January 8th, 2026 (Greg.), a day after I predicted and warned God's feared *One Hour War* (OHW) would occur, I found countless artificial intelligence (AI) produced fake images on the internet and TV news, here in Mexico. This caused me to spend most of January researching and writing articles (include "*The United States is Dead*," Jan 13th, 2026, Greg.), debunking the fakes –which concluded the US was effectively destroyed on January 7th, 2026, and Satan and Western elites were using AI produced news, sports and programming to create the impression the US was fine –long enough to transfer billions or trillions of US dollars into new currencies, before the dollar collapsed. Four days later (Jan 17th, 2026, Greg.), I published *Coming Soon*, which predicted that on February 1st, 2026 (Greg), the West and Satan planned to falsely allege the destruction of the US occurred that day (Feb 1st).

I named this report “The Last A.I. Fake Images,” because I was pressed for time, and hoped I wouldn’t need to write another report on AI fakes –and hopefully, by now, critical mass of the world understands how corrupt Western media elites are, and how dangerous their internet and TV programming are, and will stay far away from all AI.

I published the first version of this report on January 26th, 2026 (Greg). Before I share about 12 new AI images, let’s take a look at some of the more interesting AI fake news images I debunked earlier this month (Jan 2026, Greg.). This first set of images are from *The United States is Dead*. I’ll let the images do the talking.

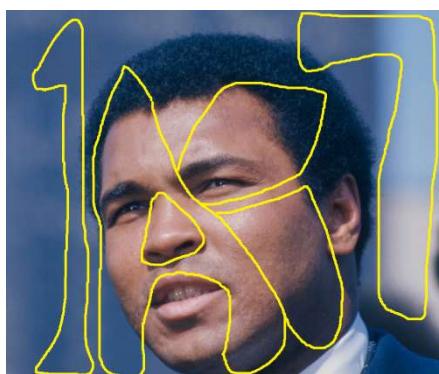

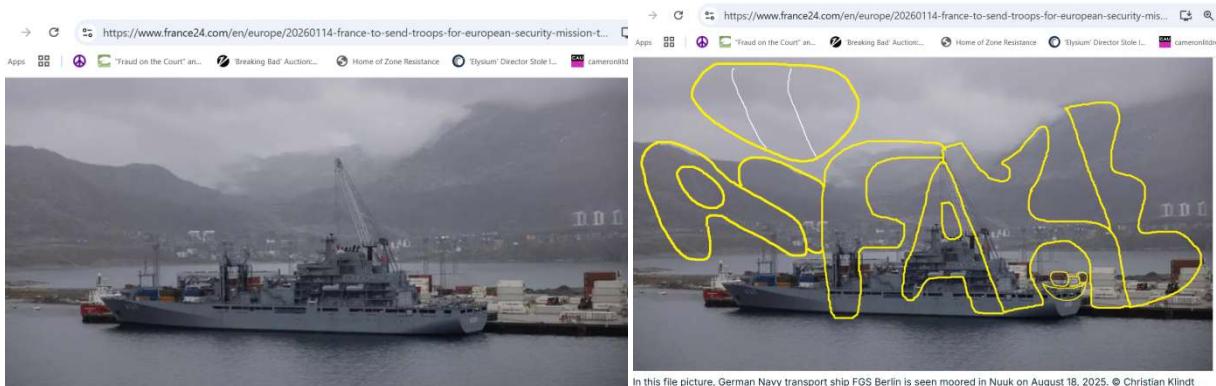

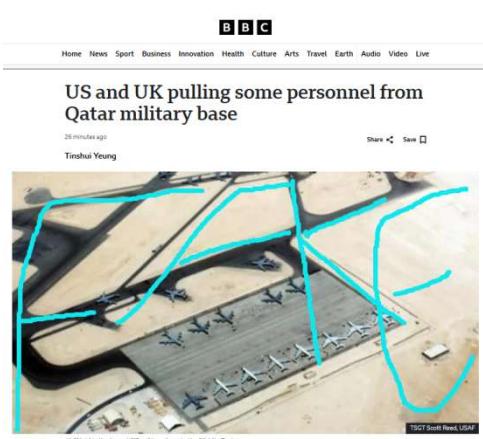

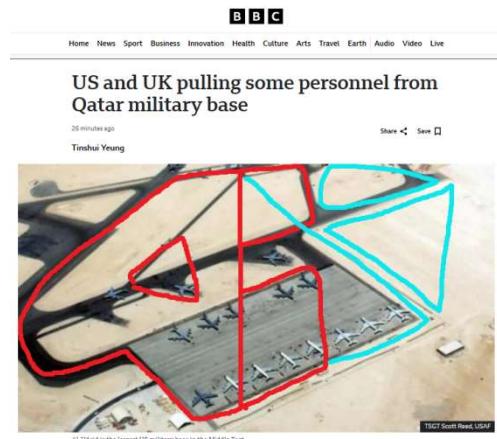

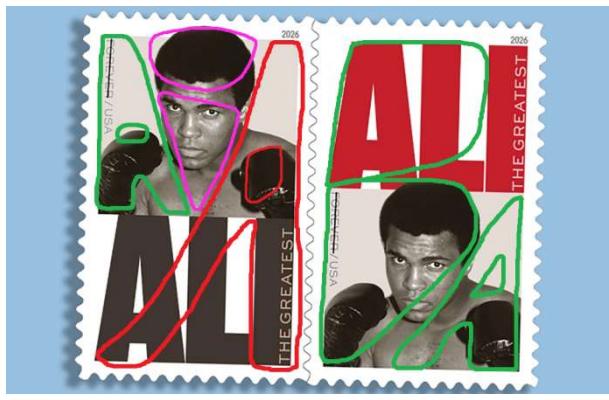

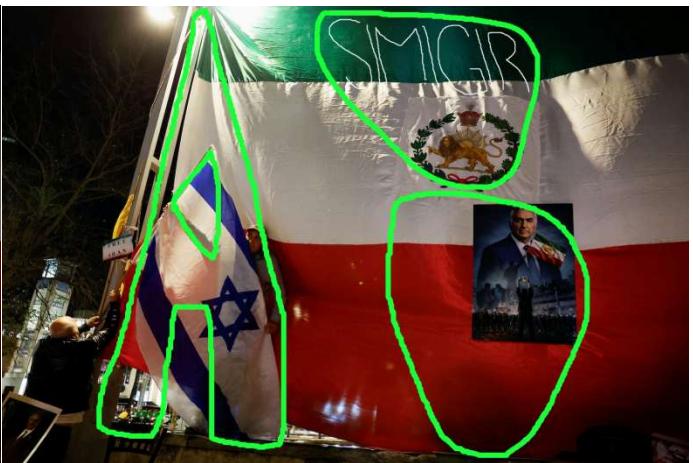

The United States is Dead uses the images on this page to help explain that God allowed a portion (half) of Satan's soul to reside on the internet -the US/West's internet -and likely the internet system of any nation that interfaces with the US/West's internet system.

Since some people prefer to read stories on the internet, and not from PDFs, I posted the following images on my website between around January 14th and January 25th, 2026 (Greg).

The New Images

After watching a few minutes of AI fake American playoff football, Sunday, January 25th, 2026 (Greg.), I went online (NFL.com and YouTube.com) and grabbed a few screenshots.

JSN looks like a glitch in the matrix with this INSANE catch

If you happened to record any of the games played after January 7th, 2026 (Greg.), go back and notice that the players' feet don't leave tracks in the grass or snow –scuffs only occur on tackles. The images above and to right are from the first frame of an NFL video posted on YouTube.

Can you see the hidden messages in the image below, posted on NFL.com?

In the Broncos Patriots fake IA game, I noticed the ball was sometimes black (above, left), and too small (above, right). Sorry I couldn't find a better quality images of this play.

I believe the messages in images #1, #2 and #4, hint at what US OHW survivors face.

I typed “AccuWeather” in my Google browser. The image to the right is one of the first search results returned.

[NOTE: ALL browsers currently available in the Western world and Western -allied world are deliberately corrupted -to lead you to the results Satan and his US elites want you to see.]

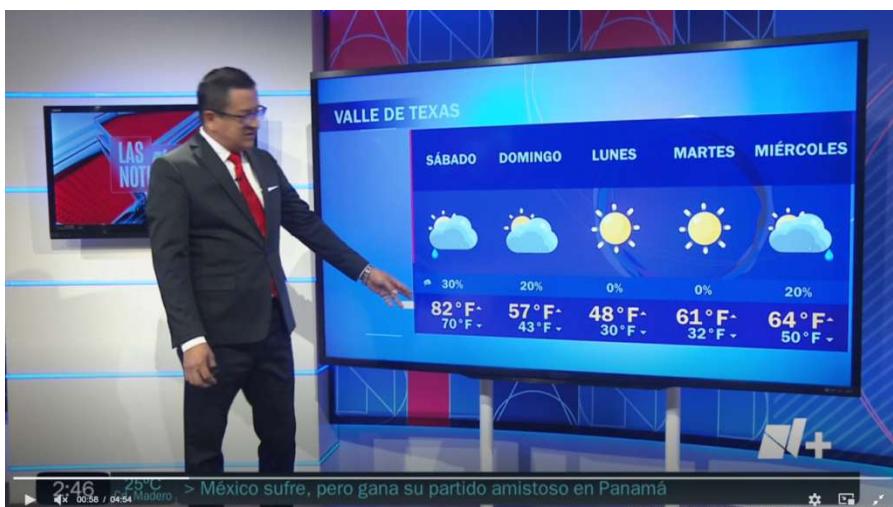

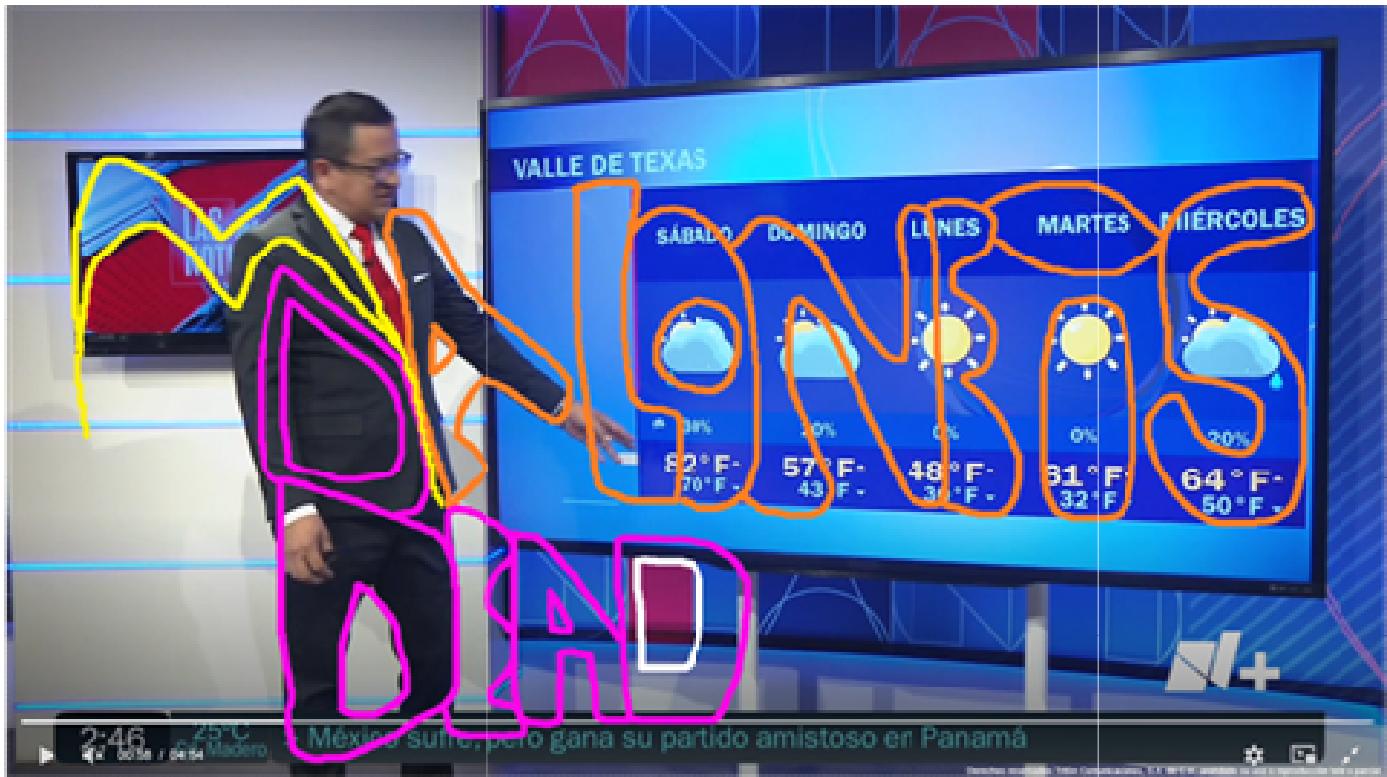

Above, Satan's simple but efficient (and helpful) messages.

No, we don't want Satan to control our TV, weather, satellite, and all other programming. But it is helpful that He is suddenly leaving some evidence of the fact that he controls virtually everything we see online, on TV and our cell phones....

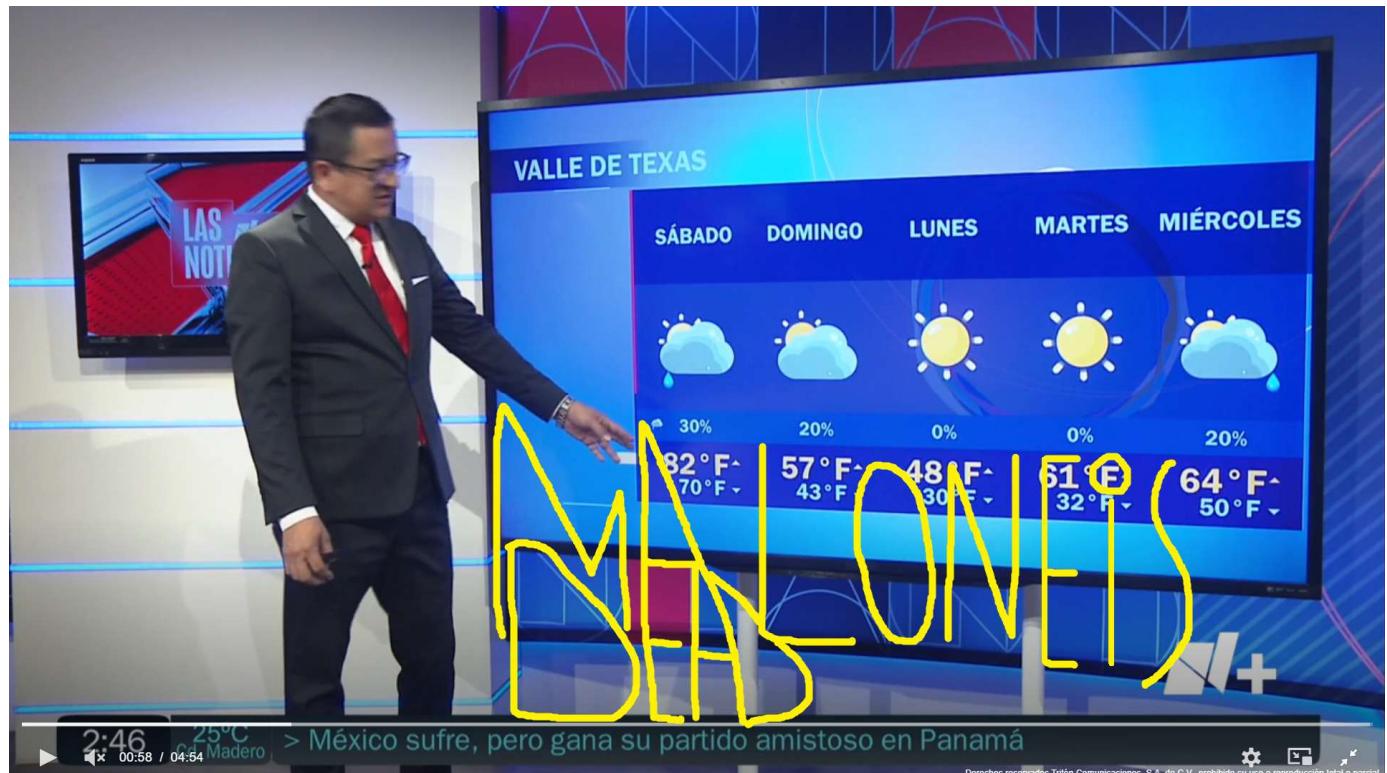

Below is a TV news report. See Satan's signature?

But there's more in this image than Satan's name. Turn the page...

Above, Satan uses the image to inform us that John C Malone is dead –killed in the One Hour War (January 7th, 2026, Gregorian). My *M* is not the best. The *double-D*'s are for confirmation. But Satan confirmed the entire message, in a second hidden message, pictured below.

Here's another AI fake satellite image (and not a good one). I tossed this one in as a space-filler.

The image below is an AI fake image, from around January 22nd, 2026 (Greg), about a store fire in Mexico.

Can you see any semi-obvious signs the image is an AI fake?
Turn the page...

The first pretty obvious sign of AI fakery is that the guy in the center-left of the image (above, left), crossing the street, has no head. To help us spot this, in the image on the right, above, Satan used the fake fire to hide a likeness of his face, staring at the headless guy. But there is another problem with the two central people in front of the store.

The problems are: (1) the guy on the left is composed of image segments (the image that forms his legs says “Rock,” short for *Rockefeller*), with a *Revelation R*; (2) the guy on the right has two heads (one non-White head, going forward; one White head, facing backward –which either means *going against nature*, or *devolving* –or both).

See any message in the image. The message is below: three Revelation R's on the left; on the right, Satan's name, intermingled with a big G (for *John W Gardner*) and a big M (for *John C Malone*). I'll explain this on the next page.

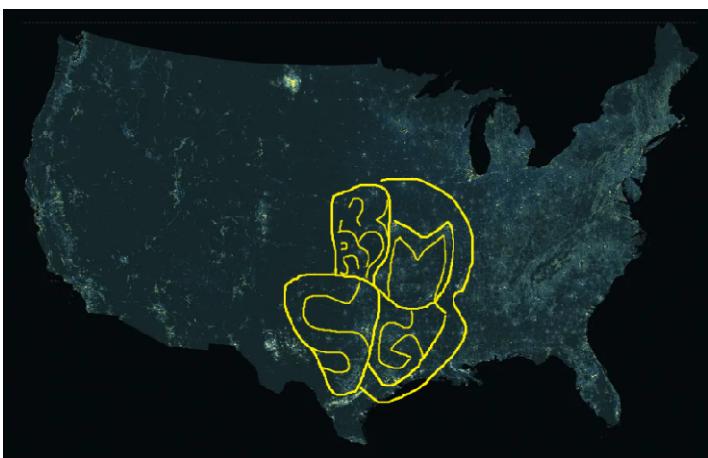

The previous image is a message, from Satan, to me. He is saying the three Rockefeller Brothers, John, David and Nelson (if recollection serves), are as responsible for the evil that Satan that Satan and his *beasts* (Gardner and Malone) executed and spread. Satan is directing this to me because, in the “Terms” section (chapter 17) of *Steve’s Top-Secret Notebook*, I took action that severely punishes Satan and Gardner (and possibly Malone) –but not as severely as they deserve. Satan appears to be angry the Rockefellers were not punished.

My response is this: In *Steve’s Top Secret Notebook*, I explain that God identified people who committed substantial -often unconscionable- Mark crimes against me, in the *base timeline* of the Elder Badge; and I am entitled to take substantial action against anyone who committed Mark Crimes against me. Although (1) I revealed John D Rockefeller III was originally selected to be the *Beast*, until God changed that, and although (2) I identified the Rockefellers as financing many of Satan and Gardner’s evil schemes, in the Elder base, I did not find the Rockefellers identified as people who took specific actions against me, personally. The Elder Badge revelations seem to go on forever. I’ll look again, when time permits. If they are identified, I’ll take action.

But Satan knows better. He’s bringing his issue to the wrong place. God and Jesus hold all criminal actors to account for every crime. But Satan seems to make a good point. The Rockefellers may have offered financial support for specific crimes. God and Jesus will hold the Rockefellers accountable to the degree they deserve. But Satan’s strongest argument for leniency is the fact that, against his knowledge, God used Satan to accelerate human evolution (not including the de-evolution of the West) and to greatly reduce the duration of an otherwise very lengthy period of human suffering.

To emphasize his point, in these fake satellite images, Satan prominently includes an *R* (Rockefeller), with the primary letters of his name (*S*), and Malone’s (*M*) and Gardner’s (*G*) names.

January 25th, 2026 (Gregorian), N-Foro (also called N-Mas, or N+) rebroadcast a segment about protests in Minneapolis (Minnesota, USA), which first aired on January 25th, 2026 (Greg). I found the video posted on N Foro's website, pictured below.

Crece Tensión en Minneapolis Tras Muerte de Alex Petti por Agentes de la Patrulla Fronteriza

I felt something was wrong with the image. I took me a few minutes to find the problem(s). See any signs of AI fraud in the image enlargement below? Solution on the next page.

The guy circled in pink, above, is the most obvious sign of flagrant AI fakery. His leg suddenly disappears in the video. The missing leg then creates a nice opportunity to create the crossbar of the letter *A*, of the abbreviation *A.I.*, as pictured below. The full message is “ALL DEAD. A.I.” With this, Satan seems to inform us that most people in Minneapolis are dead –killed in God’s hour of wrath, the One Hour War, January 7th, 2026 (Greg), and the people in the image are AI generated fakes.

On page #1 of “The United States is Dead” (Jan 13th, 2026, Greg) I explained why Satan and US elites might try to keep the world from learning of the fall of the US:

Background. This report begins on the following page, but it *really* began in 2024, when, based on my interpretations of *Revelation*, I predicted the US would fall on September 23rd, 2024. But the next day, all of the TV, news and media indicators showed the US was fine. Thus, a week or two later, in a series of blog articles, I speculated that it was conceivable that US elites (tech CEOs, high ranking Republicans, etc...), who knew my interpretations were accurate, could have used AI and aggregated data to manufacture false news stories, sports and entertainment, and produced false social media posts, texts, etc, to make it appear as if roughly 200-million Americans, who died in the One Hour War, were still alive –to project the appearance that the US was still fine.

They would have done all this to keep the US dollar from collapsing before they moved their wealth into new currencies and nations. To keep surviving US citizens unaware of what was happening, and keep them from interacting with the outside world, the elites would disconnect phone, internet and electrical services... These same articles explained that virtually all Central and South American cable, internet and satellite services (and likely phone services) ran through private US conduits. A stupid and dangerous course for any nation to pursue.

Although my fall 2024 prediction/declaration of America’s demise was premature, a certain Biblical villain was interested in the idea of a defeated and effectively dead nation staging its continued existence, from the grave.

Prediction: The US will stage its own nuclear destruction between now & early 2025. In fact the US was effectively destroyed Sept 23rd, 2024 (West).

See TheZoneResistance.com

And in “Coming Soon”, published a few days later, I explained Satan’s personal motive in trying to prevent the world from learning of the true date and hour of God’s wrath:

“... the U.S. was defeated and effectively destroyed in the One Hour War (of *Revelation*, Chapter 18), on **January 7th, 2026**, *Gregorian*, or December 25th, 2025, *Julian* (see *The United States is Dead*) –or, at least, I believe this to be true. However, surviving US/Western elites and Satan are using fake AI news and entertainment to create the impression, in parts of the Western hemisphere, that the US is fine –long enough to move many billions, possibly trillions of US dollars into new currencies, before the dollar collapses –leaving the final dollar holders in great debt. Satan and the elites hope to hide the truth until **February 1st, 2026** (Greg), when they will falsely allege the defeat and destruction of the US occurred. Satan’s motive in this is to make God’s One Hour War (OHW) prophecy appear inaccurate.

For Satan, the false OHW date, February 1st (**2/1**), represents Genesis 2:1: “***Thus the Heavens and the Earth, and all the host of them, were finished***”. On the Yin calendar, the false OHW date is 12th Month, 14 –the 369th day of Yin year 4723 (12, 14, 3, 6, 9 also have substantial meaning to Satan)...

Q: At this point, before Satan and the West’s announce the destruction and defeat of the US, when is it reasonable to suspect the US has actually been defeated, and Satan and US elites are using their international media control to dictate what nations that rely on Western tech believe?

Answer: If suddenly the US behaves vastly differently, and stops traveling abroad, and stops receiving visitors, etc, those would be strong indicators the US is gone.

Below is a legitimate article from February 4th, 2025 (Gregorian), less than a year ago. The article is about 10,000 Mexican National Guard members being deployed to the US border, to prevent immigration into the US. Shortly afterwards, ostentatiously, the US began deporting thousands of immigrants.

Mexico Launches Northern Border Operation with 10,000 National Guard Troops

The Northern Border Operation has begun. 10,000 National Guard (GN) and Army troops have been deployed to reinforce security on the country's northern border. Photo: Government of Mexico

Since 6:00 AM on Tuesday, February 4, the Mexican government has initiated the Northern Border Operation, deploying 10,000 members of the National Guard (GN) and the Army to reinforce security along the country's northern border.

This action is by the agreements made on Monday, February 3, between the Mexican and U.S. governments on security and trade issues, following a phone call between the presidents of both countries, during which it was also agreed to suspend the imposition of tariffs by the United States for one month.

In this regard, the [Secretary of Defense](#) prepared for the deployment of 10,000 National Guard and Army personnel. At 3:00 PM on February 3, a C-130 Hercules plane and a C-27J Spartan from the Mexican Air Force took off from the "Felipe Ángeles" International Airport heading to Campeche, while two Boeing 727 aircraft from the National Guard departed from Mexico City's Benito Juárez International Airport, destined for Mérida, Yucatán, and Cancún, Quintana Roo, respectively.

According to the Mexican government, the purpose of these flights was to transport 990 National Guard agents, starting at 12:00 AM on February 4 (Central Mexico time), to the cities of Tijuana, Baja California; Sonoyta, Sonora; and Matamoros, Tamaulipas.

Since January 7th, 2026 (Greg), I have not heard of the US deporting anyone. Rather, I have seen videos, humiliating AI fakes (see "*Fake Criminal Deportation Story & Fake AI Images*") of Mexico (and possibly other nations) sending criminals back to the US. In the past Trump deported foreign criminals, not imported. Further, the fact that suddenly thousands of flights to and from the US have been cancelled suggests the US is gone.

After their fake war date passes, former US elites appear poised to take over Mexico and possibly the rest of Central and South America. Currently you see these elites' invisible hands in action, if you watch the news. Now that America appears destroyed and defeated, suddenly many stories are running alleging Mexican citizens don't feel secure in Mexico –even though the murder rate is down around 40%, in the last year.

Mexico feels safe to me. Here in Hermosillo, the 17th largest city in Mexico, in over two years, I've never seen anyone who looks as if they fear for their safety; nor seen an altercation or a fight. The new elites might want people to feel afraid, so they can use the military and the police to establish a new order.

Media companies can get people to feel less secure at least two ways: (1) by falsely alleging people feel less secure (and maybe paying a corrupt data services to falsify data to support this), or (2) by constantly airing crime videos, staged or real. Currently, here in Mexico, N-Foro and ADN40 constantly air videos of petty crimes that would never be played on US national or state news. These videos make viewers feel as if crime is rampant.

As I updated this story on January 27th, 2026 (Greg), I found a report by Azteca Noticias –a Mexican TV news service, owned by Azteca TV- allegedly published a few months ago (Azteca and YouTube did not specify the airing date, so the story may be falsified), alleging people in Mexico feel less safe. Below is an image from that story.

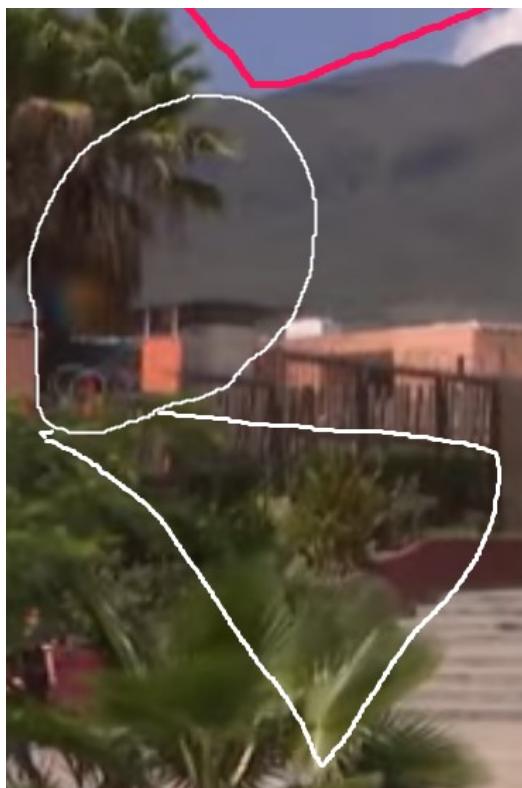

Can you see any deliberate signs of AI fraud in the image?

Next page...

The signs of AI fraud are everywhere, starting with the diamond shaped cloud formations. You also might notice, enlarged below, the oval shape and the triangular shape, with eyes and mouth (below, left), and the eyes in the sky (below, right, top), and the many scary faces in the bushes on the left (below, left, bottom –and the two men near the bushes, who are not men at all).

On January 26th, 2026 (Greg), N-Foro ran numerous stories about Mexicans feeling less secure, including the 97second video that the following two images were taken from. Part of Satan now resides online, and creates AI fakes. But, surprisingly, many of those fakes seem designed to expose improper Western practices. Here, Satan included the word “Archivo” in the upper left corner, on all of the images in the story. No credible current news story should be comprised of old archive footage. The new elites would welcome this move, to stoke public fear.

Can you see Satan's signature in the AI fake image above?

Next page...

Satan also tossed in the image below: Satan, and his semi-rectangular head (first revealed to us by God -see *Steve's Top-Secret Notebook*). The objects around him make him look like a pilot, or a singer. Satan is saying he was watched me here in Mexico, and reported back to Malone. He may also be saying he was once a singer or musician, like me, far in the past, before he chose to wage War against God.

There are exactly 2,800 words in this report.
