

The

Wagers

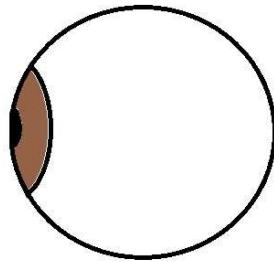

IMAGE EDITED

Steven Kenyatta Briggs

The Wagers

A wager is an agreement that if one or more persons in that agreement does or does not do something, etc, another party(s) to the agreement receives or loses something, etc.

A common store purchase is a form of agreement.

In Ezekiel, Chapter 28 (and Isaiah 14:12) we learn Lucifer (Satan) was once one of the highest ranking angels, but became obsessed with trading and profiting, and somehow exalting himself above God.

Trades are also agreements.

In Job we see God and Satan enter into two legendary wagers.

In Matthew, Chapter 4, we see God make a new wager with Satan; allowing him to test God's own Son –*after* Jesus is physically weakened by a 40-day fast. The agreement is discretely mentioned in Matthew 4:1:

Then Jesus was led up by *the Spirit*, into the wilderness, to be tempted by the Devil.

Although we don't know what God offered Satan in that agreement, we can assume Satan was satisfied with the exchange.

Because many events prophesied in Revelation chapters 13 to 18 were previously prophesied in Books like Isaiah and Ezekiel, it's possible that Satan wagered that God **could not** (1) write a book of prophecy that could not be solved for 2000 years, and (2) predict exactly who would solve it. Satan's motivation in such a wager would be to read the book and be responsible for promulgating the sins that most offend God –and to try to undo the prophecy.

While writing *My Stepdad Was One of the Zodiac's Santa Rosa Hitchhiker Murderers*, I first realized God and Satan must have made one or more major

modern-era Wagers –which involved human agents. The initial evidence of this Wager was that John W Gardner -the Beast- was consistently able to predict events years before they happened. This is not humanly possible.

Spring 2025, a month or two after completing the first edition of *Killing Guadalupe*, I found evidence of 8 modern-era Wagers related to either the Book of *Revelation* and/or the story of Guadalupe and/or *Nuestra Señora de Guadalupe*!

These 8 Wagers transpire between 1751 and 2024 or mid-2025.

The Wager story involves God, Satan, and 4 unusual numbers, related to the wagers, which God chose: **68.5, 137, 205.5 and 274**. These numbers represent numbers of years: 68.5 years, 137 years, 205.5 years, 274 years. Each of these numbers is a multiple of 68.5.

This story also involves 9 key years connected to 9 key events related to the story of Guadalupe and *Nuestra Señora*. These 9 key event dates years are: **1531** (the starting point, initiated by God's creation of *Nuestra Señora de Guadalupe*), **1668, 1709, 1751, 1787, 1820, 1888, 2000, 2025**.

These 9 key *Nuestra* event dates correspond to 9 key dates related to the Wager. The 9 corresponding Wager dates are each confirmed by the following:

- a. They occur 68.5, 137, 205.5, or 274 years after one of the key events related to the story of Guadalupe and/or *Nuestra Señora*; and
- b. They are situated in years referred to in *Revelation*, chapters 11, 13, 14 or 18.

There are also 9 corresponding key *Revelation event* dates/years: **1777, 1820, 1914, 1924, 1957, 1983, 1993, 2000, 2024**. These dates coincide with events and developments in US and Western history and the TV, film and internet industries (the events are named on page 17).

If you wonder what *Revelation* has to do with *Nuestra Señora de Guadalupe*: *Revelation* is heavily referenced in images hidden in the *Juan Diego badge*, the rightmost of two badges (right) which appeared on *Nuestra Señora* in 1777, and again in 1820 –after the original badges were removed around 1786 or 1787. The other badge is the *Elder* badge. Both badges were kept out of public view until October 2000, and were not explained or examined –until I enlarged, examined and named them, in *Killing Guadalupe*, March 2025.

Background

Satan first appears in Genesis 3:1, in the Garden of Eden, the *serpent*.

In Revelation 12:3-12 we learn Satan was cast down to Earth, and his angels with him, after some sort of conflict in Heaven. Chapter 12 creates a sense that quite a few angels were cast out with Satan. From this we can guess things were happening in Heaven that some angels were not happy about. Biblical evidence suggests it may have been hard to advance into the angels' upper ranks. Some angels may have been upset about this. Satan likely manipulated this –to get the angels to turn to him, rather than God and Jesus. Satan may have advised upper-ranked angels to tell the lower ranks that God and Jesus are unjust, or some similar false accusation. When this imploded, Satan declared war on God, and he and his former angels were banished to Earth, where Satan's war continues.

God reveals He allows some entities to move out of his *mind-sight*, unmonitored, in Job 1:7 and 2:2, where God asks Satan, "From where do you come?"

My take on the evidence is: God first challenged Satan to a wager in 2222 BC: this was the first *Job* wager (Job, Chapter 1). The modern wagers can be traced back to 2222, from 1531, using the 68.5 year and 137 intervals. But God and Satan ventured off of that timeline between 1709 and 1751 –but continued to use 68.5 and 137 years as the primary wager base time unit.

At some point, it appears God gave Satan, or allowed Satan to earn via wagers, the ability to see all people and events 137 years into the future. Satan, of course, agreed, but insisted the number of years be 136.9, and the number of days be 50,005 (34 days short of 137 years).

I discovered the 68.5, 137-year base wager intervals by analyzing the distance between major events in the Guadalupean/Nuestra history. Nuestra Señora appeared in early December 1531. The next provable Nuestra event occurs in 1666, the initiation of the *Informaciones Juridicas de 1666*, undone by Pope Alexander VII dying in 1667, and Pope Clement IX opposing the *Informaciones* in 1668 –137 years later. In 1751 the first examination of Nuestra occurred; 137 years later, 1888, Nuestra's crown was stolen, and the Vatican released the corrupted *Informaciones de 1666*; 137 years later, 2025, is revealed as the replacement *Event* date of God's *One Hour War*, symbolically communicated in *Nuestra Señora de Guadalupe*.

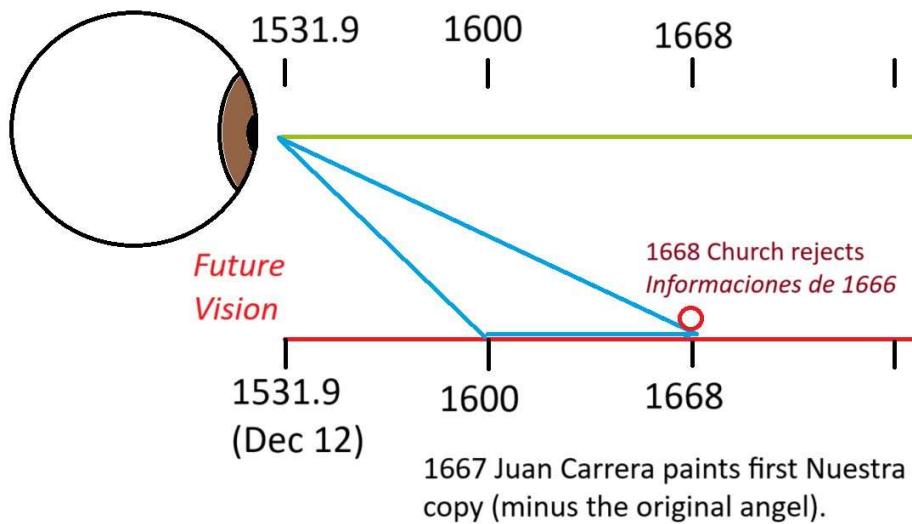

Satan and his allies, not surprisingly, appear to violate the wager terms/rules a lot. God usually allows the wager to continue. But if Satan's transgressions are too extreme God will impose firm consequences. In fact, in this story, God, imposes such a firm and incredible consequence that it may have delayed His own prophecy.

THE TIMELINE BEGINS...

Circa 1520 to 1530, God imposed punishment on Satan, for using the West to commit extreme crimes against man and God. For a punishment, God cut Satan's *future vision* in half. Satan had been able to see all event 136.9 years (50,005 days) into the future, but with the vision reduction, Satan had a *blind spot* of events less than **68.5** years away, but could see all events from 68.5 years to 137 years away.

Late December 1531, crowds gathered in the new chapel on Tepeyac Hill, to see *Nuestra Señora de Guadalupe*. Satan was quickly drawn to the commotion. And soon the first modern *Guadalupean/Revelation* Wager was made.

WAGER #1: The Blind Spot Wager

Invisible among the many visitors, marveling at *Nuestra Señora*, Satan plotted. At that moment God's voice entered Satan's mind,

"Hey, Satan, would you like to wager an exchange for the other half of the future vision?"

Satan leaped at the chance.

Satan looked forward and saw that in 1666 Francisco de Siles would launch the *Informaciones de 1666*, but in 1667 Pope Alexander VII would die, and Pope Clement IX (very willing to moderate his views for money) would take office. Thus, Satan spoke, "Nuestra Señora is all the talk here in the Capital of New Spain, Lord. But, I'll wager you that I -with my new Western publishing companies- can keep the rest of the West, everyone outside of New Spain, totally unaware of *Nuestra Señora de Guadalupe*, for 137 years! And after that I'll have my guys begin desecrating *Nuestra Señora*."

God accepted the challenge.

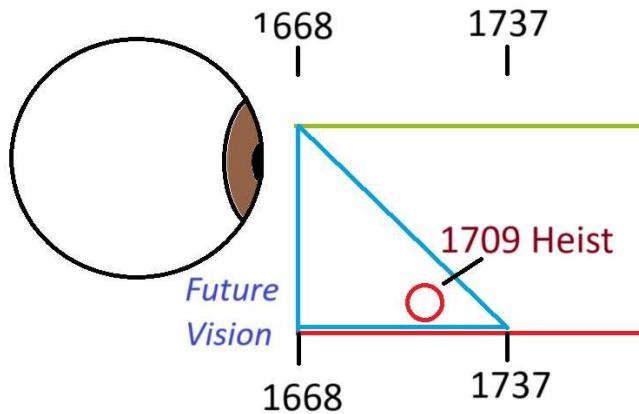

But in an unusual move, now that Satan controlled the West's publishing companies, God required Satan to publish details, confessions, of the West's actions related to the wager, taken at Satan's behest. As Satan hated the truth and oversight, God allowed Satan ample room for evasion and subterfuge, but required at least some *word-play* allusions to the truth in these confessions.

1668. 137 years after the initiation of the Blind Spot Wager, Pope Clement IX denied the *Informaciones de 1666*. Thus, nothing would be publically published about Nuestra for an indefinite period of time (the *Informaciones* would not be published for another 221 years).

Satan won the *Blind Spot Wager*.

Unfortunately for Satan, eager to have full 137-year future vision again, God explained that He said He would wager *an exchange for the other half of the future vision*; by this God meant that Satan would exchange his blind spot vision for regular future vision –with a 68.5 year vision limit. With no alternative, Satan accepted the standard but limited future vision. From 1668, with half of his future vision (68.5 years), Satan could see to around 1736 or 1737.

#2: Short-Sighted Wager

Now standing in 1668, God asked Satan if he had any wager ideas.

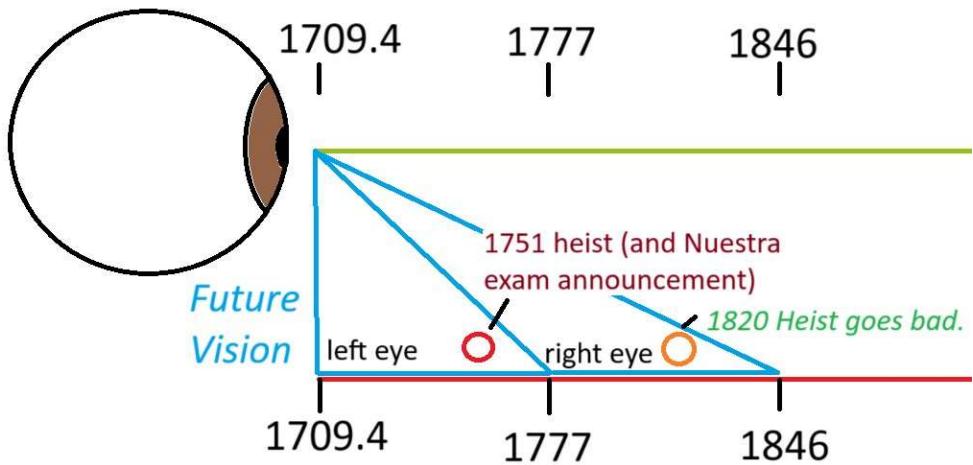

Satan looked out over the future, then answered, "The leaders of Your Church do and say what I pay them to do and say. The leaders of this very Church, home to Nuestra Señora, will give me access to steal **half** of Nuestra Señora, and replaced the parts of divine origin with vastly inferior human produced parts. And even if a member of the public notices, no one will believe them, and no one will report it –because we have newspapers now, and my people run them. I even have people in your Church publishing houses!"

God approved the wager.

1709. After years of planning, in 1709, a team of art thieves and art forgers stole approximately half of Nuestra Señora, including her face and hands, and replaced the stolen sections with a fraudulent canvas sections, painted by human forgers. The Heist was not completed until Nuestra moved into the original Basilica de Guadalupe, where the very inferior human artwork was obscured by the stained glass lighting.

Satan won the *Short-Sighted Wager*.

#3: 42/26 Near and Far Double-Vision Wager

In 1709, immediately after Satan won the Short-Sighted Wager, God restored Satan's 137-year future vision –except, just for fun, God put 0-to-68.5-year future vision in Satan's left eye, but put 68.5-to-137-year future-vision in his right eye.

God then asked Satan if he had any interesting wager ideas.

As Satan's eyes adjusted eyes to the unusual view of the future, he noticed the best opportunities for crimes-against-God were symmetrical –both **42** years from the near boundary, but **26** years from the far boundary. In his left eye, in 1751, 42 years from the near boundary, but **26** years from the far boundary (1777), Satan saw a perfect chance to steal the second half of Nuestra Señora. And in the right eye, in 1820, 42 years from the near boundary (1777, November 29th), and 26 years from the far boundary, 1846, Satan saw a Nuestra heist that goes bad –which was still good, because the crime very much offended God. Satan decided not to tell God about the heist that goes bad –although God was quite aware.

Satan replied, "I sure do have a wager idea! With my full future vision restored, and with my publishers of newspapers and books, and insiders of your Church aligned with me, I can steal all that remains of Nuestra Señora by mid 1751. THEN, I can publish details that practically declare Nuestra Señora has been stolen,

as my publishers describe all the changes that have occurred to Nuestra, and absurdly insinuate the previous writers and archivists had the details wrong. And all of the dumb Western readers will nod along, like lemmings.

God clarified, "Satan, you may steal all that remains of Nuestra Señora de Guadalupe, if you can –EXCEPT, at no point in any of our wagers are you allowed to steal Nuestra Señora de Guadalupe's crown or her Moon."

Satan agreed not to steal Nuestra's Moon or crown.

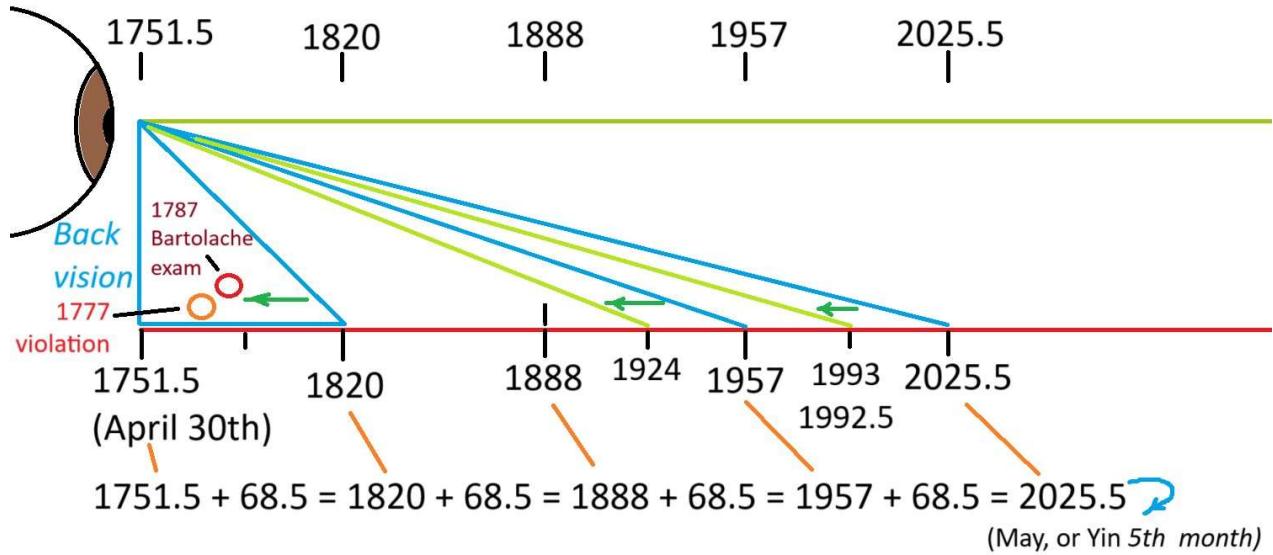

God approved the wager.

1751. April 30th, 1751, various new publishers announced that a team of artists, led by Jose de Ibarra, and featuring Jose de Alcibar and Miguel Cabrera, would lead an examination of Nuestra Señora. This was the beginning of the theft, and sideways public confession. In 1556, Miguel Cabrera published a pamphlet called *Marvilla Americana*, for the exam team, which effectively stated that all previous witnesses and archivists of Nuestra Señora got their facts wrong. Cabrera went on to describe all of the many astonishing changes to Nuestra Señora. And no one questioned this absurdity.

Satan won the *Double Trouble Wager*.

The Challenge Wagers

#4: 3-Eyed 33-Year Backward Vision Wager

God knows all of our individual natures –including Satan's. As the wagers advanced to the *coming of the Beast*, God knew Satan would grow increasingly defiant and dangerous, more inclined to do something to drastically disrupts the intended order. Thus, God needed to create 1 or 2 secret return points, to return to,

and make new wagers with Satan, in the event that he drastically altered the future.

Accordingly, in 1777, to create a return point -and to hide a major wager violation- scheduled to occur in 1777 (after God affixed the Juan Diego badge and the Elder badge to Nuestra Señora), God made a wager with Satan that gave Satan God's ability to move backward in time.

Satan was overjoyed.

God explained, "**Look forward.**"

Satan complied.

"You can see backwards in time from three points in time, 1820, 1957 and 2025.5 -May. Two of those positions are beyond the Revelation wall, where we will soon start our Great Revelation Wager, and where you may earn one or two more unique powers, but you may also have a bit less future vision. So, pay attention to what you see."

Satan listened attentively.

"I created you -and everyone else- even if you choose use all that I give you against Me. Even now, I hope you reverse your ways. So, this wager is a challenge: If you can go 33 years, in reverse, without committing a wager violation, I will grant one of your Revelation wager requests, when we finally get to 1888.

"33 years without cheating on any of 3 timelines! Me?! That's impossible!! You just want me to fail!!"

"You were a Cherub. You can do this. For motivation, I'll reveal 3 secrets, which you will see, separately, in the final year of each of your 3 visual lines."

Satan listened, engrossed.

"First, at the end of the furthest line, coming back from 2025, in the final reverse year, 1993, if you are sharp, you will see My Revelation solver, at 28 years old, in his prime. Second, in the middle line, if you are sharp, in the final year, 1924, you will see the Beast, your minion herald, at 18 years of age. And in the final line, the near line, walking back from 1820, you will orchestrate the findings of an examination of Nuestra Señora, and you will twist words to bury evidence of the West's desecration of my artwork."

"This will be worth it!! Even if it's 33 years."

So the *3-Eyed 33-Year Backward Vision Wager* began, and ended back in 1787.

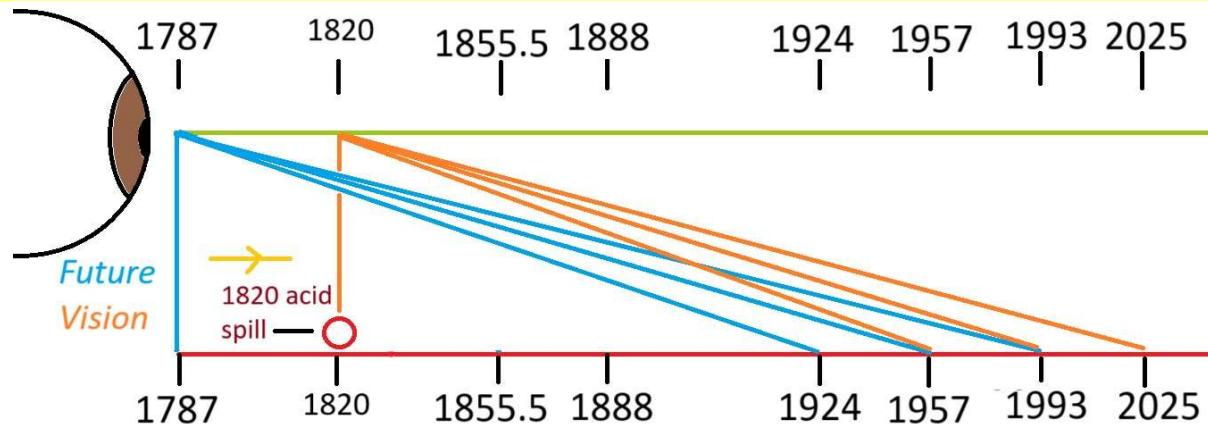

Major Violation. As time returned forward, in 1787, Satan committed a huge terms violation, by cutting Nuestra Señora's length by about 20 inches. Satan and the West did this to remove the first two badges, the original badges, which God affixed to Nuestra Señora in late 1777.

1787. In January 1787, Dr Jose Bartolache and five professional painter-artists examined the surviving Nuestra Señora tilma/canvas, and reported that virtually everything about Nuestra was different from prior reports. The painters noted that they could *match* the colors of the paint. Surprisingly, Bartolache released the measurements of the tilma. Rather than specifically saying the tilma/canvas was cut, Bartolache says, as paraphrased by Daniel J. Castellano in *Historiography of the Apparition of Guadalupe*, “*on the right border of the mounted cloth, there is a uniform fraying, which led to Bartolache's inference that there was once another piece of cloth there.*” That *piece of cloth* was cut off sometime between late 1777 and late 1786 –to remove the badges added in 1777.

Satan won the 3-Eyed 33-Year Backward Vision Wager.

5: 4-Point Double-Negative Wager

PART 1: The 4-Point Challenge

Next God explained that he was going to give Satan two final challenges, and if Satan completed them without any terms violations, God would grant Satan another wish during the Revelation Wager.

Satan, naturally, complained. God encouraged him to do his very best.

Standing in 1787 with Satan, God showed Satan the original Beast, John D Rockefeller III, in 1924, and the replacement beast John C Malone in 1957, and God's solver in 1993. God explained that the challenge was to track the subjects for 33 years, to 1957, 1993 and 2025, respectively.

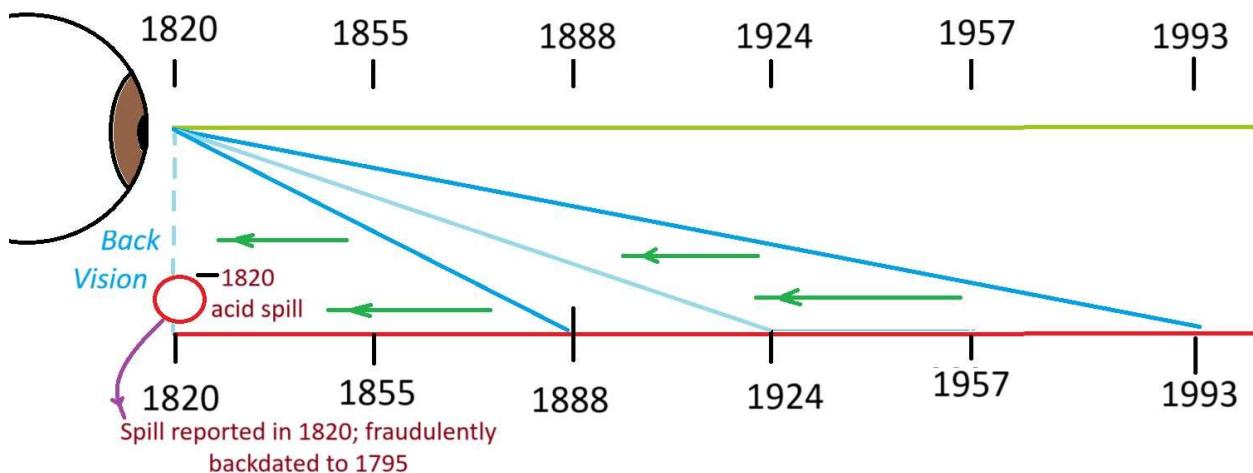

Satan passed the 4-Point Challenge. But at the end of 33 years, in 1820, Satan observed there was terrific opportunity for crime at hand, in 1820. Satan quickly began telepathic messaging his demon minions.

Major Violation. As the second half of the challenge approached, in 1820, God watched Satan order subordinates to pour nitric acid on the badges, affixed to

Nuestra in 1777. Satan then directed a servant to release a false report that the acid spill occurred in 1795 but went unreported until 1820.

But God opted to allow the wager to continue.

PART 2: The *Double Negative* Challenge

Next, gathering Satan's attention, God explained the *Double Negative* challenge: Satan will move forward for 68.5 years, from 1820 to 1888, while his left eye moves backward in time from 1888, and his right eye moves backward from 1993. At the end, Satan will stand at 1888, while his left eye is back in 1820, but his right eye is up ahead, in 1924, looking backwards.

As the wager started, with his body in 1820 but his left eye in 1888, Satan noticed there were some great crime opportunities in 1888, and sent a few telepathic instructions to his underlings.

Years later, as the challenge ended, Satan's body arrived in 1888, as his right eye arrived in 1924, and his left eye arrived in 1820.

God enthusiastically congratulated Satan for completing all of the challenges with only two major terms violations. Which is terrible –but very good for Satan.

Just as God finished encouraging Satan, He received word that Satan had arranged to have the *Informaciones de 1666* released, and they contained falsification and omissions. Much worse, Satan successfully coordinated the theft of Nuestra Señora's crown, which God repeatedly warned must not be touched, and Satan tried to backdate the crime to 1887.

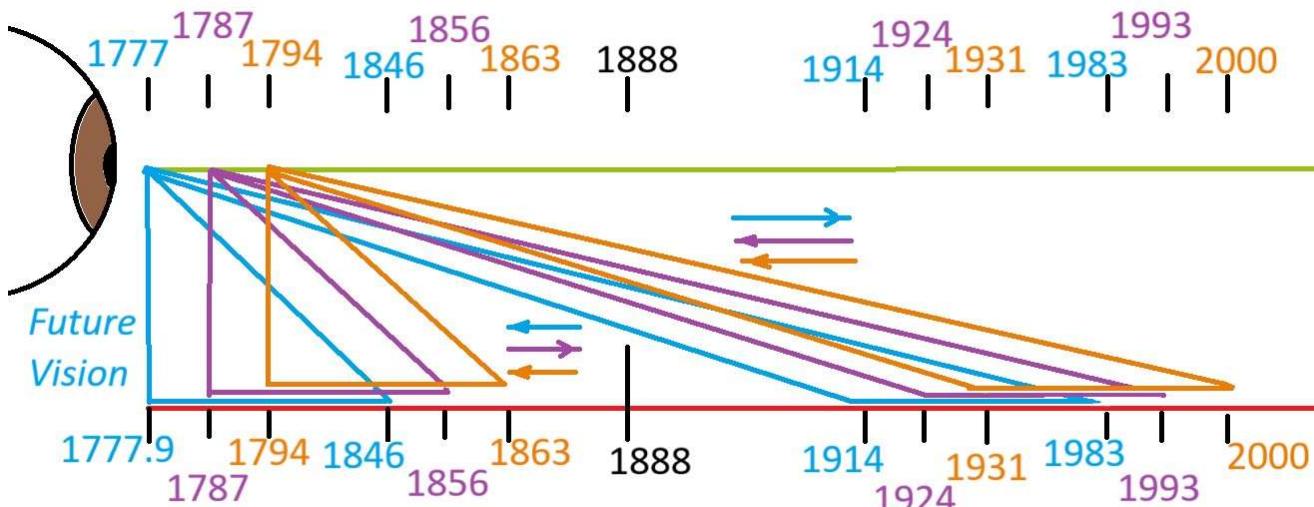

God's fury began to boil.

Satan saw God's glowing rage, and quickly explained, "I-I-I arranged that stuff at the start of the challenge, way back in 1820!"

It was too late. God exploded, back into in the past.

The Fall of the Original Beast

6: The Distraction Challenges

Furious, God arrived back in November 29th, 1777, where he had previously created a return point, resolute to give Satan a new beast minion – John W Gardner – a man who would eagerly inflict all of the harm Satan intended for non-Westerns and non-White governments and people, but who would also unwittingly do lasting harm to White Westerners.

God directed Satan, “Please, look toward the end of October, 1914.”

Satan complied, and saw a 2 year old boy.

“I think one day you will be very interested in this child. But you may not tamper with him, in any way, until after he reaches out to you –in 1937.”

Satan felt sure God was saying this small boy was the Beast.

“This is a series of 3 challenges. In the first challenge, with your left eye, as you proceed forward from 1777, your vision will proceed backward. Meanwhile, with your right eye, in the future, you must try to track the boy, forward, from 1914 to 1983.”

Satan completed the first challenge.

“In the second challenge, with your left eye, as you proceed forward in the present, from 1787 to 1856, you will try to track the boy, in the future, with your right eye –going backwards, from 1993 to 1924.”

Satan passed the challenge.

“This final challenge is a *Double Negative* tracking challenge. As you move forward, in the present, for 52 years, from 1794 to 1846, your left eye will move backward in time, from 1846 to 1794. Meanwhile, in the future,

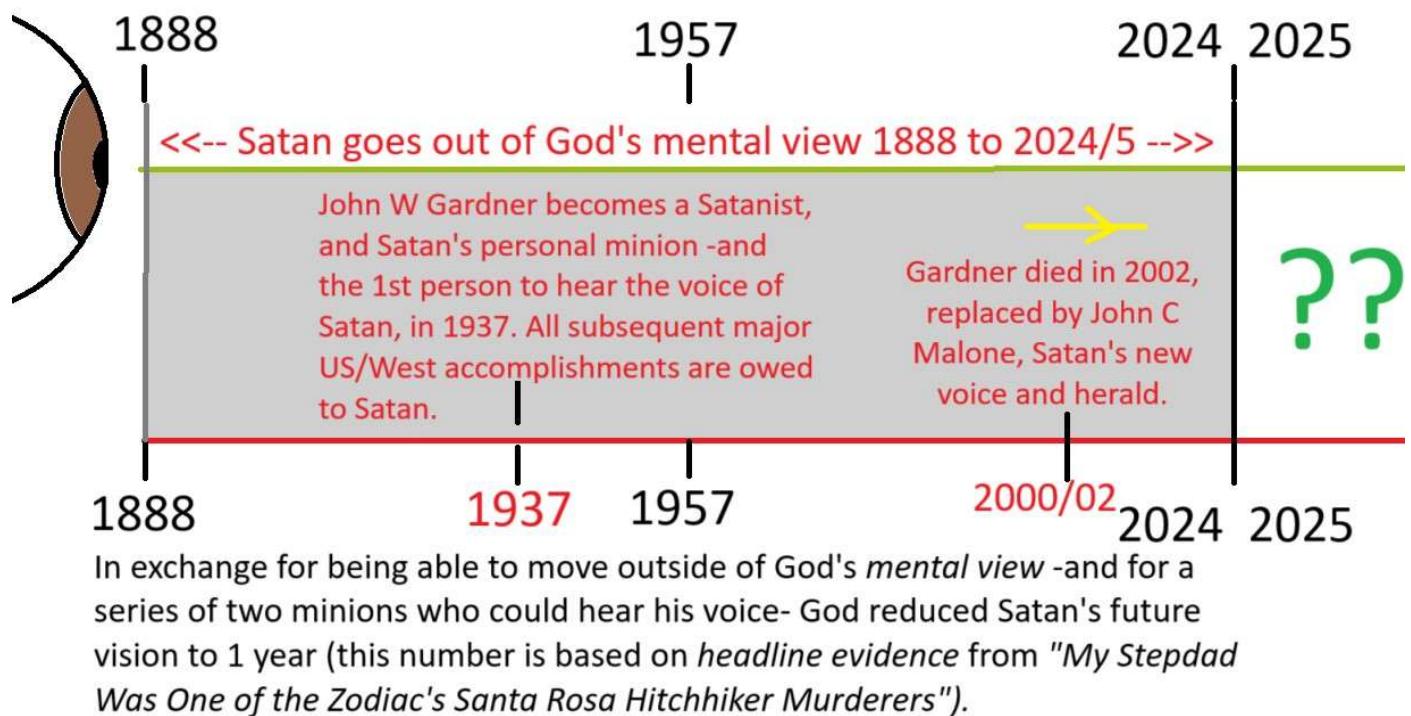

your right eye must try to track the boy, backward for 52 years, from 1983 to 1931."

Satan followed the boy attentively—eager to make John W. Gardner his Beast.

- Once Satan completed the *Distraction Challenges*, God and Satan advanced to 1888, where Satan began the Great Revelation Wager. None of the prior events were erased. However, the original beast of the future had been changed, from John D Rockefeller III to John W Gardner.

* The greatest surviving evidence that the original beast was changed are Revelation verses 11:12, 13, 14 and 19, all of which refer to 1906, the birth year of the original beast. (11:11 may also have been intended to refer to 1906). This very unusual emphasis on the year 1906 was to establish the birth years of the original third beast.

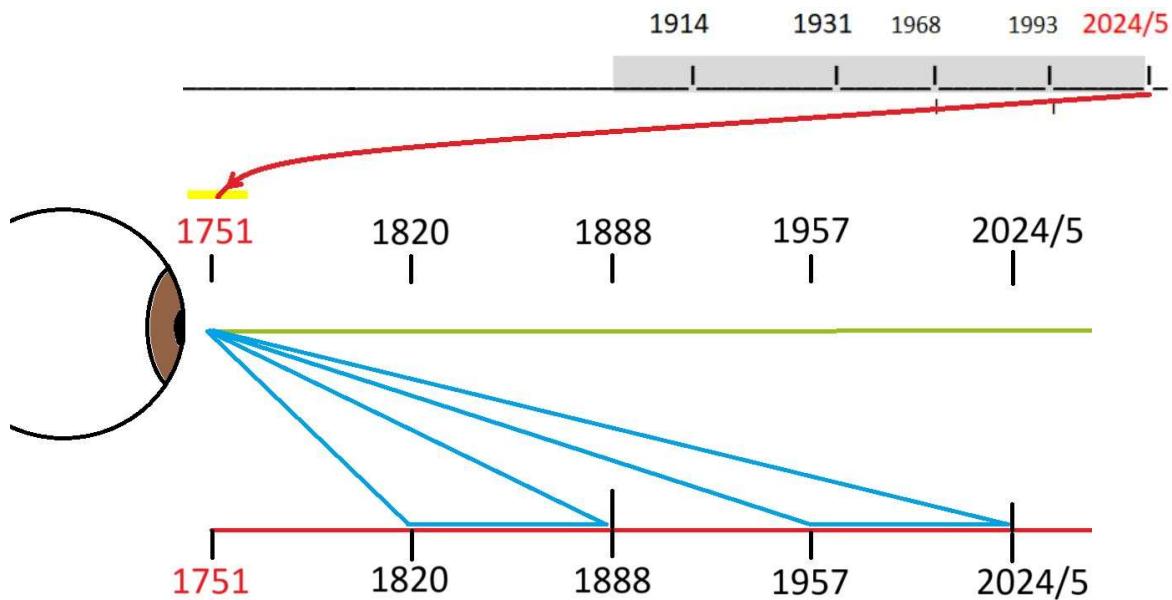

7: The Great Revelation Wager

The details of the Great Revelation Wager, like all of God's wagers with Satan, are not known to humans –or at least they are not fully known. In late 2024, as I wrote *My Stepdad Was One of the Zodiac's Santa Rosa Murderers*, I learned a few of the *Revelation wager* details: (1) Satan wanted to choose a minion who could hear his voice and carry-out his orders (before this, I believe Satan could only communicate with humans indirectly, by either [A] tempting them, or [B] sending

directions through a subordinate demons); (2) Satan wanted to move outside of God's eyesight and mental view. (See *My Stepdad Was One of the Zodiac's Santa Rosa Murderers* for more Wager details.)

8: The Double-Back in Time, Double-Vision, Double or Nothing Wager

In early 2025, God went back again, to alter the Revelation Wager outcome. The "Contingency A" section of *Killing Guadalupe* indicates God did this to teach Satan -and the West- a lesson about making corrupt and/or unfair contracts.

By the 18th century, Satan's "seat" was Great Britain. In 1751, Great Britain was the last European nations still on the Julian Calendar, which, by 1751, was about 94 days behind the prevailing Gregorian calendar.

Oddly, the last day of the year on the Julian Calendar (in Great Britain) was March 24th, and the first day of the new year, in 1751, was March 25th.

To transition Great Britain to the Gregorian calendar, Great Britain passed the *British Calendar Act of 1751*. The Act shortened 1751 by 83 days, and made the final day of 1751 December 31st, and January 1st started the new year -1752. However, Great Britain, either deliberately or accidentally, had to remove another 11 days from September 1752, to fully catch Great Britain up to the rest of Europe, New Spain and much of the outside world.

Thus, on the day God negotiated this final wager, in 1751, He, of course negotiated from Gregorian time, based on the birth of His Son, Jesus, while Satan negotiated from a calendar that was 94 days off -making any contract unreliable.

God's larger point is found in the fact that the Julian calendar, in Great Britain, in 1750, ended on the 24th day of March, and 1751 began on the 25th day of March, 1751. This Wager report was created to confirm the fact that God will defeat and destroy the US, using His Eastern forces, in God's One Hour War, on May 26th, 2025, in the Western hemisphere (this date, in the Eastern hemisphere, on the Gregorian, will be May 27th, 2025). On the Eastern/Chinese Yin calendar, the date, in the East, will be *5th month, 1, 4723* (I believe the name for the Yin's *5th month* is Xin-Si). God's point is that the year of this Event has changed, **from 2024**, as foretold in Revelation, **to 2025**, as indicated in visual or symbolic messages in Nuestra Señora, and the *Juan Diego badge*, in Nuestra Señora's lower left corner.

In Sum

There are several important messages in the wager details. Here are a few.

68.5 = Joshua 8:5

68.5 refers to Joshua (the 6th Book of the Bible), Chapter 8, verse 5.

This verse pertains to the battle and victory at Ai. Ai, in our modern context, refers to *artificial intelligence*. God is telling us that all of the US's and the West's accomplishment are owed to cheating –Satan's *artificial intelligence*. God loaned Satan the ability to see all events, into the future. Satan used these gifts to steal ideas and technology from around the world, and gave that stolen fruit to the West.

Because Satan was responsible for all of the West's ideas and evil plans, either John D Rockefeller III or John Gardner would have compliantly damned roughly equal numbers of non-Westerners and non-whites. But God, who believes strongly in punishment once a transgression goes too far, likely led Satan to Gardner because Gardner was manageably insane, and would also do great harm to Western Whites –particularly to White women with courage (courageous women are essential to the advancement of a population's intelligence). Thus, God punished the entire Western White world.

137

The number/distance 137 refers to Joshua 13:7, where God instructs on how to divide the land of Canaan:

Now therefore, divide this land as inheritance to the nine tribes and half the tribe of Manasseh.

I believe God is encouraging or directing indigenous people of the Americas, after the US is defeated, to reclaim their land.

The Revelation solutions demonstrate God's appreciation for the indigenous tribes of the Americas, or Mesoamericans; see *Revelation 2: The Solutions*, solutions #11, #197, #206, #222, #229, #232, #242, #246, #268...

2024 Postponed to 2025

Why God postponed the prophesied 2024 *One Hour War* to 2025 is uncertain. But from the facts, informed guesses can be made. I don't think the replacement beast, John W Gardner, was more effective than the original beast. God may have known that Satan would cheat, again, in the Revelation wagers. So He may have opted to address that violation by changing the One Hour War date.

Not to inflate my significance, but it's also possible that I played a bumbling role in the Event rescheduling. The fact that I didn't learn about Guadalupe until December 2024 -3 months *after* the original date of the One Hour War- may have delayed things. I'm certain God, in my Revelation solutions, wanted to include details about (1) the West's corruption of Guadalupe's and Juan Diego's stories, (2) the theft and desecration of Nuestra Señora, (3) the West's crimes against Mesoamericans, and (4) the secrets messages hidden in Nuestra Señora de Guadalupe.

The Difference Between Satan, And Satanists and Western Elites

Until I started solving Revelation, in 2023, I didn't believe in Satan. I thought Satan was a useful idea God invented to scare humans back onto the right path. But ever since I completed *My Stepdad Was One of the Zodiac's Santa Rosa Hitchhiker Murderers*, in 2024, I'm certain Satan exists.

Satan is evil beyond measure and reason, but there profound differences between Satan, and Satanists and the leaders of the West.

Satan is at war with God. But, because God cannot be physically hurt, Satan is determined to do emotional harm to God, by harming people God loves: the innocent, children, the poor, underdogs, people who respect law and reason and fairness... And because God created a system of nature to govern the Earth, Satan uses his Western followers to violate nature, and offend God.

But here is the key difference between Satan, his worshipers and most people in the West: Satan's followers, and many or most Westerners, will abandon all of their values if offered a reasonable amount of money. Satan, on the other hand, is absolutely committed and convicted to his war against God –there is no money or price that can buy Satan away from his war. Although Satan is evil and damned a billion times over, and although it is tragic and against reason to be at war with God, there is honor in the fact that Satan cannot be bribed off his position.

Because of their lack of conviction, it's almost certain Satan despises his followers.

God and Satan

God's relationship with Satan captures the complexity of being alive.

Satan once lived a human-like life and made it into Heaven. There, he advanced to the highest level of angels. At some point Satan must have loved God. And God, who loves life more than anyone or anything in the universe (having filled the Earth and the universe with life) also loved Satan.

When I was a kid, maybe 10 years old, I had an uncle who committed crimes against society, and hurt people; but I still visited him in prison, and I didn't really begin to withdraw my love until I was a man, and saw that he was incorrigible. But if my son committed a terrible crime, I would forgive him, and visit him in jail until I died.

What must God feel when someone He once loved goes very bad?

It can't be a black and white.

In Revelation, Chapter 19, we see Jesus and His angel defeat the souls of the Beast and the False Prophet, and all the souls the Beast and Satan corrupted. The Beast and the False Prophet are cast alive into the Lake of Fire, at verse 19:20.

But three verses later, in 20:2, we see God carefully put Satan in the Bottomless Pit for 1000 years. And one verse later, God assures us He will send Satan back to Earth for one final run. But finally, in 20:10, God sends Satan to the Lake of Fire, forever.

Why the Wagers?

I can only guess all the reasons God and Satan may have wagered for almost 4000 years, before their modern wagers. As for the modern wagers... The '*CONTINGENCY "A"*' section of *Killing Guadalupe* provides some important clues concerning the wager and the wager rules.

But beyond the debatable wager rules, the fact that we see angels in the Bible, working hard for God and Jesus, and sometimes finding themselves in dangerous situations (Genesis 19), indicates that advancing to the angels' upper ranks, which likely includes more privileges and abilities, may be difficult.

Toward this, I believe God sent Satan to Earth to help solve the very problem Satan tried to exploit in Heaven. And without telling Satan, God and Jesus resolved that the people who are most harmed and tested by Satan and his servants (the West), if they pass those tests, they will be allowed to enter Heaven at substantially higher levels. So, if Satan tests you a great deal, and denies you opportunities, steals from you, oppresses you, wrongly imprisons you, etc, and you don't become evil or hateful, you have a chance to enter heaven at a very high level.

A Wager Hint?

Using the symbolic date at the base of the Juan Diego badge, above, the “Hidden Messages” chapter of Killing Guadalupe suggests the downfall of the US will come in 2025. The two wolves chasing birds at the bottom of the badge could represent God and Satan, engaged in a competition to win a wager.

Timeline Date

Below are the primary event dates and their corresponding Revelation verses.

Guad/Nuestra Year	Rev Verse	Revelation event year	Rev Verse
1531	13:6 11:7/9	1777	Birth of US; New Spain's crimes against the Tamien, San Jose de Guadalupe 13:11
