## **CYBERSECURITY RECRUITING SERVICES**

# CYBER TALENT POWERHOUSE

The Bachrach Group is proud to announce the acquisition of SecureRecruit. A female-led startup developed by Amy Knoell and Lisa Saur, SecureRecruit has grown to become a powerhouse in the cybersecurity recruiting sphere and now joins TBG as a new division, TBG Cyber.

Every organization has different and unique technical needs that must be considered when engaging in a search for talent. In a fiercely competitive landscape for great talent we have the ability to both find and deliver the right candidates for each role in a timely manner, saving your organization money and effort that should be spent fighting cyberattacks.

TBG has a history spanning five decades, and throughout our tenure, we have consistently provided capable, adaptable and scalable talent solutions to an ever-evolving market. Every candidate we present undergoes rigorous evaluations and are subject to comprehensive interviews conducted either in person or via video. These professionals must pass skills assessments which ensures that only the most qualified experts are referred to your organization.

 **Leadership**

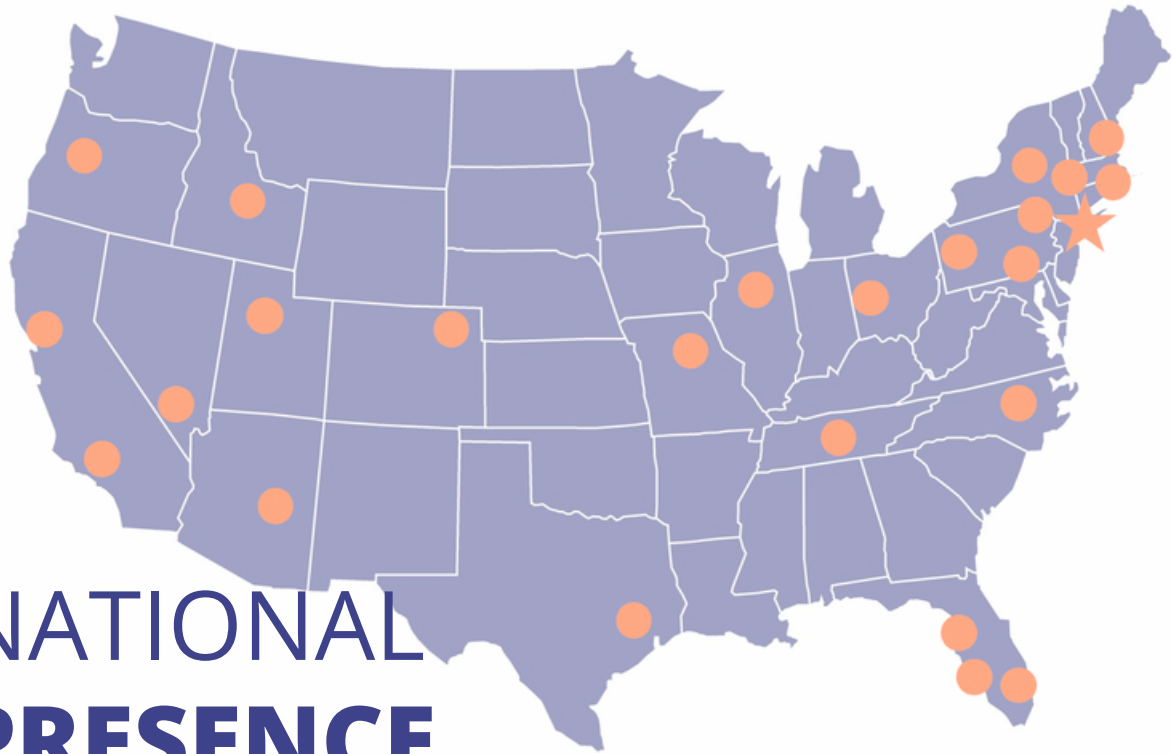

One of the fastest growing divisions at our company, TBG Technology has a long track record of delivering superior staffing solutions. With a strategic approach to talent search, our Technology Division has been highly successful at nurturing candidate and client relationships and understanding each company's specific needs, as no two searches are the same. Team longevity, dedication, and work ethic are defining characteristics of the Tech Division, keys to the team's success over the years.

Whether the opportunity is direct hire, project-based, or contract, the Tech team employs decades of combined industry experience, market knowledge, and national connections to deliver word-class technology talent from junior to C-Suite level.

# YOUR DEDICATED TEAM

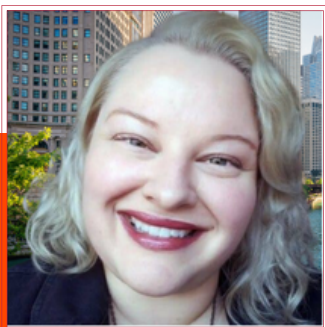

Learn more about TBG Cyber's key team members.

**Amy Knoell**  
Practice Director

Amy has joined TBG as the Practice Director for the new Cybersecurity division. With over 20 years of experience in technical recruiting and the last 17 years focused on Cybersecurity, she has built a name for herself and is well-connected in the industry. Amy co-founded SecureRecruit, a cybersecurity recruiting firm recently acquired by TBG.

Throughout her career she has managed teams and created training programs, all while working a full desk. Amy prides herself on her collaborative and supportive nature. Recruiting can be tough sometimes, so she tries to have fun and be a positive, inspirational light to those around her. Amy attended school at the University of Georgia, earned her BS in Child Development, and was a Montessori teacher for six years.

**Lisa Saur**  
Associate Director

Lisa has joined TBG as a Senior Associate, working in the new Cybersecurity division. A seasoned talent recruiter with two decades of experience, Lisa has specialized in the Cybersecurity industry for almost 10 years, building relationships and strategic connections among the industry's leading players. Lisa co-founded SecureRecruit, a cyber recruiting firm

recently acquired by TBG. She spent half her career as a recruiter, and the other half as a marketing leader. Lisa earned her Master's in Digital Marketing, and graduated as valedictorian with honors. She also earned a BA in Women's Studies.

**Susanna Mahoney**  
Senior Associate

Susanna is a Senior Associate in TBG's Cyber division, based in New York. She graduated from Iona College with a degree in International Business, where she also pursued minors in Marketing and Psychology. She has over 7 years of recruiting and account management experience. Susanna describes

herself as passionate, truthful, approachable, and open-minded. When she's not working, Susanna likes to spend time with her boyfriend and friends by visiting museums, listening to live music, trying new food, and hiking.
