

Viking and Celtic Traditions

Work with your wedding planner today to create your perfect wedding!

Your Special Day should be as unique as you are. To truly create the enchantment you desire, consider a wedding catered to a viking or celtic theme. Handfasting is a time told tradition that has gone back thousands of years in celtic and viking culture. How would you like to embrace the best of both worlds?

During the hand fasting ceremony we follow many traditions including the drawing of the wedding circle.

The rustic enjoyment and entertainment of the old world with a hand fasting, meets the new with the music of Nordic Daughter. The Celtic infused Alternative Folk Rock band will entertain and humor your audience during the entire reception blending your special songs into their set.
