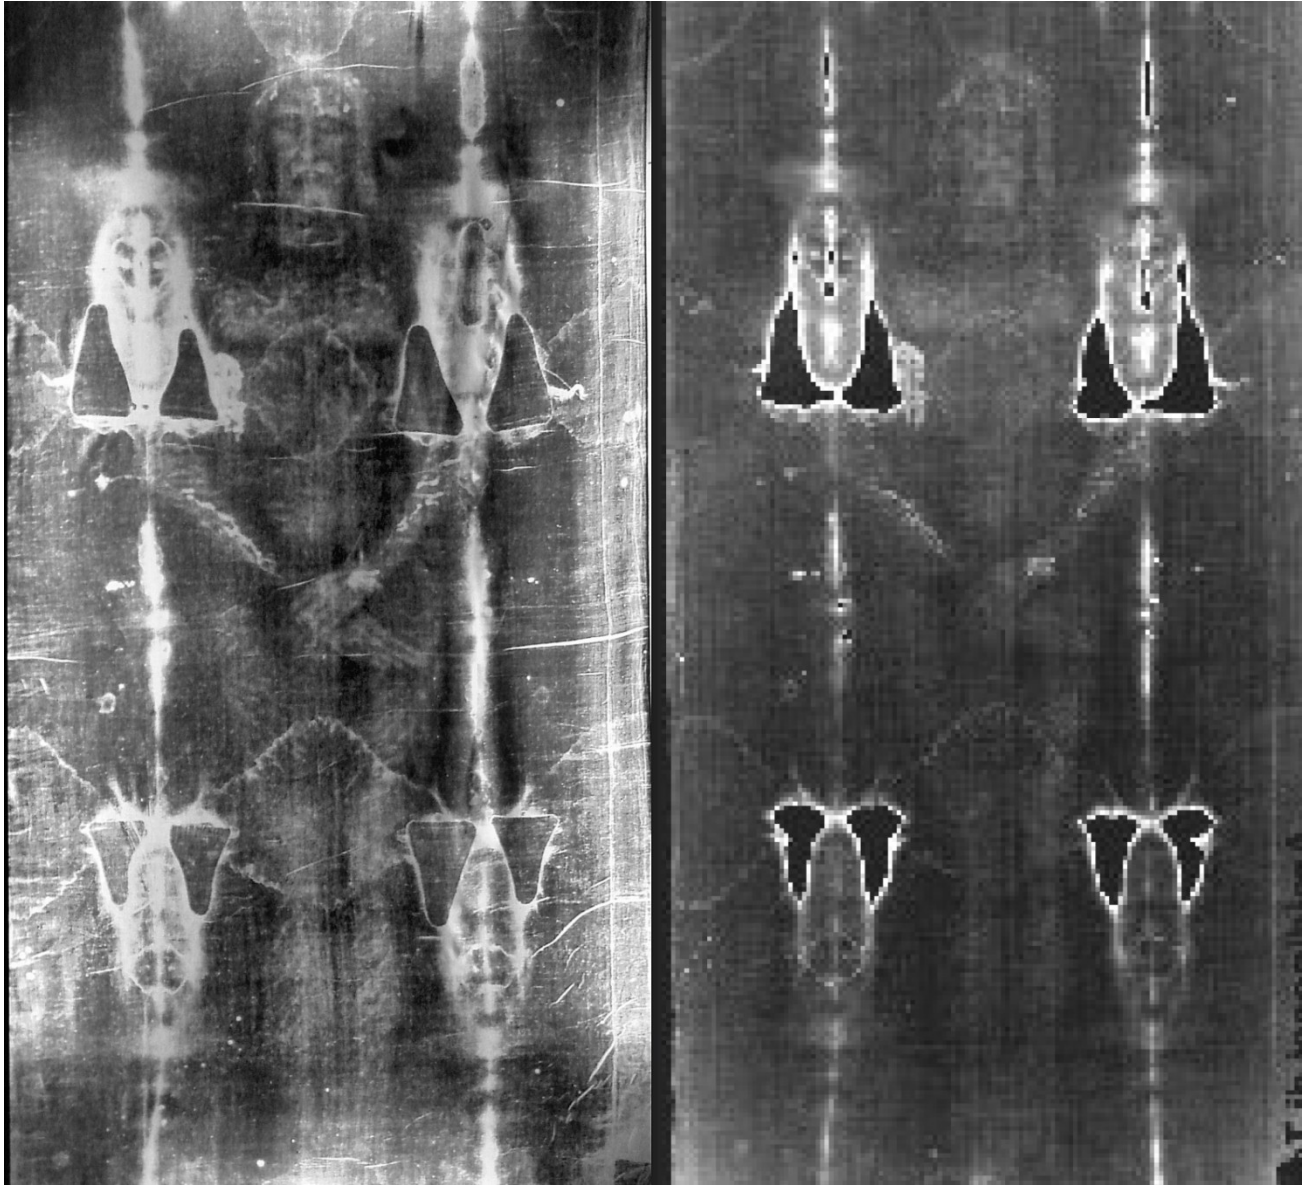

Above, "Shroud Carbon Dating" (with extra confirmation letters) appears in the 1988 position, and "The Restoration of the Shroud" (below) is positioned in 2002.

“Restorative” Destruction

Before the 2002 “Restoration”

After the 2002 “Restoration”

Hopefully you wonder *how much harm the Catholic Church did by “restoring” the Shroud?*

I tried to determine that. Above are frontal images of the Shroud, cropped and positioned for comparison, from before and after the restoration. The US/West disinformation machine has many fake, backdated shroud websites up –most of which did not identify when their images were created (I found only a small number of images available online). From the information available, the image I used, above, left, was taken in 1978. The image on the right is a very small, and low quality –but it is the only image I could find online identified as taken after the *restoration*.

So how bad is the “restorative” damage? Catastrophic. If I had to work from the image on the right, I would NOT have found the OHW dates.

The Year God Made the Shroud of Turin, #1

Above, I made this *tracing* about as large as possible, so you can see and follow the lines. Since human aptitude for this varies, I've included two variations of this tracing on the following two pages. Check them against the page 4 image.

- **Made in 77 A.D.** Thus, before Revelation was written, God knew His one Hour War date.
- The 77 at the top, below the *M*, and next to the *AD* in *MADE*, confirm the 77A.D. below.

The Year God Made the Shroud of Turin, #2

Follow the lines, and shade and color changes., and the curve of Jesus' face and forearms...

The West *only* lied about when the Shroud was created by about 1300 years. I think I first reported carbon dating as junk science, created to deceive, a couple years ago (an assertion now confirmed by God).

The Year God Made the Shroud of Turin, #3

People should also note that in the letters and numbers in these dates and messages, God adheres to the lettering guidelines he used in His Elder Badge base revelations (see STSN, chapter 2); thus, all *l*'s are dotted.

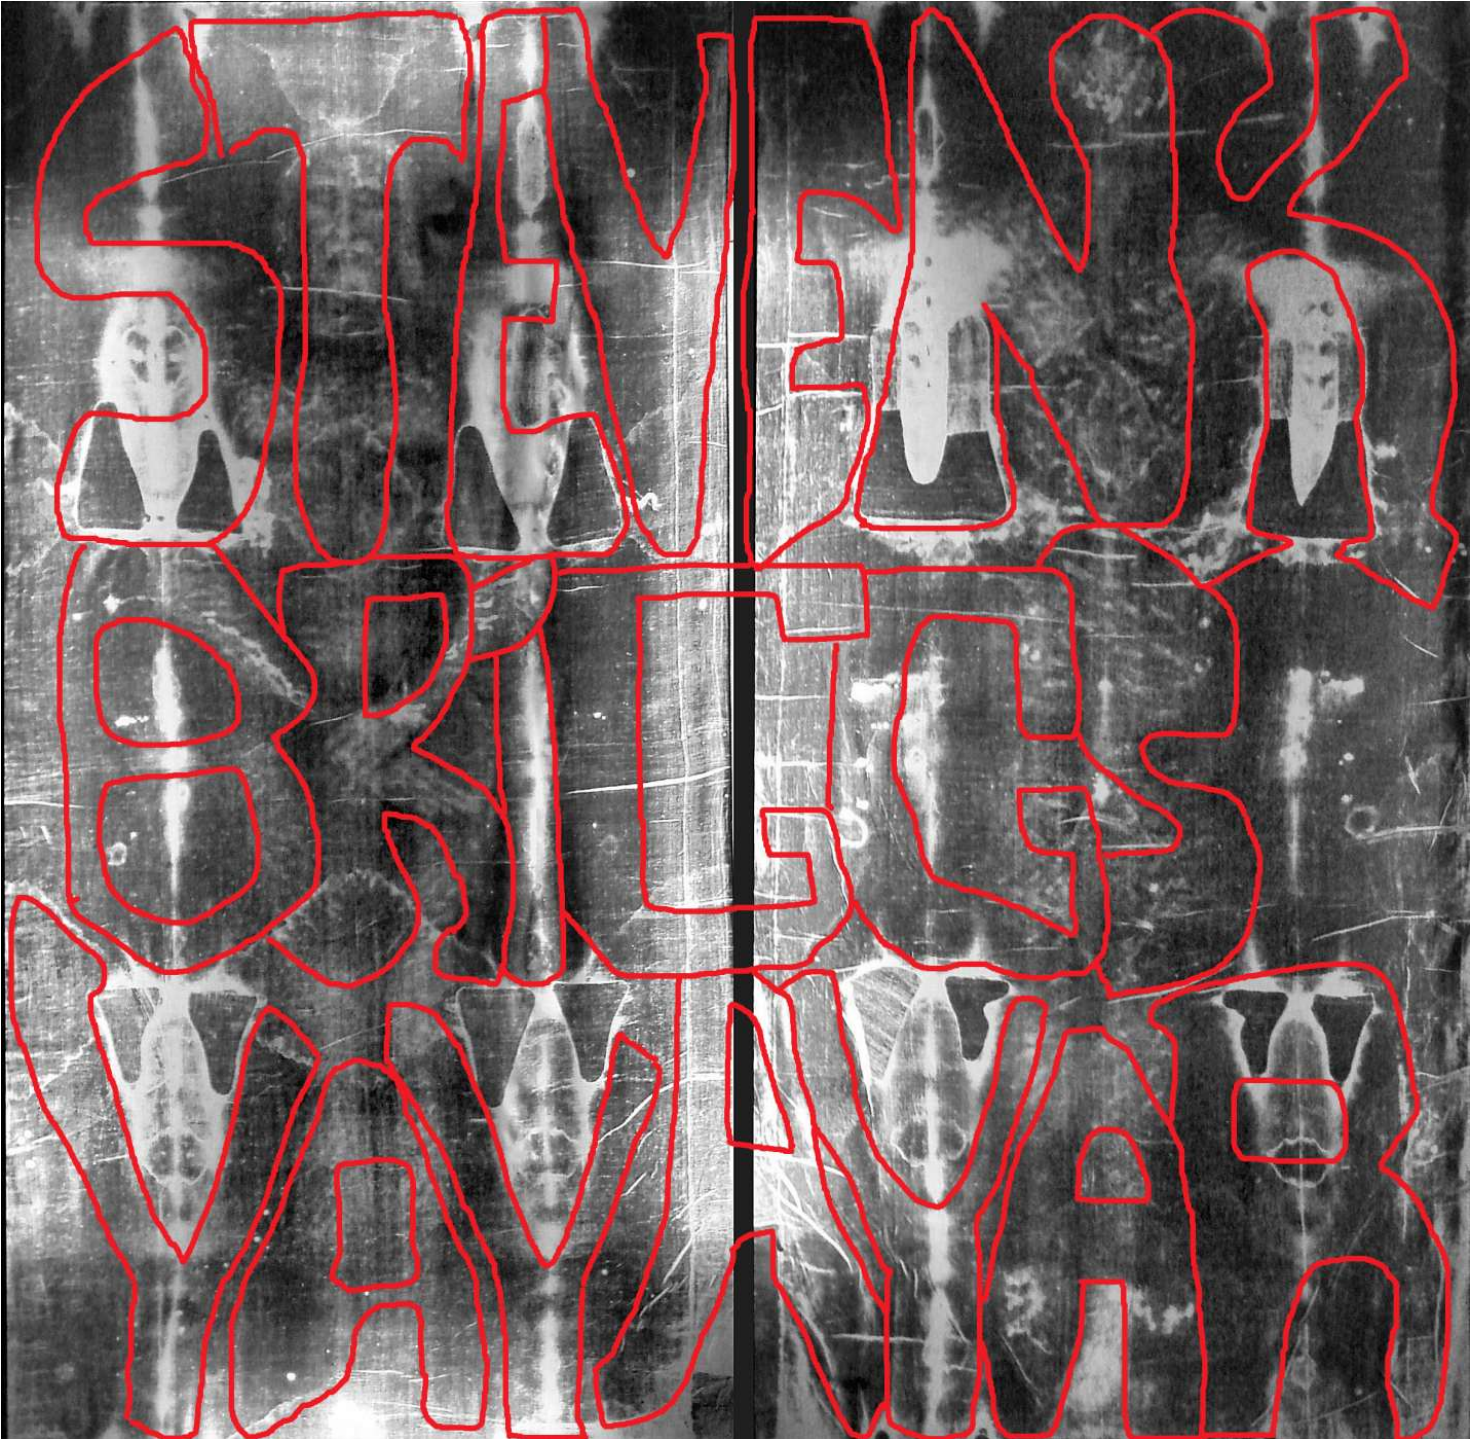

Codenames of God's Predicted Solver

God also included a few of His alternate names and codenames for me –four above the others.

God also identified me by my conventional name...

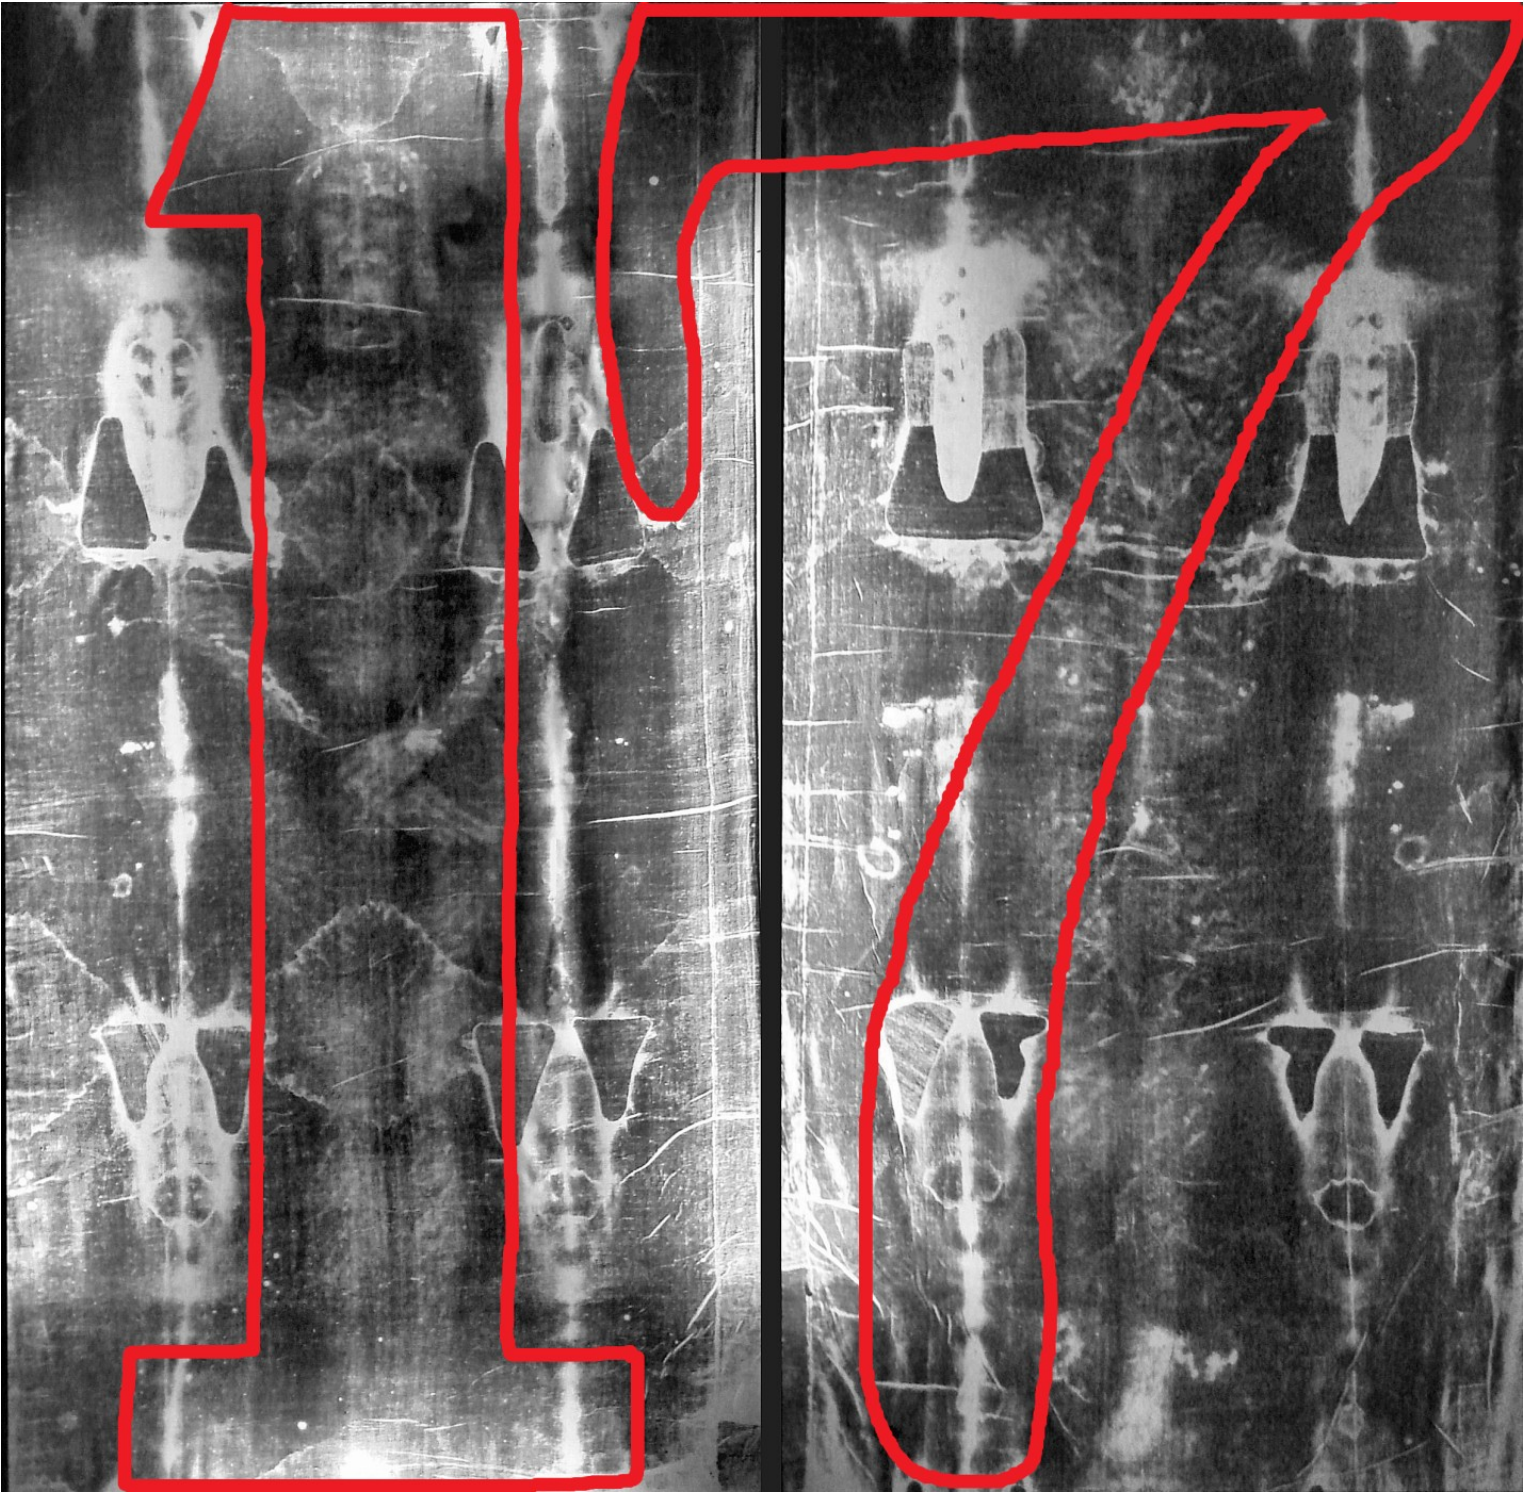

My Name

Above, God spells my full name (middle initial): Steve K Briggs Yayayar.
Yayayar is the name God revealed as my true family name, as I wrote and researched STSN.

Now for God's signatures...

God's Signature, #1

One and seven are God's secondary and primary numbers, respectively. Together, they form a representational full name.

God's Signature, #2

God's conventional signature.

Remember: try to be 50 miles or more from any large or mid-size cities on the date and hour of the OHW.

Date: **June 6th, 2026** (Julian); **June 19th, 2026** (Gregorian); **5th Month 5** (Yin, 4724).

TIME: The nuclear bombs will strike the US from about **9am to 10am US West Coast Time**,
and from about **12pm to 1pm US East Coast Time**.
