# Program overview

SustainWorld Academy, in partnership with InnoVoTek Private Ltd., offers this foundational ESG and GHG training under Indian and global frameworks such as **BRSR, GRI, ESRS, and VSME**.

This hands-on program bridge the knowledge gap for professionals by combining theoretical insights, disclosure obligations, and GHG accounting basics through group exercises, case studies, and real-world reporting examples.

Upon completion, the participants gain the capability to support or lead ESG/GHG initiatives in compliance with disclosure mandates and sustainability targets.
