

The Deception Date

~~Re-Do~~

3-Do

Steve Kenyatta Briggs (Yayayar)

I spent 12 or 13 months hunting for the correct date of the colossal One Hour War (OWH), described in Revelation, Chapter 18. On the cusp of June and July 2024 (Gregorian), I finally hit the well coded and concealed date hidden in the Revelation text.

But that date was a tactical deception.

It took me another year and a half (well into December 2025) to find the true date and hour of God's OHW –hidden in The Shroud of Turin, and Nuestra Señora de Guadalupe.

But a year before I found the correct OHW date, back in December 2024, in *My Stepdad Was One of the Zodiac's Santa Rosa Hitchhiker Murderers*, I first published a theory that God coordinated to conceal his One Hour War, to prevent zealots from brutalizing non-believers and imposing harsh and stifling laws.

A little over a year later, between January and February 2026, in the days just after the true One Hour War, I first saw evidence that God did, in fact, intend to conceal the true date of the OHW, to protect non-believers and independents. And to pull this feat off, God secured the services of none-other-than Satan, himself.¹

In compliance with this plan, immediately after the OHW, Satan began to release AI images of the true OHW date and his *deception date*: the day that he would make the world believe the US was defeated and effectively destroyed in a nuclear war (WWIII). January 17th, 2026 (Greg), in a short article titled "Coming Soon," I first reported Satan's *deception date*: February 1st, 2026 (Gregorian).

But shortly before the deception event, in Satan's new AI fake images, he began to signal the word "delay" and "delayed".

Uncertain what the *delay* was about, when the *deception date* pass without any AI mass media nuclear war reports, I assumed the event must have been on the Julian calendar. So I absorbed the humiliation, and published new documents, declaring the deception would occur February 14th, Gregorian, and February 1st, Julian, 2026. But almost two weeks later, the Julian *deception date* passed quietly.

Meanwhile, ever-more delay messages appeared in the news (see my *Smoke Signals* report); until finally, on February 21st, 2026 (Greg), in *Black Flag*, I was able to report the new delayed *deception date*: March 5th, 2026 (Gregorian), and February 20th, 2026 (Julian).

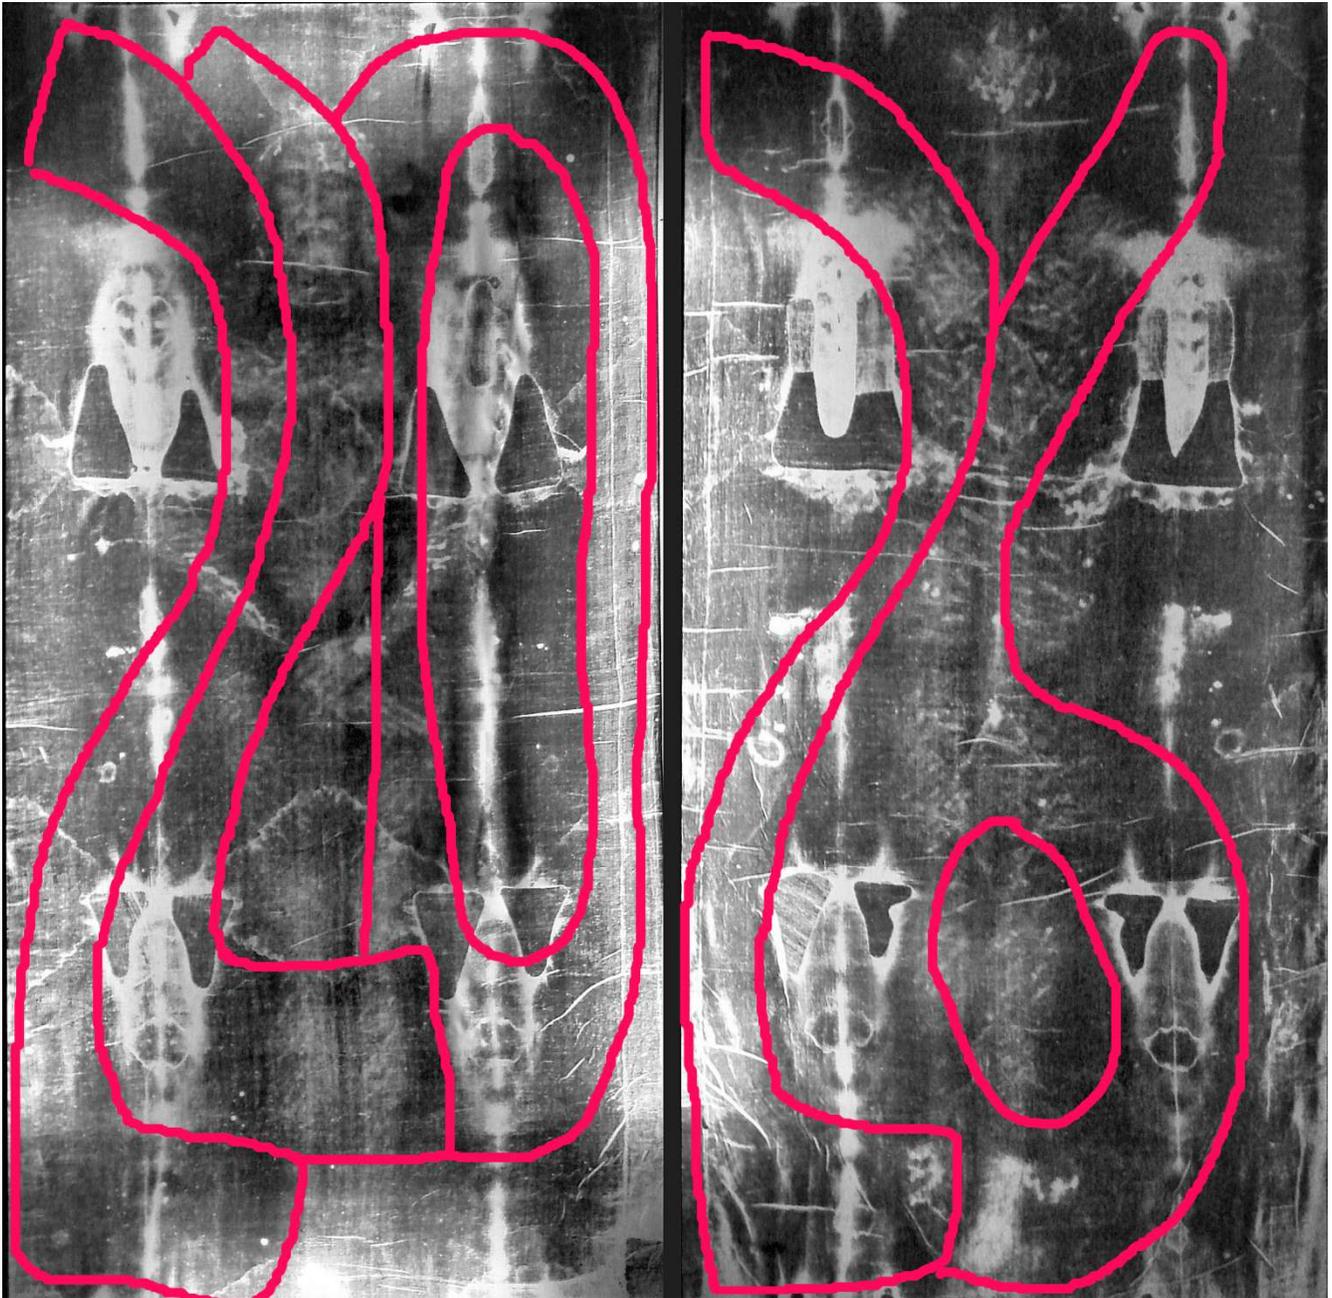

I have a couple theories about what caused the delay, but I'm not certain. For people who love truth, Satan is not a reliable source. So who knows if his *deception day* is real or a deception in itself?

The remainder of this book is images of Satan's deception dates, the original date and the new rescheduled or *delayed* date, hidden in *The Shroud of Turin*, and *Nuestra Señora de Guadalupe* –which prove God knew and predicted these event dates (which doesn't surprise believers), but it can also be reasoned the dates indicated God was in on the deception.
