

BIO

Nordic Daughter is a fusion of rock, viking ballads, and Celtic madness. We understand that Valhalla only comes after the battle. Some of our songs will rock you to your core and others will inspire your soul to return to love and light. We are one of the few rock bands that feature electric violin. We travel in various combinations with our largest stage format being a face melting 6-piece ensemble: guitar/vocals, bass, drums, vocals, electric violin, and keys. Our medium/small stage format includes guitar/vocals, drums, vocals, electric violin with optional bass. We also offer a cafe/coffeehouse combination with just guitar, vocals, and acoustic violin.
