MEAT THE BAND

ASTRO ARCHER is a new band out of Tucson, AZ, combining the fierce spirit of rock with the crushing force of classic heavy metal. Their sound is gritty and high-powered, built on Brain Master's massive guitar riffs and the driving rhythms of the Bass Bot and the T1000. ASTRO ARCHER's music is charged with dark themes that pull listeners into worlds of video and tabletop gaming, necromancy, space adventures, and black magic.

The band's live performances are a spectacle of theatricality and raw energy. Brain Master, T1000, and the Bass Bot take the stage in costume as skeletons, robots, and other fantastic creatures, making each show feel like an immersive journey into their wild, otherworldly universe. The combination of tight musicianship and dramatic flair ensures that ASTRO ARCHER's performances are anything but ordinary.
